BELGIANS EXTOLLED IN PROCLAMATION

Villa Calls on People to Emulate Belgium in Fight.

REPUDIATES FOREIGN CLAIMS

Americans Called "Eternal Enemies, the Barbarians of the North"—Carranza Laws Annulled.

El Paso, Tex.—Belgium's heroic example in maintaining an unequal struggle in behalf of what is believed its right is Francisco Villa's inspiration in his own struggle, according to copies of his recent proclamation brought to the border Monday by refugees. This manifesto, which was printed at San Andreas, Chihuahua, ends with the slogan "Mexico for the Mexicans," in heavy type and bears the name of Villa as "General in Chief."

"All the peoples of the earth," the document begins, "are capable in determined moments of the greatest sacrifices when they see their national integrity menaced, and when their rights as free men have been put in jeopardy. Of this we have a beautiful example in the titanic conflagration of Europe, but particularly in the heroic Belgium, which, belonging to one of the most civilized peoples of the globe, went into a devastating war without the most remote hope of victory but conscious of duty done, and which succumbed only when the greater part of its sons disappeared between the walls of Namur and Liege, burning their last cartridges to prevent their beloved country from falling with impunity before the invader."

"Our fatherland also has arrived at the solemn moment when we must oppose the unjustified invasion by our eternal enemies, the barbarians of the North."

Villa then calls on the Mexicans to imitate those people who "serene and smiling," offer their lives in their country's defense. He regrets that Mexico cannot be unified because of the Carranza partisans, whom he calls "renegade patriots."

Villa's declaration of principles includes the following:

"Free suffrage, in which the military vote will be included, with punishing with death 'all those not having themselves in the election.'"

"The making of military chiefs ineligible to the presidency or to either house of congress. Enforcement only of new laws and the annulment of the old."

"Annulment of all Carranza concessions."

"Repudiation of all foreign claims for damages."

Administration Officials Put Quietus on Peace Rumors

Washington, D. C.—Offers of mediation or suggestions of peace to the European nations have not been made by the United States and will not be broached by this government in the near future unless there is some quite unexpected turn in world events.

Those facts are stated authoritatively by one of the highest officials of the government to counteract reports to the contrary.

In official circles it is felt that the increasing and apparently authoritative rumors that the United States is planning some move for peace are calculated to destroy chances of peace and to defeat their ends. Accordingly, an official denial has been contemplated, probably through the state department. The President, however, has preferred to disassociate himself entirely from any such announcement, no matter how made, in order that he might stand untrammelled on his original offer of mediation.

Two cardinal facts stand out in the minds of officials. First, that any such proposals originate in German circles, and second, that their reiteration has been leading allied statesmen to an extremity of refutation from which it would be very embarrassing for them to recede.

Young Mansfield Foiled.

New York—Richard Mansfield, 18, son of the late actor, after running away from his studies in Tutorial College, South Beach, Conn, for the fifth time and taking a whack at the drama, is back home with his mother. Young Mansfield's career on the boards was brief, thanks to the detective ability of his mother. He began his rush toward fame Wednesday afternoon, when he left school. He came to this city and presented himself to the Provincetown Players. He was rehearsing when his mother appeared on the scene.

Explosion Fatal to 1000.

Berlin—(By wireless to Sayville, N. Y.)—An explosion in a Russian ammunition plant has caused the death of about 1000 persons, according to the Overseas News Agency Sunday, quoting the Russian newspaper Recht. The News Agency statement says: "The Russian newspaper Recht reports that an explosion took place in an ammunition factory on La Sallanaya. The cause is unknown. At the moment of the catastrophe about 1000 persons were working in the factory, all of whom evidently perished."

Royal Prayers Omitted.

Paris—Prayers for the royal family of Greece were omitted for the first time Sunday in the Greek church in Paris, by order of the trustees of the church.

Prince George of Greece was present. There was no manifestation during the services. The assemblage appointed five members to visit the Greek legation and demand the suppression throughout the edifice of all emblems of the monarchy.

EAT LESS MEAT IF BACK HURTS

Take a glass of Salts to flush Kidneys if bladder bothers you.

Eating meat regularly eventually produces kidney trouble in some form or another, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the best of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

The Wihbone Superfluous.

They were dining off fowl in a restaurant.

"You see," he explained, as he showed her the wihbone, "you take hold here. Then we must both make a wish and pull, and when it breaks the one who has the biggest part of it will have his or her wish granted."

"But I don't know what to wish for," she protested.

"Oh, you can think of something," he said.

"Well, I'll wish for you," he exclaimed.

"Will you really?" she asked.

"Yes."

"Well, then, there's no use fooling with the old wihbone," she interrupted with a glad smile; "you can have me."—Wisconsin State Journal.

About the Children.

"Who can name a word with an 'I' in it?" queried the teacher of the juvenile class.

"Needle!" exclaimed a bright little miss.

"Construct a sentence using the word 'growsome,'" said the teacher.

"When the man stopped shaving his whiskers growsome more," answered Willie.

He Knew It Was Dangerous.

An Englishman was seeing his first game of baseball, and the "fan" was explaining the different plays as they were being made.

"Don't you think it's great?" enthusiastically asked the fan.

"Well," replied the Englishman, "I think it's very exciting, but also a very dangerous game."

"Dangerous nothing," replied the fan.

"Just then a runner was put out at second base."

"What has happened now?" asked the Englishman.

DAIRYING INDUSTRY GROWS

Butter, Cheese and Condensed Milk Make Rapid Climb.

The dairy industry of Oregon is growing at a rapid rate. Its progress is shown by statistics which have just been completed by J. D. Mickle, state dairy and food commissioner, of the production of butter, cheese and condensed milk during the year ending October 1, 1916, as compared with the output in the preceding year.

Commissioner Mickle's figures are as follows:

Butter—	Pounds.
1916	16,288,396
1915	13,648,728
Increase	2,644,668
Cheese—	Pounds.
1916	8,957,908
1915	6,896,887
Increase	2,061,021
Condensed Milk—	Cases.
1916	564,916
1915	445,230
Increase	119,686

It will surprise many persons to know that the butter, cheese and condensed milk business has increased to such an extent in the past year. High prices obtained by manufacturers and farmers have been the great factor in the building up of the industry, and these high prices can be laid directly to the war. The Oregon market for these commodities is now on an Eastern basis and will continue so as long as there is Eastern demand. Large shipments of butter have already gone East and more would be shipped were it available. About a dozen carloads of Oregon cheese have also been sold for Eastern shipment and they will be started as soon as the cars can be obtained. Eastern and export buyers of condensed milk have for many months kept the Oregon and other Northwestern markets cleaned up.

Sugar Tumbles 30 Cents.

Portland—A 30-cent decline in sugar prices went into effect Tuesday morning, which put the list price of standard cane granulated at \$7.95. This is the first change that has taken place in the market since October 21. The decline comes as a consequence of a reduction in the Eastern market. Local jobbers expected an even greater cut. New crop cane sugar is coming on the market and this has caused the weakness.

Klamath Beets Are Rich.

Klamath Falls—The Klamath Commercial club is in receipt of a letter from the American Beet Sugar company, of San Francisco, in answer to its request for a test of the sugar beets grown in Klamath county this year. The answer contains an analysis of the beets sent by the Commercial club as made by the company's chemists, and covers the sugar properties of beets grown in five different kinds of soil in Klamath county. The sugar content of the beets mentioned runs from 13.2 per cent to 20.2.

Will Ship 200 Cars Broccoli.

Roseburg, Or.—That not less than 200 carloads of broccoli will be shipped from Douglas county to the Chicago markets during the present winter, was the statement made here by the management of the Umpqua Valley Fruit Union. Umpqua Valley broccoli made a great record last year, because of its fine quality, snow-white medium head and fine pack. The first of the product will be shipped from Roseburg in January and other consignments will follow as late as March 1. Practically all of it goes to John Nix & Co.

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Weyth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application of two, your hair becomes beautifully dark, glossy and attractive.

Weyth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.
