Army Library Fund

With Governor Withycomb as the head of the Oregon War Library Council, an energetic campaign has been begun to raise Oregon's \$25,000 quota of the million-dollar fund to equip every army camp and cantonment in America and France with libraries. Many of the most prominent men and women of Oregon have been appointed by Governor Withycomb on the Oregon Council.

Organizations are now being perfected in every city in the state leading to war library campaign week beginning September 24th, when it is hoped that Oregon will more than subscribe her quota.

Maupin is expected to raise \$30. Subscriptions may be made with Dr. Elwood, Postmaster Flanagan or J. M. Conklin at the Bank.

Any persons adversely the above-described land are advised to file their claims, or objections, on or before the time designated for sale.

L. A. BOOTH, Receiver.

AN EDITORIAL FROM THE "OREGONIAN" of Sept. 6, 1917.

Is Lumber Really Dearer?

It is generally understood that the lumbermen of the Northwest have had a tough time for quite a number of years, but there are a few people, aside from those interested in some branch of the business, who understand fully or even partially the great slump several years ago and the prevailing unfavorable conditions at the present time.

It is estimated by government officials that in normal times about one million people are employed in the lumber industries in the United States, and that one quarter of these, or 250,000, are employed in the Northwest—Oregon, Washington and Idaho. But during several years, up, say, to the first of July, 1916, 25 per cent of these men were idle.

When the loss of wages to over 60,000 people is added to strikes, car shortages, and the low price of lumber, it can be seen that the lumbermen have had their worries. But many think, since war orders have begun to pour into the mills and dealers, that once more the lumbermen are profiting. Is that true? Is it not a fact that lumber comparatively is today one of the cheapest commodities on the market?

An advertisement of the Tum-A-Lum Lumber Co.'s makes the following statements: "In 1914 a Tum-A-Lum barn cost 40 hogs; in 1917 same barn costs 24 hogs. In 1914 a Tum-A-Lum house cost 480 bushels of wheat; in 1917 same house costs 225 bushels of wheat. In 1914 a Tum-A-Lum silo cost 220 bushels of corn; in 1917 same silo costs 110 bushels of corn. In 1914 a Tum-A-Lum machine shed cost 20 tons of alfalfa; in 1917 same shed costs 10 tons of alfalfa."

Nowhere have we seen the facts as to the present comparative prices of lumber so tersely stated.
