NEWS ITEMS OF LOCAL INTEREST

Water!

N. G. Hedin was in Maupin a couple days the fore part of the week waiting for extras for his car. He states it was a mistake about the water in the ditch having reached the Flat last week, but that he expected it to have reached there by Wednesday of this week. It is a slow process for water to make its way through a dry dirt channel, which necessarily soaks up a large quantity of water. The large part of the work thus far this season has consisted in sluicing out and permanently strengthening the big cut against slides which would stop the water.

The graduation of the 1917 class of trained nurses at The Dalles hospital training school for nurses leaves vacancies for young women who desire to become professional nurses. Young ladies desiring further information may address The Dalles Hospital, The Dalles, Oregon, Dr. J. A. Reuter, Manager.

The report was made that parties from The Dalles have been drying and commercializing in Clear Lake trout.
