Low railroad fares for the round trip will give many an opportunity to visit Portland and view the great array of exhibits from the factories, the forest and the field. This year there is to be a grand prize for the best county exhibit, the best individual farm exhibit and for apple and potato displays. The complete premium list will be announced later.

Preparations are being made for many special events and cities and towns of the Northwest will have days set aside for them at the show when excursions will be run to Portland. The exposition this year will be the most complete of the kind ever presented in the Northwest.

TELEPHONE FOR MAUPIN PEOPLE

Mr. Robertson, the O. R. & N. telephone inspector, was here Tuesday making examination of telephone and interviewing Maupin business people. The subject of a local telephone system for Maupin seems to be heartily endorsed by our citizens. The Pacific States Telephone Co. offers a commission of 15 per cent to the local operator on long distance calls and the railway companies \$1 a month each. The Rangers Telephone Co. offer to put a line through as soon as a switch board is put in here.

The proposed telephone system will not necessarily interfere with the one already in use but be an independent line and pay switchage when going through Tygh central, which will with the rangers connection make three direct routes to get long distance service to Portland.
