IN THE CIRCUIT COURT OF THE STATE OF OREGON FOR WASCO COUNTY

J. D. Kelly, Plaintiff, vs. M. Fryman, Defendant

SUMMONS
IN THE NAME OF THE STATE OF OREGON: You are hereby required to appear and answer the Complaint filed in the above entitled suit on or before six weeks from the 18th day of January, 1918, the date of the first publication of this summons and if you fail to so appear and answer said complaint plaintiff will apply to the Court for a decree foreclosing the mortgage described in said complaint and executed by you on the 4th day of August, 1911, to secure a promissory note for the sum of Three Hundred and fifty Dollars (\$350), together with interest thereon from said date at the rate of eight per cent per annum until paid.

That the #1-2 of s/w1 4, Sec. 3, Twp. 6, S. R. 12 E. W. M., containing eighty acres, be sold in the manner provided by law and that the proceeds of such sale be applied in payment of the cost of such sale, the costs of this suit, principal and interest and attorney's fees.

You are hereby notified that this summons is served upon you by publication in accordance with an order of the above court made on the 14th day of January, 1918.

Paul W. Childers, Attorney for Plaintiff, Residing at The Dalles, Oregon.

Mrs. Robt. Cantrell has had the lagrippe this week.

Uncle Sam Says:

BULK 1918 WHEAT: SAVE SACKS for Boys in Trenches

Granaries and Elevators Must be Planned and Ordered Now---To be Ready for the 1918 Crop

1. Less than one sixth required number of elevators for 1918 can be completed on time if started immediately.
2. Over six months required for necessary machinery was our experience last year and all authorities agree that it will be harder to get machinery next year on time.
3. All present government embargoes on gravel and lumber make shipments seriously delayed.
4. Leading cement plants of the northwest are facing shut-downs on account of government embargoes or fuel required to run them.
5. Good labor is scarce and getting worse.

Start Now---Get Material on the Road---Use Winter Labor Plan Right, When You Build

Our Elevator Department with skilled Architects, Engineers, Millwrights and Mechanics, is daily solving many Elevator problems for customers.

1. Bulk wheat buildings require 6 to 20 times the strength ordinarily met with in house and barn construction. Many failures in elevators and granaries have been noted by government investigators in the Northwest last year, due to inexperienced work.
2. Incorporate modern scientific elevator features at no increased cost:—strong ample walls, self cleaning floors, heavy foundation walls with wide spread footings, workable dump platforms, accurate scales, elevating machinery of sufficient hourly strength capacity, adequate motors or engines, good cleaners, smutters, loading spout to load cars without shoveling, waterproof pit, light basement, fireproof engine room, conduit wiring, steel lined dump sink; one-man operated.
3. Use ample strong farm granaries either of portable type, take downable type, level ground or side hill.

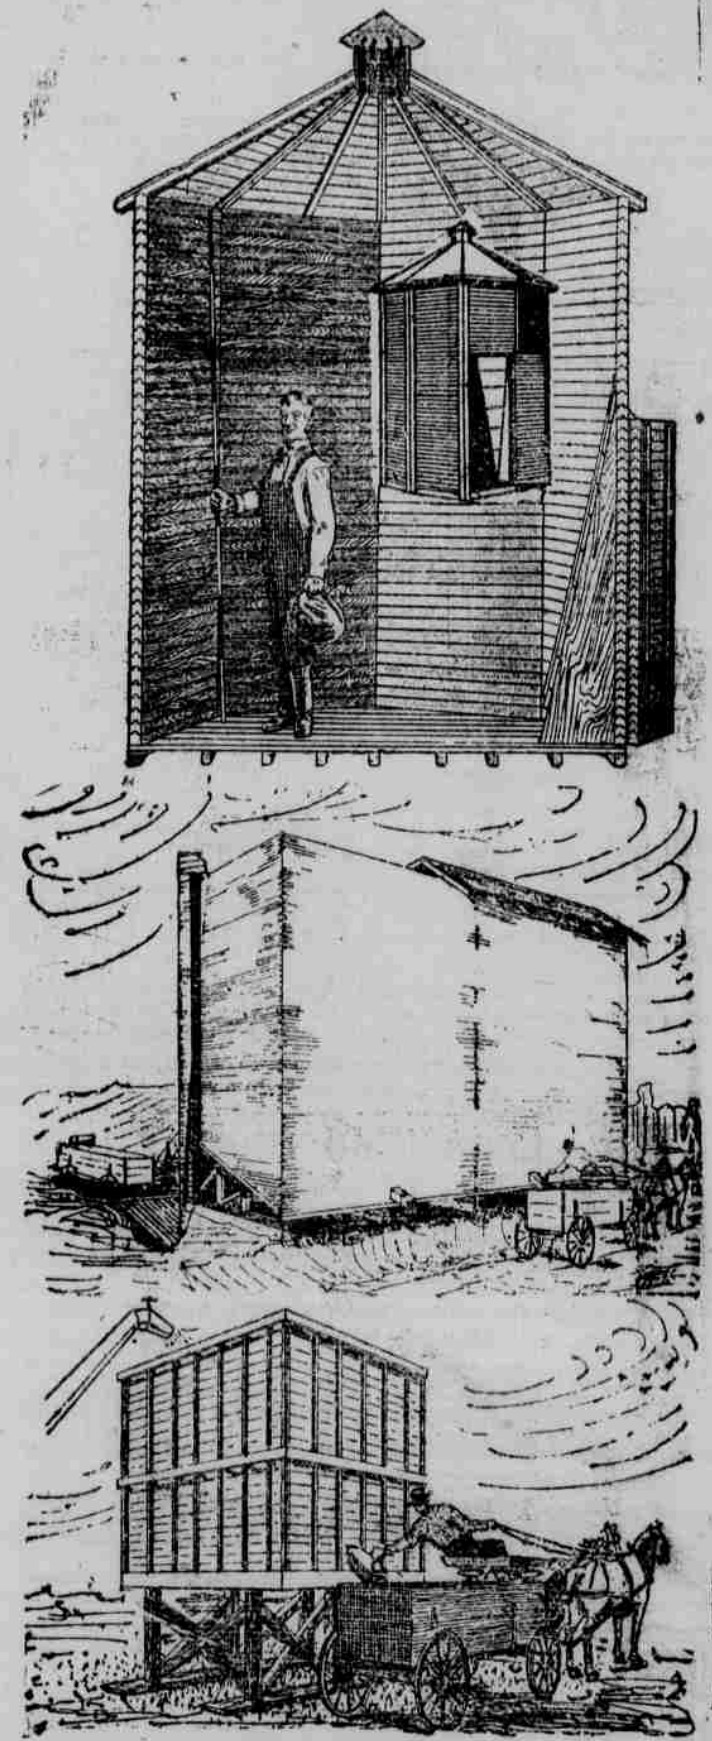

We will be glad to submit plans, pictures, details and cost data.

AS A PATRIOTIC DUTY FARM BUILDINGS FOR BULK WHEAT MUST BE PLANNED AND STARTED NOW.

Save the 1918 Crop
