## A Straight Tip On The Fuel And Lumber Situation.

We are in the Grip of the Worst Shortage the World has ever known—and getting worse. Ninety per cent of all Fuel Shipments will be made during the Summer months.

Next to Fuel, shipments of Silo and Granary material will have precedence over all others as this tends to increase the country's food supply.

May we suggest that you anticipate your wants and order your supplies at once. We will be pleased to talk these matters over in person.
