NAVAL ACADEMY CLASS OF 1918 IS GRADUATED

The 1918 class at Annapolis was graduated on June 28, one year ahead of time, because of war conditions. The 1917 class was graduated in February. The two rows in the center constitute the class of 1918 youths.

WAR SPEEDS UP COALING SHIPS

No Port in World as Well Equipped as New York to Handle Work.

SAVING IN TIME IS SHOWN

High Speed Coal Dumpers and Lighters Simplify Work—10,000 Tons Can Be Loaded in Sixteen Hours.

New York.—War has speeded up coaling of ships in the port of New York until no other port in the world at the present time is as well equipped to handle this important task.

So fast has become the coaling of big vessels that enormous liners like the Imperator can have their bunkers filled to their capacity of 10,000 tons in 16 hours.

The reason for the increased speed is largely high-speed coal dumpers and fuel lighters. Each one of the latter is able to give a ship 1,000 tons of coal in eight hours, an achievement due mainly to special coal elevating machinery.

But ships requiring 1,000 tons or less are in the big majority, whether transatlantic or coastwise trade is considered. And it is not essential that for such ships there should be a loading device separate from the coal barges to enable a continuous stream of barges to ply to and from coal dumping stations.

In a Single Day.
For the average vessel a total of 300 tons is usually sufficient, and this means that a ship of this sort may discharge a cargo and take on a new one all in the course of a single day.

MAKES CLEVER DEFENSE

Mrs. Helen Hill Weed, daughter of the Connecticut congressman, who by her clever defense of herself and her twelve sister-suffragettes has won the admiration of the court and all members of the bar who followed with interest their trial for "obstructing the traffic" in front of the White House recently.

This ardent suffragist took upon herself the duties of counsel and won great favor with the lawyers by her skillful cross-examinations. Mrs. Weed never studied law in her life but she certainly made things hum some in the Washington courtroom.

Despite her strong defense, the suffragettes were adjudged guilty and fined \$25 apiece. Two of the ladies paid, the other eleven electing to serve three days in jail—the alternative. Mrs. Weed was one of the eleven to choose jail. Upon their release they were royally feted by the woman's party in the capital.

by tilting the entire car on the side—a great improvement over the process of unlocking a trapdoor in the bottom of the car and letting the coal slide through. These machines have a capacity of 9,000 tons each a day.

Saving of time to the shipowner here is shown by comparison with Cardiff, the English port where the largest tonnage of English coal is loaded for export. In loading a vessel, for example, the English shipper uses a railroad car of ten or twelve tons, while the American uses one of fifty to ninety tons capacity, so that the Cardiff docks must discharge from five to ten loads to every one discharged in New York in order to maintain the same speed.

Carried by Steel Colliers.

Steel colliers ply between Boston and Hampton Roads, a distance of 600 miles. Each one of these ships is capable of making a round trip every week and transporting 350,000 tons of coal a year. A vessel of the same tonnage, however, carrying a cargo of coal from Cardiff to a port 600 miles away would take a week at Cardiff to load its cargo and another week at its destination to discharge it. Thus New York laden ships can make three trips to one for a Cardiff laden vessel.

Such things as these are what places New York as the greatest port in the world and makes American coal operators feel that there is a great opportunity for exporting American coal. Five different companies within recent months have established fleets of specially designed carriers on the theory that with our tremendous coal supply and superior port facilities it

SUBMARINES RAID IRISH FISHERMEN

Blow Up Their Boats in Waters Around the Emerald Isle.

THREATEN COAST VILLAGES

To Remark, "We Thought You Liked the Irish," They Retort, "Ah, You Don't Know Us Yet!"—To Cut Food Supply.

Skibbereen, County Cork.—German submarines have been actively engaged in the destruction of the Irish fishing fleets in the waters around these coasts. Of course it is impossible to designate here the exact localities where or the dates when the Prussian pirates did their cowardly work. But their purpose is plain to all the world—to cut off part of Ireland's and England's food supply, for mackerel team in these waters.

The submarines were busy many miles outside from Kenmare in Kerry to Howth on Dublin bay. Many fishing craft are at the bottom of the sea, and the men who owned them and the fishermen who worked on them are ruined financially.

Affixed Bombs on Boats.

On a certain evening about seven o'clock the fishing fleet put out from Baltimore, on Baltimore bay, near Skibbereen. The first numbered about eighty boats of all classes and embraced several boats from Arklow, County Wicklow. A few hours after the fleet set out a German U-boat of the latest pattern, about 300 feet in length, appeared. The submarine did not waste torpedoes or shells on the defenseless fishing boats; the crew simply placed bombs on 13 of them and so destroyed them.

Only three minutes were allowed the hapless fishermen to get into their small boats; then all their belongings, which in many cases included considerable sums of money, were sent to the bottom. Had it not been for the appearance of a British patrol, which caused the submarine to submerge at once, it is certain that all the fleet would have been destroyed. Those that escaped returned to port with an abundance of fish, but are not venturing out again, so that in one night the fishing fleet of Baltimore has been put out of action by the Germans, which means a loss of many thousands

will only be a question of time before America is shipping her coal to all parts of the globe.

ABOUT 5,000,000 DEAD IN BATTLING ARMIES

New York.—From a careful study of what has been made public regarding casualties in the three years of war, it appears that about 5,000,000 combatants have lost their lives and about 5,000,000 have been killed, captured, reported missing or so badly wounded that they can no longer return to the front. This takes no account of the millions of slightly wounded men.

The table below gives the losses of all the fighting nations in killed and in men put out of the struggle by death, wounds, sickness or capture:

Table with columns: Country, Total Killed, Killed for fighting, Captured or permanently incapacitated. Includes Great Britain, France, Russia, Italy, Belgium, Serbia, Rumania, Montenegro, Portugal, United States, Japan, Germany, Austria, Turkey, Bulgaria, and Totals for both sides.

A government bureau in the Philippines is trying to supply a dearth of native food fish in certain waters by imported Chinese carp.

HOPS REACH 15 CENTS

Crop Estimates in Oregon and Washington Are Lowered—Red Spider Causes Damage in Oregon.

Portland.—The hop market is climbing fast. Only a few weeks ago buyers would not consider new hops at any price. Now contracts are strong at 11 cents. Five hundred bales of 1917 Yakimas were sold on contract at 15 cents, and the same price was paid for 1000 bales of Mendocinos and Sonomas. Buyers were freely offering 15 in both the California districts.

The market is quoted at 15 cents and it is doubtful whether any hops could be bought at that price. The Pacific Coast crop is not looking good. Until recently it was thought the reduced acreage in Oregon would produce 40,000 bales. Now some of the dealers believe it will not go over 30,000 or 35,000 bales. In addition to the bad effects of the prolonged dry spell and the poor cultivation, due to the labor shortage, the red spider is causing damage in many sections.

Washington will not produce over 20,000 bales of hops this year, according to authorities in that state. The total United States crop may be under 150,000 bales, while a conservative estimate of the supply needed by brewers is 185,000 bales.

NO FAILURE; BUT SHORTAGE

Inland Empire Crops in Fair Condition, Declare Investigators.

Spokane.—D. W. Twohy, president of the Old National bank, accompanied by J. K. McCormack, manager of the Union Securities company, and Thomas F. Wren, president of the Northwest Live Stock association, have returned from the Palouse, Lewiston, Camas prairie and the Nez Perce prairie sections. Speaking of conditions in these territories Mr. Twohy said:

"There will be less than half of last year's crop and it will bring 75 per cent of the money received last year. I arrived at this conclusion after conferences with many of the farmers and bankers of the sections we visited, also after going into a great many of the grain fields and having them examined, analyzed and tested by Mr. Wren and Mr. McCormack, who are both good farmers.

"This year brings out the danger of the farmer attempting to handle too much land or to overwork his farm. The best results are shown by the prudent farmer who took good care of his land and worked it carefully.

"Our conclusion is that there is no crop failure, but a shrinkage in the yield, showing that the land of the Inland Empire will, even under adverse circumstances, produce a reasonable crop."

Food Places to Be Rated.

Portland.—Rating cards for grocery stores, restaurants and other places where food is sold are to be established by the City Health bureau. The cards will indicate to the public the degree of sanitation existing in the place.

Neat cards resembling bonds will be furnished, giving each place a rating. Places thoroughly sanitary will be marked either "A" or 90 per cent. Places less sanitary will be marked "B" or 80 per cent, and places still less sanitary "C" or 70 per cent.

NORTHWEST MARKET REPORT

Portland—Wheat—Bluestem, \$2.20 per bushel; fortyfold, \$2.15; club, \$2.14; red Russian, \$2.12. Flour—Patents, \$11.40.

Hay—Producers' prices: Timothy, Eastern Oregon, old crop, nominal; alfalfa, new crop, \$18@19; valley cheat, new crop, \$15@16; valley oat and vetch, new crop, \$16@17.

Vegetables—Tomatoes, \$1.25@2 per crate; cabbage, 1 1/2c per pound; lettuce, 35@40c per dozen; cucumbers, 40@85c; peppers, 15@30c per dozen; beans, 7@8c; corn, 30@35c per dozen. Potatoes—New Oregon, 3 1/2@3 3/4c per pound.

Green Fruits—Cherries, 5@10c per pound; apricots, \$1.25@1.50 per crate; cantaloupes, \$1@3.25; peaches, 75c@1.25 per box; watermelons, \$1.85@2.25 per hundred; apples, \$1.75@2.50 per box; raspberries, \$1.75 per crate; plums, \$1.50@1.75; loganberries, \$1.75; pears, \$2@2.25; blackcaps, \$2; grapes, \$2.50.

Butter—Cubes, extras, 40@40 1/2c per pound; prime firsts, 39c. Eggs—Oregon ranch, current receipts, 36c per dozen; ranch, candled, 38c; selects, 39c.

BLACK LEG LOSSES SURELY PREVENTED BY CUTTER'S BLACKER PILLS. Write for booklet and testimonials. 10-dose pkg. Blacking Pills, \$1.00. 50-dose pkg. Blacking Pills, \$4.00.

Sore Eyes Granulated Eyelids. Eyes inflamed by exposure to Sun, Dust and Wind quickly relieved by Murine Eye Remedy. No Smarting, just Eye Comfort.

YES! MAGICALLY! CORNS LIFT OUT WITH FINGERS. You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority.

Pacifism at Home. "Bobbie, run over to the next door neighbor and take what eggs and butter you find in the refrigerator." "But isn't that stealing?" "Certainly not. They are pacifists and expect it."—Life.

The Tested Skin-treatment. If you want to experiment on your skin, there are plenty of treatments to experiment with. But if you want something whose value has been proven by years and years of successful use, if you want a treatment that doctors prescribe constantly, that you know contains nothing harsh or injurious, you will find it in Resinol Ointment, aided by Resinol Soap.

Close Quarters. Ethel has the gift of graphic description. Until recently she was a little country girl; now she lives in a large town. The first letter she wrote back to her old home began like this: "This is a queer place. Next door is fastened on to our house."—Baltimore Sun.

Perfectly Correct. "It is a shame the way that beauty doctor is selling those pretty girls gold bricks." "Entirely legitimate business. He is merely grafting peaches." ALLEN'S FOOT-EASE DOES IT.

SOFT, CLEAR SKINS Made So by Daily Use of Cuticura Soap and Ointment—Trial Free. The last thing at night and the first in the morning, bathe the face freely with Cuticura Soap and hot water.

WOMAN COULD HARDLY STAND Restored to Health by Lydia E. Pinkham's Vegetable Compound. "Why will women pay out their money for treatment and receive no benefit, when so many have proved that Lydia E. Pinkham's Vegetable Compound will make them well?"

Why will women pay out their money for treatment and receive no benefit, when so many have proved that Lydia E. Pinkham's Vegetable Compound will make them well? For over a year I suffered so from female weakness I could hardly stand and was afraid to go on the street alone. Doctors said medicines were useless and only an operation would help me, but Lydia E. Pinkham's Vegetable Compound has proved it otherwise. I am now perfectly well and can do any kind of work.

Lydia E. Pinkham's Vegetable Compound. If you have had symptoms and do not understand the cause, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free.
