## I. W. W. ARE JAILED AFTER MILL BURNS

Large Grain Elevator Destroyed  
at Klamath Falls, Oregon.

## GUARD PATROLS CITY

Headquarters of Disturbers Raided and  
Members of Organization Placed  
in Jail—Damages \$150,000.

Klamath Falls, Ore.—Klamath Falls  
is practically under martial law.  
Armed guards patrol the streets, in-  
dustries of the city are protected by  
special deputy sheriffs and I. W. W.  
are being rounded up like cattle as the  
result of a fire Sunday morning which  
destroyed the grain elevator and mill  
of Martin Brothers and 25,000 bushels  
of grain. The loss is placed at \$150,000.  
Incendiarism is suspected.

High wind fanned the flames toward  
the factories and cars of the Ewauna  
Box company, the Big Lakes Box com-  
pany, the Standard Oil company and the  
Klamath Iron Works, but heroic  
efforts of the fire department saved these  
properties.

Immediately after the fire Sheriff  
Humphrey communicated with Govern-  
or Withycombe, swore in 200 deputies  
and raided the headquarters of the  
I. W. W., seizing papers and books  
and arresting 39, some of whom are  
thought to be local leaders of the or-  
ganization. Every industry in the city  
is under guard and armed guards are  
patrolling every road leading out of  
the city. The sheriff intends to arrest  
every I. W. W. found in the county.

Henry J. Weeks, of the Weeks Ab-  
stract company, was one of the most  
prominent of those arrested by the  
sheriff. He is accused of treasonable  
remarks before a large crowd assem-  
bled at the city hall.

Carloads of provisions, farm ma-  
chinery and canned goods, destined for  
the Martin Brothers' store at Merrill,  
23 miles south of here, were burned.  
The firm suffered a disastrous fire sev-  
eral years ago. The fire Sunday was  
discovered at the north corner of the  
building, on the windy side and at a  
point farthest removed from the office.  
It was under great headway when  
first seen.

## DEPORTED MEN ASK DAMAGE

Arizona I. W. W. Refugees to Demand  
Reparation for Exile.

Columbus, N. M.—Mining compa-  
nies, officials and business men in the  
Warren copper district of Arizona may  
be sued for damages by the men who  
were deported from Bisbee July 12.

At the camp of the Arizona exiles  
here Sunday the men discussed plans  
for filing a blanket suit against the  
operators, officials and others who,  
the men assert, were responsible for  
the wholesale deportation from Ari-  
zona of those alleged to be members of  
or sympathizers with the I. W. W.

A blanket prayer for their release  
through writ of habeas corpus was also  
discussed, but the leaders disapproved  
of such an action on the ground that  
it would embarrass the federal govern-  
ment, which is trying to find a solution  
of the problem involved in the deporta-  
tion of the men. The exiles are anx-  
ious to know what Washington will do  
in their cases, and messages urging  
immediate action have been sent to  
administration officials.

The belief is becoming general  
among the exiles that they will be  
sent back to Bisbee under heavy mili-  
tary guard and will be protected in  
what they claim as their rights, even  
if it becomes necessary to declare mar-  
tial law in the Warren district to at-  
tain this end.

The men say they will not be sent  
elsewhere, will not consent to remain  
here in a sweltering hot camp, and as  
they have not been charged with  
breaking any laws, they say they will  
stand on their rights and are pinning  
their hopes of returning to Bisbee  
upon the federal government.

Sunday passed quietly in "Camp  
Wobley," as the men have named the  
refugee camp.

## Potatoes and Onions Rot in Ground.

Sacramento, Cal.—Several carloads  
of California surplus potatoes and on-  
ions, large quantities of which are re-  
ported to be rotting in the ground in  
many parts of the state because of the  
inability of the growers to dispose of  
them at a price equal to the cost of  
production, may be sold to Arizona  
consumers through Governor Campbell,  
of that state. The state council of de-  
fense has received inquiry from Govern-  
or Campbell asking the price at which  
a large supply of both potatoes and  
onions could be secured in California.

## Police Chiefs Suspended.

East St. Louis, Ill.—The board of  
fire and police commissioners, after a  
meeting Sunday night, announced that  
Chief of Police Ranson Payne and  
Night Chief Con Hickey had been sus-  
pended pending investigation of the  
police department. According to W.  
G. Watkins, chairman of the board, the  
suspension of the two officials is due to  
the recent race riots, and is the first  
step in an investigation that is ex-  
pected to shake up the entire department.

## FEW NEED BE CALLED

Only 717 Men to Be Drafted to Colors  
in Oregon; 7296 in Washington  
and 2287 from Idaho.

Washington, D. C.—Because Ore-  
gon, in proportion to population, fur-  
nished more volunteers for the Na-  
tional guard and regular army than  
any other state in the Union, its quota,  
under the selective draft, is the small-  
est assigned any of the 48 states.

The fact only 717 out of the 62,618  
young men of Oregon who registered  
June 5 will be drafted for the Ameri-  
can army is, on its face, the highest  
official testimonial that can be paid  
the manhood and patriotism of the  
sons of Webfoot state.

On the basis of her population, Ore-  
gon was required, under the law, to  
contribute .64 of 1 per cent of the  
total army of more than a million men.  
The gross quota of the state was com-  
puted to be 7387 men, but on April 1  
Oregon had in her National guard 2423  
men, between April 1 and June 30 she  
recruited 2269 more for her National  
guard and in that same time 1974 Ore-  
gon men enlisted in the regular army.  
The total number of men Oregon con-  
tributed to the army since April 1,  
therefore, is 6657, and this number is  
deducted from the gross quota of the  
state in determining the number of  
men to be drafted.

In the adjustment, however, Oregon  
is credited with 13 additional men and  
this number, added to the total number  
of volunteers deducted from the gross  
quota, leaves but 717 men subject to  
draft.

The state of Washington, with a  
larger population, was asked to raise  
1.1 per cent of the total army, or a  
gross quota of 12,768.

Washington had in her National  
guard, April 1, 2240, and from April 1  
to June 30, recruited 1764 additional,  
and also recruited 1446 men for the  
regular army, a total of 5450. Wash-  
ington, on adjustment, 22 more,  
leaving 7296 to be drafted out of 108,330  
who registered June 5.

Out of 41,150 men who registered in  
Idaho, 2287 will be drafted. Idaho had  
a National guard of 962, recruited 865  
more, and recruited 711 men for the  
regular army, a total of 2538 to be de-  
ducted from her quota, along with an  
adjustment of eight. Idaho's gross  
quota was 4833.

Following are the net and gross to-  
tals for the Western states:

State	Net	Gross
Alaska	596	710
California	23,090	34,846
Idaho	2,287	4,833
Montana	7,572	10,423
Nevada	1,061	1,435
North Dakota	6,906	7,737
Oregon	717	7,387
South Dakota	2,717	6,353
Utah	2,370	4,943
Washington	7,296	12,768
Wyoming	810	2,389

## GREECE ENTERS WAR ON SIDE OF ALLIES

Washington, D. C.—Uncertainty as  
to Greece's status in the world war  
was cleared away Tuesday with the re-  
ceipt of official information that the  
Greek government not only has severed  
relations with all four of the central  
powers, but is actually in a state of  
war with them.

Information has reached the State  
department that the Greek minister in  
Paris has notified the French govern-  
ment Greece considers herself a full  
belligerent and will act accordingly.  
He said it was not only necessary to  
issue a formal declaration of war, as  
the government feels itself bound by  
the declarations previously issued at  
Saloniki by Premier Venizelos, who  
took with him to Athens all the re-  
sponsibilities and commitments of the  
temporary Saloniki government.

As a belligerent Greece is expected  
to lose no time mobilizing her war re-  
sources and joining effectively in the  
allies' operations in the Balkans.  
The strength of the Venizelos army  
is placed at about 60,000 men, and the  
remnants of the former regular army,  
while not over 30,000 now, has at  
times been mobilized to a total of  
200,000 men, and is capable of reach-  
ing 300,000 if munitions are provided.

The regulars practically were demobilized  
by the allies when former King  
Constantine held the organization as a  
threat to the allies' rear, but can  
quickly be called to the colors again.  
Commissioner Jonnart, whom the al-  
lies entrusted with enforcing Constantine's  
abdication, has reported that a  
Greek army of 250,000 will be raised  
to add to the 700,000 allied soldiers al-  
ready in the Balkans.

## Bride in Khaki Sent Home.

An Atlantic Port—Somewhere in  
France is a sergeant in the American  
army who was married just before he  
left the United States and ventured to  
take his bride with him on the trans-  
port which carried his regiment over-  
seas. She went with him as a soldier  
dressed in regulation khaki and with  
her hair cut short. Tuesday the young  
woman returned from France, her  
effort to pose as a "Sammy" having  
failed. Her husband, it was said  
aboard the ship, was a member of a  
regiment stationed in Arizona.

and restaurants will follow New  
York's lead in omitting beef from  
their menus on at least one day a week  
in the near future. In addition, there  
will be no wheat rolls for breakfast

## NEW LABOR BUREAU

Agriculturist Will Try to Solve Prob-  
lem of Distribution of Labor for  
Yakima County Farmers.

North Yakima—Lee W. Fluharty,  
county agriculturist, announces he has  
about completed the work of organiz-  
ing the Yakima employment bureau,  
which it is hoped will solve the prob-  
lem of the distribution of labor in this  
county. The organization is to work  
in connection with the federal employ-  
ment bureau and Mr. Fluharty's office  
is to be made the clearing house for  
the work.

The county is divided into nine units,  
each with an agent. Each agent works  
in his own community with a commit-  
tee of three, and reports are made di-  
rect to the central office. Each em-  
ployer pays a fee of 25 cents for each  
man secured through the office.

## HARVESTERS' UNION TO AID

Will Furnish Workers to Growers in  
Wenatchee Country.

Wenatchee, Wash.—The Wenatchee  
Harvesters' league has established  
temporary headquarters in the Pogue  
building. L. M. Hull is acting as tem-  
porary secretary.

The executive committee of the  
league met and mapped out a vigorous  
membership campaign. The valley  
has been divided into districts and a  
committee has been appointed to canvass  
each district. A house to house  
visitation will be made and an oppor-  
tunity given the head of every family  
to sign a membership card. This can-  
vass will reach from Sunnyslope to  
Malaga on both sides of the river. The  
rancher, by his membership, enjoys  
the use of the league's services in  
helping work out the labor problem.

## WHEAT HIGHEST IN AMERICA

Home Price is \$2, Maximum Abroad is  
\$1.80 Per Bushel.

Washington, D. C.—Wheat prices  
abroad, where the governments have  
control of food supplies, are shown to  
be much lower than in the United  
States, by a report made to the food  
administration Thursday by the allied  
wheat commission.

While wheat is selling well above \$2  
in this country, the government prices  
in other countries, according to the  
allied commission, are as follows:  
United Kingdom and France, \$1.80;  
Germany, \$1.80; Belgium, \$1.60; Aus-  
tralia, \$1.14; India, \$1.35; Italy,  
\$1.69.

America's wheat stocks are lower  
now than they have been for many  
years. Estimates by the food admin-  
istration give the visible supply as  
only 12,769,000 bushels, which is less  
than one-third of the supply at this  
time last year.

## \$60,000 Payment is Made.

Medford, Or.—The final chapter in a  
mining deal of importance came Thurs-  
day when the last payment of \$60,000  
cash was made on the Queen of Bronze  
mine by John Hampshire, representing  
the purchasing syndicate.

The purchase price was \$150,000, the  
syndicate being formed by Colorado  
Springs mining men. A corporation  
will be formed and the property oper-  
ated on an extensive scale. According  
to the owners, \$283,000 worth of ore  
was shipped from the mine in the past  
year.

## With the Fingers! Says Corns Lift Out Without Any Pain

You reckless men and women who  
are pestered with corns and who have  
at least once a week invited an awful  
death from lockjaw or blood poison  
are now told by a Cincinnati authority  
to use a drug called freezone, which  
the moment a few drops are applied to  
callous, root and all, lifts off with the  
fingers.

Freezone dries the moment it is ap-  
plied, and simply shrivels the corn or  
callous without inflaming or even ir-  
ritating the surrounding tissue or  
skin. A small bottle of freezone will  
cost very little at any of the drug  
stores, but will positively rid one's  
feet of every hard or soft corn or  
hardened callous. If your druggist  
hasn't any freezone he can get it at  
any wholesale drug house for you.

**Life as An Inspiration.**  
There is no greater joy than the feel-

another to be brave and strong. One

No life is a real success which has not  
scattered inspiration all along the way.

**Had Courage of His Convictions.**  
Francis Bacon, who was born in  
London January 22, 1560, had an aversion  
for dueling, a practice prevalent  
in England in his day, observes a writer  
in the Washington Post. He lived  
from 1560 to 1626. The great essayist  
made an address against dueling, in  
star chamber session in proceedings  
against two men—one for writing and  
sending a challenge, the other for deliv-  
ering it. Bacon was then king's at-  
torney general.
