Following are names of prize winners in the School Children's Industrial fair held in connection with the county fair in The Dalles recently.

Wamic, Lawrence Griffis, 10 potatoes first; Alda Norval, head cabbage first.

Tygh Valley, Andrew Gibbs, 4 chickens second; Louise Morgen-

sen, 3 jars jelly first, sewing exhibit first.

However, he has very creditably reproduced the original, sending it to the Tygh fair, and it is to be hoped that the elements will be more favorably minded this time.

Electric Light Good Bath. Mount Vernon, Ill.—Chauncey Honch-in, Fred Van Natta and Rex Fowler, White river fishermen, have invented a plan which has been helpful to them in catching fish. They made an arrangement for lighting the water, which attracted hundreds of fish to the place, and these eagerly bit at the bait dropped to them on hooks. The catches were unusually large. The arrangement for lighting the water consisted of eight dry batteries, to which an electric light was attached and dropped into the water. The wire was heavily insulated to prevent charging the water with electricity.
