### REAL ESTATE ON THE MOVE

#### More Building to Be

Job Crabtree recently purchased a lot across the street toward the river from the Oakley property, and has erected a little tent house thereon and moved his family into it until such time as he can get to build a permanent residence.

A. C. Moad this week purchased the building of S. R. Ray vacated by Job Crabtree and has had it moved to the corner lot below the church which he also purchased this week. After some renovation of the house the family expects to move in and put necessary additions on later.

While we regret losing these people as occupants of the Times building, we are glad they will be this close. Mrs. Moad's level headed motherly advice has helped our youthful wits out of many a perplexity, and their sojourn in the building has been pleasant and profitable to us.

#### Wapinitia Items

We wish to thank the editor of the Maupin Times for the liberal check we received last week. We are glad to know our efforts in working for the Times are appreciated and feel as though we could not get along without the Times.

Gottlieb Teschner, who is employed on the Dee Woodside farm, while going to Maupin last week, had the misfortune of badly injuring one of Dee's horses, Mercy Madron, who has been quite sick, is much improved, being able to sit up at present. Her sister Pearl has also been quite sick lately.

Calvin McCorkle made a trip to Tygh Valley last Thursday.

Quite a little excitement occurred in the neighborhood of Gabelville last week, several persons reporting that they saw a cougar a number of times. A posse of men are planning on trying to capture it the last of the week. A splendid show was given by the local talent of Tygh last Saturday night at the Evick hall. A very large crowd was present and all join in praising the Tygh people for the able manner in which the characters presented their different parts. The Wapinitia Band furnished music between the acts.

J. P. Abbott reports a fine crop of lambs so far this year, it having been an ideal spring for the sheep. The grass was never better at this time of the year than at present. It is said that there are two blades of grass growing this year to where there was one last. In fact, it seems that Dame Nature has accomplished for us this year what no one has been able to do, for as the saying goes, that which this world needs most, is something that will cause two blades of grass to grow where there is only one.

John Powell and wife are staying at the old Davis place at present, they having the place rented, and are putting in the spring crop.

Bill Sturgess has rented the old Cristle place, and also the Ollie Weberg place belonging to J. P. Abbott, and has started farming them.

Clyde Whitlock, formerly of this place, arrived here last week from Southern Oregon and is visiting at the home of his brother-in-law, O. L. Paquet.
