What Does Our School Mean to us?

Now that school is underway again, let us inquire of ourselves, "what can we do to help in this work of education of our boys and girls and help them in laying a good foundation for an equal chance among their fellows?"

Parental duty toward their student children, might be summed up as follows, see that the child is in school every well day, inspiring at home punctuality, cleanliness, obedience, respect for his teachers and his fellows, and showing at all times clean, wholesome morals. Parents, patrons and the school board alike should vie with each other in giving the teachers their earnest support and cooperation at all times.

Teachers will have a greater inspiration and will work for better results if they feel that their patrons are taking a real interest in them and their school work. They should maintain strict discipline at all times, with due regard to reason.

"Now what can I do as a student to help for a better school?" Answer, be square with yourself, your teachers and your fellows, make a real business of your studies while engaged with them and when at play. Do that too with your whole heart and might. Remember you have only one disposition to oversee while your teacher has the dispositions of you and all your school mates to direct.

Pupils should be told occasion-

ally how the several studies are related to each other and their relations in the business world, also they should be made to feel a personal interest in them and their work in the various studies, and this interest should come from other sources besides the teacher.

This article is made of homely old truths but if strictly adhered to, value received will be gotten from every effort and every dollar spent for school purposes and we will all have a broader view of life, for we will know that we are really helping and not indifferent to this mighty problem. By all means visit your school.

The Oregon Blue Book has been received at this office complimentary from Secretary of State Ben W. Olcott, and contains statistics of particular interest to every citizen of this state. It contains a brief history of Oregon, state constitution, latest laws, names of all present state and county officers, views and information on the state institutions, federal government departments of Oregon, census reports and much other valuable information which it would be an advantage to have at hand. Three things we note as being omitted, the population of Maupin, the names of the Maupin State Bank and the Maupin Times. Let's get on the list and not be overlooked again.

"Today is the tomorrow you worried about yesterday, and see—that hurtful thing did not hap-

Have we a Maupin Commercial Club? In a copy of the Times of about one year ago, we notice the fact mentioned that Mr. Egan was president of the commercial club. Letters of inquiry and numerous circulars have been coming to Maupin for that body, and as we were not aware of any organization, have received such mail, tried to answer inquiries as far as possible with sample copies of the Times, and to print such parts of circulars as seemed of moment local interest. However, an organization could work much more beneficially to the community in this matter as well as many others.

W. B. Kurta wrote announcing that he will be in Maupin next Thursday, the 30th, and will receive hogs Saturday and load on Sunday as no freight leaves on Saturday.

ANNOUNCEMENT

The following prices f. o. b. Detroit, effective Aug 2, 1915:
Ford Runabout . . . \$390.
Ford Touring Car . . . 440.

No speedometer included in this year's equipment, otherwise cars fully equipped.

There can be no assurance given against an advance in these prices at any time. We guarantee however, that there will be no reduction in these prices prior to August 1, 1916.

Profit-Sharing With Retail Buyers

On August 1, 1914 we made the announcement that if we could make and sell at retail 300,000 Ford cars between August 1, 1914 and August 1, 1915 we would share profits with the retail purchasers, to the extent of from \$40 to \$60 on each car. We have sold over 300,000 Ford cars in the time specified, and profit-sharing checks of \$50 each will be distributed as rapidly as possible after August 15, 1915. Retail purchasers who have not yet mailed us their profit-sharing coupons, properly endorsed should do so without delay.

Our plan to profit-share with retail purchasers of Ford cars during 1914-15 has been most successful. We thoroughly believe in it, but realizing the uncertainty of conditions generally makes it advisable to defer any announcement of future profit-sharing until a later date.

We are, however, confident of our ability to reduce costs for several months, and therefore profit-sharing for cars delivered during August, September and October, 1915.
