

As sure to rise as the Sun

You can't always make everything "just so." Sometimes you will get in more shortening than usual; or make the batter a little thin; or it may not be convenient to put a cake in the oven the moment it is mixed; or your oven may not bake evenly and it is necessary to turn the pan around—none of these little uncertainties make the slightest difference in results if you use

KG BAKING POWDER

This modern, double-raise baking powder has unusual strength and is absolutely certain to raise your biscuits, cakes and pastry light and feathery. It generates an abundance of leavening gas both in the mixing bowl and in the oven. The raising is sustained until the dough is cooked through.

Housewives who use K C never have "bad luck" with their baking. Try K C at our risk. Your grocer will refund your money if you are not pleased in every way.

CHANGES IN WARFARE

MODERN GENERALS ARE UNLIKE THOSE OF NAPOLEON'S TIME.

Now Do Their Work Out of Sight of the Armies They Command, and Move Men as Would a Chess Player.

Generalship today is about as much like generalship of Napoleon's time as two-old-cat is like a major league game, writes Frederick Palmer in Collier's Weekly. The general who watches the battle from a hill will be blown to bits by artillery fire. I've never seen a general on a horse in this war. If he travels, it is in a motor car, and he travels very little.

He sits in front of a map covered with blue and red penciled lines of the trenches and the enemies. A dozen experts are around him—each a specialist. He is but the chairman of the council, the silent man who listens. The others plan and organize; he nods. Photographs from aeroplanes tell him the changes each day in the trenches. He works with a card-index system of lives and material. An expert in a brigade command decides whether it's practicable to gain a few trenches; the division staff decides to let the brigade commander try, or perhaps carries it up to the corps staff, which may in turn pass it on to the great staff. A Joffre or a Von Hindenburg sits on the lid. He must keep his mind on the great main object; he must not bother with details; and he must never, never lose his head.

Of Joffre they say that when re-enforcements are demanded he is always slow to respond. Yet they always arrive if they are needed. In one day I have seen 60,000 French troops pass over a single line of railway, for they may be sent very rapidly when necessary.

Joffre is not caught napping, though he always sleeps his eight hours a day. Von Hindenburg seems never perplexed, never rushed, though he has struck such telling and sudden blows.

Where Napoleon threw in 10,000 reserves and from his horse watched them double past to change the tide of battle, Von Hindenburg throws 300,000 men on railroad trains in the night into East Prussia, and everlasting surprises and overwhelms the Russians. Meanwhile, in what seemed a fierce and desperate attempt to break through in front of Warsaw, he was only feinting. But he did not make a half cent. It cost him twenty or thirty thousand casualties. The allied newspapers were rejoicing in his repulse before Warsaw when he was preparing his coup in East Prussia. Some Germans who were taken prisoners in front of Warsaw had on their persons copies of orders indicating that the frontal attack was to be pressed. Perhaps those Germans fell prisoners very easily.—Frederick Palmer in Collier's Weekly.

Eminent Scholar to Retire.
Dr. Basil Lanneau Gildersleeve, who is to retire from Johns Hopkins university at the end of the scholastic year, is, with the exception of Dr. Ira Ramsen, the last man of the original university faculty. His reason for retiring is his age, he having passed the eighty-third milestone. Doctor Gildersleeve, a native of Charleston, S. C., is recognized as one of the greatest Greek scholars in the world, and has been at work on a Greek Syntax, said by Greek scholars to be the most wonderful work of his kind ever attempted, and which he has himself said he never expects to live to complete. His associates in the department of Greek of the university, Dr. C. W. E. Miller and Mr. Edmund Speilker, will probably finish it. Honors conferred on him by the scientific institutions of the world are many, and his treatises on classical languages are in general use in educational circles.

Dirigible for the Navy.
It is announced that the navy department has ordered a dirigible aircraft from a Connecticut company, which is to be delivered within four months and will cost \$45,636. This craft will be 175 feet long, 55 feet in height and will accommodate eight men. The speed will be 25 miles an hour. This craft cannot be seriously regarded as a fighting machine, but is probably intended merely for practice purposes and for training operators for possible future craft. The battle cruiser North Carolina, which has become superannuated, is to be remodeled to serve as an aviation ship, and will be sent to Pensacola, which is to be made a station and school for training aviators. As soon as it is finished the new airship will be sent to the same place and a floating hangar is to be provided to shelter it.—Scientific American.

Russian Newspaper in Stockholm.
A Russian newspaper under the name of Skandnavskij Listok is now being regularly published in Stockholm. It is estimated that there are 15,000 Russian subjects residing in that city, and it is the intention of this paper to meet the needs of these people. One reason for establishing the paper is the difficulty of receiving Russian papers regularly in Stockholm, owing to the uncertainty of mail deliveries. It is also the intention of this paper to devote a large part of its space to commercial interests and attempt to join Scandinavia and Russia more closely in this respect. It will be nonpolitical as far as possible.

It Seemed That Way.
The farmer, wearing a long face, entered the country drug store. "I've got something wrong with my stomach," he announced, "and I want you to give me something for it."
"All right," replied the apothecary, cheerfully; "what are your symptoms?"
"Every little while something seems to rise up and settle back and then by and by rises up and settles back again."
The druggist stroked his chin, reflectively. "Look here," he said, gravely, "you haven't gone and swallowed an elevator, have you?"—Ladies Home Journal.

Who Will Care?
Who will care if my hair is gray?
Who will care what I have to say?
Who will care if I go or stay?
Who will care when I'm 50?

Who Will Care?
Who will care if I'm fat or thin?
Who will care if I frown or grin?
Who will care if my toes turn in?
Who will care when I'm 50?

Who Will Care?
Who will care if tears I shed?
Who will care if my nose is red?
Who will care if youth is fled?
Who will care when I'm 50?

Who Will Care?
No one will care, so I've been told;
No one will care if my feet are cold;
No one will care my hand to hold;
Oh, I'll just hate to be 50.

Rebuilt Federal Trucks

A Safe Used Truck to Buy.
A REBUILT FEDERAL is as good value for the money as a new truck. By rebuilt we mean that the truck is entirely taken apart, each part examined and if necessary replaced by a new part made at the Federal factory, the entire truck repainted and refinished, and everything necessary done to make the truck practically as good as new in every detail.
When you buy a rebuilt Federal you are protected by the same policy and interest that we give to all Federal owners. We operate a repair department, in which the workmen are specialists on Federals, our supply of Federal parts is complete, and the stock room organization high class, which insures the prompt filling of all parts orders. We also operate a service department, which is open day and night, "always at your call." The Federal being a good truck in the first place and protected by a company which is equipped and has the disposition to give you service—is consequently

Taking Precautions.
A rosy-cheeked youngster dressed in his best clothes entered the village postoffice and carefully laid a huge slice of iced cake on the counter.
"With my sister the bride's compliments, and will yer please eat as much as yer can?" he said.
The postmistress smiled delightfully.
"How very kind of the bride to remember me," she cried. "Did she know of my weakness for wedding cake?"
"She did," answered the youngster, coldly, "and she thought she'd send yer a bit of it this afternoon just to take the edge off yer appetite before she posted any boxes off to her friends."—London Tit-Bits.
