MAUPIN, SOUTHERN WASCO COUNTY, OREGON, FRIDAY, OCTOBER 13, 1916

THE YEAR \$1.50

PASTOR ELLIS CALLED EAST

The community was surprised as well as grieved to learn that Rev. G. R. Ellis had tendered his resignation as pastor of the Free Methodist church here at Maupin and would soon leave for Ruthton, Minnesota, where he will continue in the gospel work.

On account of the recent death of his brother-in-law, Mr. Ellis felt it his duty to go back there where he could be with his sister and his parents who are quite aged and in poor health.

It is with regret that the church accepts his resignation for they will lose a good and faithful worker, and we trust our loss will

be his gain. Next Sunday evening Mr. Ellis will preach his farewell sermon in Maupin and everyone is cordially invited to attend.

Thriving Business

A. E. Lake has been adding to his stock in general until it looks like a city store. He has also built in new shelving and widened those already in use, besides adding display counters in front of the windows. Mr. Lake has been with us only a short time but is doing a thriving business.

Dr. B. O. Fellows, who has been quite ill for some time, is rapidly failing. He has been in poor health since last April when he had a severe attack of the grippe from which he has never fully recovered.

Bakeoven Flat

George Malatt is stepping high these days, all on account of the new seven pound boy who came to live with him last week.

Claud Wilson finished hauling wheat from his home ranch and moved his teams to Ridgeway where he has bought some wheat which he will haul to Maupin.

Ed Mays returned from a trip to Cherry creek.

Chrisman is threshing for Meyer Bro's. He broke the axle to the separator Friday but repaired it at Fleming's shop.

Orville Davis and Mrs. Bert Davis went to The Dalles Saturday. Mrs. Davis remaining a few weeks to visit her mother.

Golda Fryman spent Saturday and Sunday with her parents Mr. and Mrs. F. Fryman.

Clem Mathews is hauling grain for Myer Bros.

Mrs. Hattie Davidson and daughter Amy who have been cooking for Geo. Malatt, returned to their home in The Dalles last Sunday.

Mr. and Mrs. Wm. Pruitt moved in their new house Monday.

Mrs. Stege of Criterion visited her daughter, Mrs. Harry Harvey, Monday.

Mrs. L. A. Bleakney and daughter Ethyle are visiting friends in The Dalles.

Mrs. Alexander Thompson who is candidate for representative will give an entertainment in the Fleming school house the 18. All you women voters come out and hear what she wants to tell you.

F. S. Fleming has leased his Dead Dog ranch to his son, Mr. Fleming and wife will start for old Kentucky in a few days.

W. L. BRADSHAW

Candidate for re-election for Circuit Judge of the seventh judicial district, comprising Hood River and Wasco counties.

Judge Bradshaw has been judge of the seventh judicial district for the past twenty-five years.

During that time he has given the people an efficient and economical administration of the office.

He has a splendid record in the Supreme Court, being above the average.

If re-elected, will continue to give the people that same conscientious service that he has given in the past.

DELCO ELECTRIC LIGHTS SUCCESS

The other evening Bates Shattuck took the special time from regular duties to show us the workings of their new Delco Lighting system.

This combined compact unit consists of a gasoline engine, a dynamo and switchboard. It weighs about 325 pounds, exclusive of the storage batteries, which are furnished as a part of the outfit. It is the most compact plant we know of that will deliver 750 watts.

It is a low voltage system, 32 volts, as this saves battery expense; at the same time it is of sufficient voltage to operate light machinery sufficiently.

The gasoline engine is of the air cooled type, so there is no danger of freezing, no matter where the outfit may be located. It is self-starting. All that is required is to close the switch, which starts the engine. It automatically cut-off when the batteries are charged.

Any number of lights may be installed up to 50 or 60. The average place, however, burns only a few of these at any one time. When the engine is running it will carry thirty-two 20-watt lights continuously. The storage battery alone will carry fifteen 20-watt lights for eight hours. Of course increased storage capacity can be provided.

Silo on Juniper Flat.

Mr. John Martin has just erected the pioneer silo on Juniper Flat, and we predict that the farmers there will all have them before many years. In fact we hope and expect to see the time when one will be able to see a silo from every hilltop in Wasco County. It means more cattle, more sheep, more hogs, more turkeys, less waste feed and sufficient feed for dry weather, an economic way of storing feed, in short it means more stock, more prosperity and a more permanent agriculture.

Mr. Martin raised some good corn this year and from 15 to 20 acres will fill the silo. The corn was well eared out and as the grain is 60 per cent of the value of the silage, this means very concentrated feed. Some of the corn has been nipped by frost but by putting in a great amount of water the result will be about as good a cure as ordinarily obtained.

One new "wrinkle" in silage operations was tried by Mr. Martin with astonishing success. He cut his corn with a header, three rows at a time. That even beats

the corn binder. There are now about a dozen silos in Wasco County and farmers who have them are enthusiastic over the results.
