## Before and After

### On the Anxious Seat Nov. 7th

Here we're assembled at the pool hall tonight, To learn o'er the wires whose judgement is right, In forecasting with fair certainty, Who our next president will be.

Now there's "Dad" and myself and also Link, Who, down in our hearts do certainly think That Wilson our country will choose.

But Doc Elwood, at the drug store Bill Hunt, Bill Staats and a few more Believe their salvation lies surely with Hughes.

Now here's the proposition in a nutshell, Each of us like our judgement so well In predicting our new president

That we have wagered the "coin" or "green," Till, parish the thought, it surely will mean, That morn will find someone badly "bent."

Tom Hennegan has bet his best "hoss," With our fellow citizen, Thomas Moss,

That Wilson has Hughes sewed up in a sack, And the main question before us tonight, Is to learn, without doubt, who was right, In other words, will it set "Mossback"

Also Kit Carson, his Irish I'm told, Who wears a Hughes button so bold, And was perfectly willing tomatoes to bet, The button he's wearing close to his heart,

His replies to Wilson jibes were tart, But narry any coin could we get.

It, no doubt, will seem foolish to some, That, this night, up town we should come, To get the very earliest election returns, But from this true tale you no doubt will see,

That to others beside "Dad" Link and me This question still blisters and burns.

This awful suspense twill soon be o'er, I have made my vows to never more In this predicament to be,

But if by good fortune I win And Wilson at last should prove to be "Him" Earl Barzee I will thank CERTAINLY.

Some of our menfolks in Maupin look rather white around the gills,

Is it because they had to swallow some large disappointment pills Or because their purse is empty, after paying up their dues.

Of so recklessly betting that our next president would be Hughes.

Now election's over, lets forget it, and like each other

just the same,

We admire your spirit if not your judgement and we know you all were game.

So lets praise our God and country, and President Wilson in the chair,

And thank the good republicans that kindly helped to put him there.

## How to Get the Most Barn Value for Your Money

Yes, our business is selling lumber BUT—satisfaction to the buyer must go with every bill we sell or WE are not satisfied.

We know that if you are building a barn and you want and expect that barn to be the best in every respect that the money you put into it can produce.

And we make it our business to see that every barn bill we sell shall be satisfactory in every detail so far as material, cost and quality are concerned, and we sometimes go a long way to make good on that policy.

It will be well worth your while to bring us your bill, or come to us when you first decide to build—we will help you from start to finish.

We have planned many barns this fall for our customers—small shed roof barns, one story dairy barns—circle roof barns with special Tum-A-Lum construction—large gambrel roof barns—and can show you plans, pictures and costs of various types.

No obligation—we'll be glad to do it.
