 Class Prophecy - Ivy Flinn
 Music - Class Chorus
 Class Will - Harold Gabel
 Oration, "The Power of a Purpose," - Robert Tapp
 Class Song - "Farewell"
 Mr. and Mrs. J. W. Ayres drove over from Smoek Monday.

Grand Opening

Saturday night Shattuck Bros. opened the doors of their big store room just nearing completion to about 200 friends who gathered in response to an invitation for all to come and dance. Music was furnished by the local orchestra and band, and it would appear that all had a most enjoyable time, as the dawning morning was the first signal of the hour to cease dancing.
 Mr. and Mrs. Bates Shattuck in company with Mr. and Mrs. W. H. Staats and Mrs. R. S. Slusher a week ago Sunday motored to the Beavis-May oil well near Dufur also visiting the homes of Mrs. Staats children nearby, and enjoying a big feed.
 Claude Wilson and W. H. Staats motored to The Dalles Wednesday.

Declaration for Handling Grain in Bulk

By the Grain Growers' Convention in Spokane, May 6th

The following figures show there is a profit of 2 1-4 cents per bushel from bulking wheat as compared with sacked grain:

COMPARATIVE COST OF HANDLING GRAIN FROM FIELD TO MARKET IN SACKS AND BULK			
Sacked Wheat		Bulk Wheat	
	Per Bu.		Per Bu.
Threshing for sacks	7 3-4 cents	Threshing	6 3-4 cents
Sacks at 8 cents	3 1-2 cents	Hauling	2 1-2 cents
Hauling	2 1-2 cents	Handling in local warehouse	1 cent
Handling in local warehouse	1 1-2 cents	Freight	10 1-4 cents
Freight	10 1-4 cents	Handling in terminal warehouse	1 cent
Handling in terminal warehouse	1 1-4 cents		21 1-2 cents
	26 3-4 cents		
Total cost sacked wheat	26 3-4 cents per bu.		
Total cost bulk wheat	21 1-2 cents per bu.		
Saving by bulk wheat	5 1-4 cents per bu.		
Less return sack	3 cents per bu.		
Net saving by bulk	2 1-4 cents per bu.		

We believe that a successful system of handling grain in bulk depends upon the individual farmer providing his own storage on the farm; either by bins, granaries or farm elevators, where grain may be held until sold.

It has been fully demonstrated that the present flat warehouses can be successfully adapted at comparatively small expense, to handling grain in bulk.

Full assurance has been given by the railway officials and terminal warehouses that they will meet farmers and interior warehouse men in arranging for the full handling of grain in bulk.

In answer to the argument that grain must be sacked for exporting from the Pacific Coast, authentic reports show that less than 25 per cent of the grain from the Northwest is exported annually and the Panama Canal has removed the necessity of sacking the greater part of the small percentage of the crop that is exported.

The grain prices in the world's market are quoted on a bulk basis, therefore there will be no difference in the price of bulk or sacked grain when the bulk system prevails throughout this territory.

Since it is practically the unanimous opinion of the 300 grain growers at this convention that a change should be made in the Inland Empire from sacked grain to bulk grain, we urge the necessity of immediate action by the individual farmer and the interior warehouse companies, to provide the necessary equipment to handle the 1916 crop in bulk. United action on the part of the farmers is essential to the success of bulk handling of grain.

EXECUTIVE COMMITTEE

- | | |
|--|--|
| ALMER McCURTAIN, Chairman
Davenport, Wash. | HAROLD HOOKER, Secretary
Spokane, Wash. |
| WHITMAN COUNTY—
M. E. Stansell, LaCrosse
A. C. Whisler, Garfield | LINCOLN COUNTY—

For Portable Grain Bins see
TUM-A-LUM LUMBER CO.

The regular letter from Critter would suggest that since the cor- preparing to go away, that some ion is very much missed, and we respondent for the past year is one else take up the work.

Higbee of Harvard

A very appropriate closing number of the picnic program was the play, Higbee of Harvard by the Tygh Valley Players Club, under the able management of Dr. H. L. Shannon, for the benefit of the Industrial Club work of Wasco county. Governor Wythe-combe and party and a large crowd filled the hall. Co. School Supt. Bonney and family were also among those in attendance. There was much applause and favorable comment by those present who pronounced the play a perfect success.
 At the conclusion of the play Gov. Wythe-combe met each member personally complimenting them for the very able manner in which their parts were rendered. Those taking part were: Prof. and Mrs. S. W. Bennington, Misses Jannette Harper, Pansy Love, Frances Morrow, Messers G. R. Burtner, G. W. Brown, Belvia Patison and Vernon Norval.

Rally at Tygh

The Industrial rally held at the Southern Wasco County fair grounds, near Tygh Valley, Friday the 12th was a charming and successful affair. The smiles on the faces of the immense crowds of people estimated to be 1,500, told of the pleasant time they were having. The day was ideal for such an occasion. The governor's address, as well as others was most interesting, and much applause greeted each speaker. Music was furnished by the Wapinitia band, patriotic songs sung, warm hand shaking, and general good time was the order of the day. A. A. Bonney president of the Fair association, conceived the idea of bringing the people together, knowing that it would be instrumental in inspiring them to the realization of the value of procuring the ground for a public park. These grounds have been offered at a low figure by the present owner, W. H. McAtee, for public use.

Base Ball Notes

Maupin Babes (second team) will play Tygh next Sunday on the local diamond, and a return game at Tygh Valley a week from that date. These boys are not as inexperienced in the base-ball business at least as the team name might infer, and will show you a good game. They were scheduled to play the Wapinitia Pick-Ups last Sunday at that place, but upon their arrival the opponents would not play.

The game between the locals and Moro Sunday on the home diamond was a victory of 2 to 11 for the visitors. Maupin had too much dance the night before.

Maupin will go to Gateway Sunday by auto. An attempt was made by Manager L. D. Kelly to charter a train for the occasion, and take Maupin in full colors to the fray, but as a satisfactory agreement could not be reached, was abandoned for this time.

Dufur will play Maupin the 28th at this place.

Ellis Elected

In the conference session of Free Methodists completed in Portland Tuesday, G. R. Ellis, who has been the local pastor the past year, was reappointed to have charge the ensuing year.

A petition signed by local residents was sent in as a voice of local people in favor of the return of Mr. and Mrs. Ellis to this place.

FORD

THE UNIVERSAL CAR

The Ford—a simple car of proved quality. A car anyone can operate anyone can care for and a car that brings pleasure, service and satisfaction to everybody. The car of more than a million owners. Reliable service for owners from Ford agents everywhere. Touring Car \$440; Runabout \$390; Coupelet \$590; Town Car \$640; Sedan \$740, f. o. b. Detroit. On display and sale at

SHATTUCK BROS.
 STORE OF BETTER SERVICE

Have you ever lost a crop of hay through rusting—or your barn and hay through spontaneous combustion? There is one sure way to prevent this—

USE SALT when you stack your hay IT PAYS

The Salt more than pays for itself in the weight of the hay. There is a further gain in weight through moisture held—and the stock will eat up salted hay clean where unsalted hay will be fussed over and wasted.

30 pounds of salt should be used to each ton of hay. Stack three feet of hay, sprinkle the salt over this by hand. Then another layer of hay, more salt, and so on.

Experiments carried out at the Wisconsin experiment station indicate that salt should be supplied to dairy cows unless the ration furnishes a sufficiency thereof. It is calculated that the minimum quantity in the food to keep a cow of 1000 lb. live weight in flourishing health is that which is equivalent to 3-4 oz. salt per day, and that a cow in milk needs as much more as will restore the proportion removed in the milk, namely, a little over 1-2 oz. of salt for every 20 lb. of milk.
