Followed instructions.

"Gracious, man!" exclaimed the doctor when Mr. Glubbins calls him in a hurry. "Your temperature is rising along near the danger point, and you—"

"And I'm worse off than I ever was before, all through the diet you prescribed."

"Impossible, Mr. Glubbins. I told you distinctly to yourself to eat such food as would be taken by a 3-year-old child."

"And didn't I obey orders? I ate apple cores, dog biscuits and ends of burnt matches and scraps of peeling and everything else I could pick up while no one was looking, and here I am pretty nearly dead!"

Hastily reflecting upon the gastrointestinal tendencies of the average 3-year-old child, the doctor tells Mr. Glubbins that he has been overdoing the diet and will have to subsist on soft toast and hot water for a week.

Resinol Stops Itching Instantly

It is a positive fact that the moment resinol ointment touches any itching skin, the itching usually stops and healing begins. With the aid of resinol soap, it quickly clears away all traces of eczema, ringworm, pimples, blackheads, or similar tormenting, unsightly eruptions, leaving the skin clear and healthy.

And the best of it is you need never hesitate to use resinol soap and resinol ointment. There is nothing in them to injure the tenderest surface. Resinol is a doctor's prescription which for twenty years has been used by careful physicians for all kinds of skin affections. They prescribe resinol freely, confident that its soothing, healing action is brought about by medication so bland and gentle as to be suited to the most delicate or irritated skin—even of a tiny baby. Every druggist sells resinol soap and resinol ointment.

INFECTION IS FATAL

Renew Your Health

Bite of Fly Deadly to All Human Beings.

Fatal Sleeping Sickness, So Dreaded in Africa, Has Been Traced to the Tsetse Fly—Wild Game a Source of Danger.

The wiggly little things shown in the picture that accompanies this article are the creatures that cause the dreaded "sleeping sickness," or nagana, so common in Central Africa. Sir David Bruce, who more than any other man has studied this disease and its causes, delivered four lectures on it before the Royal Lodge of Physicians in London in May.

The creatures that cause the disease are called trypanosomes. There are many types or species, some more plentiful in one region, some in another; but all have the same general form. They multiply in the digestive organs of the tsetse fly. This bites human beings and animals, and the trypanosomes pass into their blood and infect them, just as the microbes of malaria and yellow fever are carried by mosquitoes.

Not all tsetse flies are infected, for Sir David Bruce says that "if a man is bitten by a tsetse fly in the sleeping sickness area of Nyassaland it is 500 to 1 against his taking the disease, since only 1 in 500 flies is infective with the specific parasite."

But if a man be bitten by an infected fly it is almost certain that he will die within three or four months. No cure has yet been discovered and no human being has yet recovered, though 83 per cent of oxen recover.

The wild game of Central Africa is heavily infected, and these buffalo, antelope, etc., are the reservoir of the disease.

Stability Wanted.
"It's no use," pouted little Freddy, who had just completed his first week at school, "I shall never go to school again!"

"But why?" asked his mother.

"What's the use of going? I shall never learn to spell!"

"What do you mean?"

"Well, how can I learn to spell when the teacher changes the words every day?"—Chicago Herald.

Sympathy.
A gentleman traveling on horseback not long ago came upon an Irishman who was fencing in a most barren and desolate piece of land.

"What are you fencing in that lot for, Pat?" said he. "A herd of cows would starve to death on that land."

"And sure, your honor, wasn't I fencing it to keep the poor bastards out of it!"—Philadelphia Public Ledger.

Nabbing Him Quick.
Mr. Singleton—Do you believe in divorce, Miss Yellowleaf?
Miss Yellowleaf—Oh, you men are just awful! You haven't even asked me to marry you yet!—Judge.

How Could He?
"Do you know John Jones hasn't said a word all evening?"
"Well, he hasn't had a chance."

"What's he doing?"
"Having a big argument with his wife."

On the Safe Side.
"So you intend to be a soldier when you grow up. Don't you know you'll be in danger of getting killed?"
"Who by?"
"Why, by the enemy."
"Then I'll be the enemy."—Boston Transcript.

The Nameless Spy.
Watching artist.
"E didn't ought to be 'lowed to sketch the old castle!"
"Why not? 'E ain't got it nothin' like!"—Punch.

Acquitted.
"Why do you say the officer is wrong?" demanded the judge, "when he swears you came up behind him silently at the rate of 25 miles an hour?"
"Because the running board always rattles at 10 miles an hour."

No Wonder.
"Was Mrs. Brown pleased when you asked her to join the Shut-in society?"
"Pleased? Why, she hasn't spoken to me since. How should I know, though, her husband was in jail?"

IN STERLING LIVES A GIRL

Who Suffered As Many Girls Do—Tells How She Found Relief.

Sterling, Conn.—"I am a girl of 22 years and I used to faint away every month and was very weak. I was also bothered a lot with female weakness. I read your little book 'Wisdom for Women,' and I saw how others had been helped by Lydia E. Pinkham's Vegetable Compound, and decided to try it, and it has now made me feel like a new girl and I am now relieved of all these troubles. I hope all young girls will get relief as I have. I never felt better in my life."—Mrs. JOHN TETREBULT, Box 116, Sterling, Conn.

Massena, N. Y.—"I have taken Lydia E. Pinkham's Vegetable Compound and I highly recommend it. If anyone wants to write to me I will gladly tell her about my case. I was certainly in a bad condition as my blood was all turning to water. I had pimples on my face and a bad color, and for five years I had been troubled with suppression. The doctors called it 'Anemia and Exhaustion,' and said I was all run down, but Lydia E. Pinkham's Vegetable Compound brought me out all right."—Miss LAVISA MYRES, Box 74, Massena, N. Y.

Young Girls, Heed This Advice.
Girls who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion, should immediately seek restoration to health by taking Lydia E. Pinkham's Vegetable Compound.

HIS SISTER'S LITTLE ANGEL

Bachelor Told to Keep Eye on Youngster So That He Wouldn't Get Into Any Mischief.

"I was visiting my married sister in Toledo last week," relates Buck Hayes. "She's got a three-year-old kid, and, while I am fairly fond of children, I am a bachelor and somewhat set in my ways. I was rather dismayed, therefore, when my sister proposed leaving me in the house with the child one afternoon. And here's what she said:

"Don't put yourself to a bit of trouble—he can take care of himself. See that he doesn't climb up to the pantry shelves and keep an eye on him so that he won't get into any mischief. He won't annoy you. Don't let him go down cellar and watch that he doesn't get hold of the books in the library, and he'll amuse himself all right. If he cries give him a cookie, and if that doesn't stop him ride him on your back. But don't let him bother you a bit. I'll be home in an hour."—Cleveland Plain Dealer.

Just a Space Filler.
"I must have more salary," declared the showgirl.

"For what?" demanded the manager.

"For acting."

"You don't act."

"Aw, you can't fill my place, anyhow."

"Aw, can't I? I can fill your place with an artificial palm."

Probably Would.
"Celebrating mothers' day by wearing a carnation is a pretty custom, isn't it?"

"Quite so. Another quaint idea would be for every girl to help mother wash the dishes."

"Yes; I think that would surprise mother all right."

A Faux Pas.
"You certainly put your foot in it when you told Mrs. Flirty that the fact you were arguing was as plain as the nose on her face."

"Why did I put my foot in it?"

"Because she is considered to have a pretty nose."

HIS IDEA.

The Invitation.
Hello, Mabel!
"Oh, hello, George!"
"How are you, Mabel?"
"Just fine! How are you, George?"
"Same. Say, Mabel, let's go through the park this afternoon. What do you say?"
"Well—ah—ah—ah—I—ah—I'm kind of well, I think I'm tired, George."
"Then you won't go?"
"I'm so sorry, but, George, you understand just how it is, don't you, George, dear?"
"Yes, I guess so. I suppose I'll have to ride with someone else, then."
"Ride!"
"Yes; my new eight-cylinder roadster came this morning."
"Oh, George! Did it really? Isn't that just splendid? Say—ah—George, I guess I'm not as tired as I thought I was."
"Well, I wouldn't take any chances if I were you, Mabel. It doesn't pay. I'll take someone else."
"But, really, dear, I'm not tired a bit. Honestly."
"It's sweet of you to say that, but I don't want to take advantage of your kindness. Good-by, Mabel."
Mabel slammed the receiver violently on the hook. "Darn it!" she muttered. "Why didn't he say so in the first place?"—Michigan Gargoyle.

Mental Arithmetic.
The following question was put to some young pupils in a public school: "There is a family of five children. The mother has only four potatoes to divide among them. She wants to give each child an equal share. What is she to do?"
Silence prevailed in the classroom; every pupil was calculating diligently. Finally one boy put up his hand.
"Well, Sammy, what would you do?" asked the teacher.
"Mash the potatoes, ma'am."—Philadelphia Public Ledger.

The Reason.
"So you think the plaintiff wept crocodile tears."
"Sure I do. Wasn't he the allegator in the case?"—Baltimore American.

Within Her Rights.
A woman mounted the steps of the elevated station carrying an umbrella like a reversed saber. An attendant touched her lightly, saying:
"Excuse me, madam, but you are likely to put out the eye of the man behind you."
"Well, he's my husband," she snapped.—Chicago Herald.

Dr. Pierce's Pleasant Pellets first put up 40 years ago. They regulate and invigorate stomach, liver and bowels. Sugar-coated tiny granules.

A Pretty Test.
"When a young man proposes you should always be careful and test his love," cautioned the chaperon.
"But I go one better, auntie," twittered the pretty Baywater girl. "Do you see this tiny bottle?"
"Yes. Does it contain perfume?"
"No; it contains a lid. I test the engagement ring."—Philadelphia Public Ledger.

Accounting For It.
"How do you account for the fact that George Washington never told a lie?" asked the teacher.
"I guess he never went fishin'!" piped the small urchin at the pedagogue's extremity of the class.—Indianapolis Star.

Raw Remark.
"I made a rare discovery yesterday at Mrs. Dingle's dinner."
"What was it?"
"The steak was underdone."—Baltimore American.
