

THE MAUPIN TIMES

Devoted to the Interests of Southern Wasco County

VOL. 2, NO. 30

MAUPIN, SOUTHERN WASCO COUNTY, OREGON, FRIDAY, MAY 5, 1916

THE YEAR \$1.50

BIG CROWD TO GRASS V. SUN.

Last Sunday we had the pleasure and honor of an invitation to ride to Grass Valley with our Baseball Manager L. D. Kelly and wife in their magnificent Cadillac 8. The day was fine and we soon covered the miles over hills and some rough road going by the way of Tygh Valley, Sherar Bridge and up the Grass Valley long grade of sharp stones and short curves. Landing on top, we found about 12 or 14 miles of splendid road into Grass Valley. Driving to the city park, adjoining the ball diamond, an elegant luncheon prepared for the occasion was spread. The collection of some 14 families from this side, totaling about 72 persons, enjoyed themselves seeing who could put away the most food in

the same length of time. At 2:30 the game was called and was very interesting until 8th inning, when something went wrong. Our boys played out of luck and lost the game, although we are not willing to concede, as the excerpt below from our esteemed contemporary, the Jefferson County Record, might imply, that the failure was due to the absence of our services as mascot. All turned homeward and in the shade of the evening we certainly had a nice ride, arriving in Maupin just at dusk. The going and return trips between Tygh and Grass Valley were made in one hour and forty minutes. "The baseball fever has struck Maupin. A 3-column 'scare-head' over the write up. But it was ungallant not to select Jess Disbrow as mascot of the team." J. C. Recorder.

GOD FELLOWS HAVE BIG FEED

Wapinitia Lodge I. O. O. F., No. 209, met with Tygh Lodge, No. 270, last Saturday evening. This meeting was for the benefit of Wapinitia Lodge and to take six candidates through the mysteries of the 1st, 2nd, and 3rd degree. Three auto loads left Maupin at 7:30, reaching the little city of Tygh after a short ride of eleven miles. We first thought we were in Portland, as all we could see was autos parked up around the hall and along the streets. Going up into the hall we found it full of Bro. Oddfellows, and we were soon busy greeting old friends and new ones. Dufur Lodge had turned out sixty strong and with them was their fine team which was to put the candidates through the degrees. At 8:30 Noble Grand Bro. Black of Tygh Lodge called the house to order and then turned it over to the Dufur Noble Grand who instructed their team to get ready for their victims. The 1st degree was put on by the Dufur team, and was most impressive, each one going through their parts in grand style. When that degree was through with, supper was declared the next thing in order, and all adjourned to the banquet hall on the lower floor. Tables had been placed around the entire hall and plates laid for 100. Ninety-four Odd Fellows were seated at one time, and the fight was on, and such a feast as the Bros. and Sisters of the Rebekahs are famed for. We were all very busy making our attack on the 'enemy' in front of us, when we heard a loud command, "Heads up, look this way." All looked and saw Bro. Burtner on the stage with his rapid firing machine and shot us all. After supper we returned to the hall. Bro. Metzger passed the cigars around. The 2nd degree was put on by the Tygh team who were loudly applauded when they marched in and went through their various evolutions on the floor. The third degree was put on by the second team of the Dufur Lodge, and they received their well earned applause. After all team work was over and the candidates were duly declared full fledged Odd Fellows, speech making was in order, and a short time was enjoyed in listening to the Bros. tell about how well they liked the I. O. O. F. Daylight was beginning to appear when the Noble Grand declared the session over, and we were soon hunting up our car and making time for home. One hundred Odd Fellows attested to the generous hospitality and bountiful banquet given by the Tygh Lodge. The candidates who took the three degrees were Bates and Dud Shattuck, Frank Stuart, Fred Covey, Dave Donaldson and W. H. Staats of Wapinitia Lodge and Fred Buskell of the Dufur Lodge. A Bro. Odd Fellow.

SENT IN BY OUR CORRESPONDENCE

Wamic News

Be sure to bring your baskets well filled. Coffee and lemonade will be served free

WAREHOUSE TO HAVE ELEVATOR

Monday was a lively busy day at this place, the occasion being the annual meeting of the Hunts Ferry Warehouse directors and stockholders. A leading subject brought up for consideration of stockholders was the installation of a grain elevator which will eliminate the use of grain sacks. The construction of a wood elevator to cost in the neighborhood of \$10,000 was voted with 248 in favor and two against. A fifty per cent dividend was declared, the year's profits. In order to handle such an undertaking it was decided necessary to enlarge the capital stock from the present \$5,000 to \$15,000, at the same time increasing the maximum number of shares allowed one individual from 40 shares to 120 shares. The same officers have charge as during the past year with F. S. Fleming reelected for three years.

Big Fish Here

The big fishing season is on in the Deschutes river and numerous reports of many and large fish being caught are to be heard every day. Thursday afternoon of last week Ed Brown caught thirty-eight fine trout ranging in length from 15 to 20 inches. Local anglers are taking advantage of the attractive opportunities an hour or so each day and several from outside points have made visits to the river.

Have you ever lost a crop of hay through mustering your barn and hay through spontaneous combustion? There is one sure way to prevent this—

USE SALT

when you stack your hay

IT PAYS

The Salt more than pays for itself in the weight of the hay. There is a further gain in weight through moisture held—and the steek will eat up salted hay clean where unsalted hay will be mussed over and wasted. 20 pounds of salt should be used to each ton of hay. Stack three feet of hay, sprinkle the salt over this by hand. Then another layer of hay, more salt, and so on. Experiments carried out at the Wisconsin experiment station indicate that salt should be supplied to dairy cows unless the ration furnishes a sufficiency thereof. It is calculated that the minimum quantity in the food to keep a cow of 1000 lb. live weight in flourishing health is that which is equivalent to 3-4 oz. salt per day, and that a cow in milk needs as much more as will restore the proportion removed in the milk, namely, a little over 1-2 oz. of salt for every 20 lb. of milk.

Detroit. On display and sale at

Fischer's Garage
MAUPIN, ORE.

Will We Celebrate

What about a Fourth of July celebration for Maupin? Maupin has as many assets with which to show the public a good time as any place which could be found. Near the spring are pleasant camping grounds. The hotels, stores and ice cream parlors will be ready to cater to wants. The local ball boys if informed of the public desire for a game here that day would undoubtedly arrange their dates accordingly. The Band boys who always cheerfully render their services, may be depended upon. Maupin boasts of an excellent race track, and all kinds of opportunities for swimming contests in the river. Perhaps some one would volunteer to get in a bunch of toy balloons for the kiddies, and the Times is prepared to show you a fine line of samples and quote prices on heralds of the event.

Go to Talcott's for your ice cream Sunday.

What Do Know About Handling Bulk wheat?

1. What is the sack outlook for 1916?
2. Will money be saved to the farmers of the Inland Empire by Handling grain in bulk?
3. What must the Farmer do to handle wheat in bulk?
4. What must country warehouses do to handle grain bulk?
5. What does handling bulk grain mean at Terminal points in export trade?
