New Hotel

The latter part of the past week witnessed the begining of what is to be a great improvement for the east part of Maupin, and the town in general as well. The W. H. Williams barn near the bridge was removed to a position up the street, and the premises cleared for the constrective operations on a fine new hotel for east Maupin. The excavation for the foundation is already commenced and the Tum-A-Lum people hope to have a force busy on construction as soon as possible. L. D. Kelly, the founder of the east addition of the city and an energetic general booster, is the owner and promoter of the project.

We are not informed as to plans or specifications, but understand a hotel man is read to take possession as soon as the building is completed.
