STATE NEWS IN BRIEF.

Tony Ross and Lawrence Whitsette,
of Gold Hill, who recently leased the
Reynolds copper mine, six miles west
of Waldo, are making progress in de-
velopment work and expect soon to be
shippers.

Withycombe Cottage is the name
which the Board of Control has given
to the new \$25,000 woman's dormitory
at the State school for the feeble-
minded. The new cottage was accept-
ed by the board Tuesday.

The State Land Board has granted
to parties represented by Samuel Con-
nell, of the Sam Connell Lumber com-
pany, of Portland, the right to make
tests of the waters in Summer and
Abert lakes, in Lake county, to deter-
mine the extent of the soda deposits
in such lakes.

Captain C. E. MacFarlane, repre-
senting Colonel Disque, is on Coos
Bay consulting with millmen, logging
operators and owners of timber on the
peninsula, with a view to opening sev-
eral new camps in the spruce district,
that the program for aeroplane stock
may be increased heavily.

The warm, wet weather of the past
month has been a boon to the stock-
men of Umatilla county. In the hills
where, during the last few weeks of
fall, the range was dry as tinder,
the grass is now green and succulent
and the stock is making up for the
lean months of late summer.

"No one need fear to put in any
kind of a farm crop, as the govern-
ment will see that the farm labor sit-
uation is taken care of," declared
State Labor Commissioner Hoff, and
he is advising some inquirers who have
written in as to the possibility of the
farm labor situation during the next
harvest to go ahead and plant.

The State Fair Board, at its annual
meeting Tuesday night reached a defi-
nite conclusion to construct a coliseum
at the State Fair grounds the coming
summer, and instructed an architect to
prepare plans for a building which will
seat 15,000 persons. It will cost \$22,-
000. This building will be used for
horse and cattle shows and judging.

J. M. Peters, superintendent of the
Clatskanie River hatchery, says the
5,000,000 young Chinook salmon now
in the ponds are in excellent condition.
The warm rains of the present winter
period seem to agree with the salmon
fry and an exceptional output will be
the result this season. About 2,000,-
000 of the fry will be liberated in June
and the rest in August.

The quarterly report of State En-
gineer Lewis, completed Wednesday,
shows that 109 permits to appropriate
water and 10 permits to construct
reservoirs were issued during the quar-
ter. These permits include for the
irrigation of land amounting to 10,639
acres and water supply for three mu-
nicipalities, the estimated cost of con-
struction amounting to \$294,887.

Lane county fruitgrowers are ap-
plying scientific grafting of trees to make
up for a shortage of bees for the pol-
lination of cherries and pears, accord-
ing to C. E. Stewart, county fruit in-
spector. Waterhouse cherries are be-
ing grafted into Lamberts, Bings and
Royal Anns, as these three varieties
are self-sterile, and Fall Butter pears
are being grafted into Bartlett trees,
also self-sterile.

Hair-pulling rather than a suit in
court settled an alleged case of alien-
ation of affections at Albany Friday.
The affair got into the Police court,
however, as an assault case. When
Mrs. Charles Simpson met Mrs. W. O.
Wimmer on the street the former ac-
cused the latter of alienating her hus-
band's affections. The charge was de-
nied and a fistie encounter ensued.

The Lincoln County court has cre-
ated the office of county agricultural
agent for Lincoln county. The amount
of \$1600 was appropriated for the
current year. O. M. Plummer, of
Portland, appeared before the board
and made a plea for the appropriation,
from the standpoint of food conserva-
tion and as a special representative of
the department of Agriculture, at
Washington.

State Labor Commissioner Hoff has
inaugurated the campaign for obtain-
ing exact data on farm help and crop
conditions for 1918 throughout the
state, by sending out letters to all
granges and farmers' unions in Oregon
outlining the plan to be adopted. He
also designated the first week in Feb-
ruary as the period for concentrated
effort to get information from the
farmers to be sent to the Labor de-
partment for compilation.

Money supposed to belong to E. J.
Frasier, who left Eugene recently
after being convicted on a charge of
forgery, was found on Gearhart Beach
Tuesday afternoon. The money is now
in possession of City Marshal Ober,
of Gearhart, and the authorities at Eu-
gene have been notified. It is thought
Frasier became demented and com-
mitted suicide. A man bearing his
description was seen in Gearhart.

A large delegation of residents of
the Elmira district arrived in Eugene
Saturday to urge the building of the
Eugene-to-Florence link of the Central
Oregon Highway by the most direct
route, regardless of the communities
served.

Coquille sawmill concerns whose
men joined the Loyal Legion of Log-
gers and Lumberworkers have given
the government one better and have
instituted local branches of the order,
which are to hold regular meetings and
discuss the requirements and current
topics connected with their work.

IF BACK HURTS USE SALTS FOR KIDNEYS

Eat less meat if Kidneys feel like
lead or Bladder
bothers.

Most folks forget that the kidneys,
like the bowels, get sluggish and clog-
ged and need a flushing occasionally,
else we have backache and dull misery
in the kidney region, severe headaches,
rheumatic twinges, torpid liver, acid
stomach, sleeplessness and all sorts
of bladder disorders.

You simply must keep your kidneys
active and clean, and the moment you
feel an ache or pain in the kidney
region, get about four ounces of Jad
Salts from any good drug store here,
take a tablespoonful in a glass of wa-
ter before breakfast for a few days
and your kidneys will then act fine.
This famous salt is made from the
acid of grapes and lemon juice, com-
bined with lithia, and is harmless to
flush clogged kidneys and stimulate
them to normal activity. It also neu-
tralizes the acids in the urine so it no
longer irritates, thus ending bladder
disorders.

Jad Salts is harmless; inexpensive;
makes a delightful effervescent lithia-
water drink which everybody should
take now and then to keep their kid-
neys clean, thus avoiding serious com-
plications.

A well-known local druggist says he
sells lots of Jad Salts to folks who be-
lieve in overcoming kidney trouble
while it is only trouble.—Adv.

Author No Asset.
At a local bazaar they were offering
autographed copies of books by In-
dianapolis authors.

"Here is a very delightful book, suit-
able for a gift, and autographed by
the author. Only a dollar and a
half," said the smiling manager of
the booth.

"A dollar and a half!" gasped the
prospective purchaser, a little woman
who held her tempted purse close to
her breast.

"Yes, a dollar and a half. The au-
tograph, you know, has an especial
value."

"Why, I can get a copy of that
book at a downtown store for a dol-
lar."

"Yes, I know you can, but not au-
tographed by the author."

The prospective purchaser's face
suddenly took on a look of high wis-
dom and then she blurted:

"Oh, well, I know who wrote it, any-
how."—Indianapolis News.

Men Should Write This.

A little girl skipt the following
composition on men:

"Men are what women marry. They
drink and smoke and swear, but don't
go to church. Perhaps if they wore
bonnets they would. They are more
logical than women, also more zoolo-
gical. Both men and women sprang
from monkeys, but the women sprang
farther than the men."—Ladies Home
Journal.

ed a patient for loss of memory?

With the Fingers! Says Corns Lift Out Without Any Pain

You reckless men and women who
are pestered with corns and who have
at least once a week invited an awful
death from lockjaw or blood poison
are now told by a Cincinnati authority
to use a drug called freezone, which
the moment a few drops are applied to
any corn or callous the soreness is
relieved and soon the entire corn or
callous, root and all, lifts off with the
fingers.

Freezone dries the moment it is ap-
plied, and simply shrivels the corn or
callous without inflaming or even ir-
ritating the surrounding tissue or
skin. A small bottle of freezone will
cost very little at any of the drug
stores, but will positively rid one's
feet of every hard or soft corn or
hardened callous. If your druggist
hasn't any freezone he can get it at
any wholesale drug house for you.—

State College to Work Out Program
for Bigger Yields.

Washington's contribution to the war
cause will be intensive stimulation of
crop production. At a conference in
Spokane last week of E. O. Holland,
president of Washington State Col-
lege; E. F. Benson, of the state de-
partment of agriculture, and Charles
Hebberd, chairman of the food supply
and conservation committee of the
State Council of Defense, it was de-
cided that the state college work out
a program at once for greater food pro-
duction.

"Winter wheat sowing in the state
was only 15 to 25 per cent of normal,"
said Mr. Hebberd. "We must depend
upon spring sowing to increase the
wheat crop. The situation as it ex-
ists now is grave."

Definite plans will be formulated at
a meeting in Spokane January 25.

Stops Sale of Bread in Quantity Lots.

The sale of bread in quantity lots by
bakers and retail merchants has been
forbidden by Charles Hebberd, food
administrator for Washington. The
ruling is effective at once and applies
to bread dealers whether licensed or
not.

"The food administration for Wash-
ington rules that the sale of bread in
quantity lots—three loaves for 25 cents
—is a wasteful practice and encourages
over-consumption and the leaving of
stale bread on hand in families," says
the instructions sent to bakers and re-
tailers by Mr. Hebberd. "You are
notified that effective at once, quantity
prices are to be discontinued. In fu-
ture you will make loaf price only."

The distributors have been notified
that they may make the price either
eight or nine cents each, but must not
make the price dependent upon the
number of loaves sold.

Apple Gifts Appreciated.

Hood River—The members of the
caneen committee of the Hood River
Red Cross chapter are receiving
numerous expressions of appreciation
in letters from soldiers for apples dis-
tributed to all troop trains passing
through here. Mrs. L. M. Bentley, a
member of the committee, has just re-
ceived a letter of appreciation from
Mrs. Earl W. Reed, of Seattle, wife
of a soldier on one of these trains. Up
to the present time most of the fruit
distributed to troop trains has been
donated by growers.

An Optimist.

It was 5 a. m. He was starting
the furnace fire at this unseasonably
hour.

Without warning a large lump of
coal leaped from its berth on top of
the coal pile and landed squarely on
the captain of his toe brigade on the
left foot. In other words, the coal
landed squarely on his big toe. He
warmed up much more quickly than
the fire as he hopped about on one
foot in imitation of a Russian toe
dancer.

He swore, cursed his luck, increased
the white space on his face, and then
—then—he began to smile. And his
toe thumped like a stranded auto
engine!

"Why, I really am lucky," he
thought. "I'm lucky to have a coal
pile big enough for a lump of coal to
get a start on. Come on, do it again,"
he dared and smilingly cast his grouch
in the furnace, gave his aching toe
a rub or two and cheerily went to
work.

inquiring into her standing at school
she admitted that she was lowest in
her class.

"Why, Doris, I am ashamed of you!"
her mother exclaimed. "Why don't
you study harder and try to get away
from the foot of the class?"

"It isn't my fault," Doris replied in
tones of injured innocence. "The little
