

SAGE TEA DARKENS HAIR TO ANY SHADE

Don't Stay Gray! Here's an Old-time Recipe that Any-body can Apply.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Adv.

STATE NEWS IN BRIEF.

Twenty Pendleton Germans have registered as enemy aliens with Postmaster Tweedy. All but four have taken out their first papers. Several have served in the German army.

Hereafter physical examination will be made of boys committed to the state industrial school for boys, and parole violators must report to the superintendent at least once a month.

Colonel Disque's inquiry among men of the Loyal Legion has brought a 25-cent rise in the North Bend mills and the lowest pay for the three industries is \$3.75, commencing a once. The mills remain on 10-hour shifts.

The service flag given to the Methodist Episcopal church of Drain by the Epworth League last Sunday has been given a permanent place on the wall under the United States flag and will remain till the close of the war.

The work of registering Germans at the Bend postoffice is now practically complete. To date 25 have been registered, and, although the time for registration has been extended, it is not expected that any more will appear.

State Veterinarian Lytle says he has received reports of a great outbreak of rabies in Northern Klamath county, causing heavy losses of cattle. Rabid coyotes are said to be running rampant in the country there and attacking cattle freely.

After several hours of grilling by the Bend police officials, assisted by State Fire Marshal H. H. Pomeroy, Mrs. Ed Hansea confessed on Saturday night that it was she who had set the three fires in her home which finally resulted in its destruction.

Chan Dick, a Chinaman who was arrested by the Astoria customs authorities Monday night on a charge of having opium in his possession, was arraigned before United States Commissioner Carney and held under \$500 bail to await the action of the Federal grand jury.

C. E. Stewart, fruit inspector for Lane county, has ordered the destruction of pear and wild apple trees within the city limits of Eugene found to be infected with fire blight. The trees in the city have been the source of infection, Mr. Stewart believes.

Two of the 454 accidents reported to the State Industrial Accident commission during the week ending February 7, were fatal. They were: William Lake, of Deer Island, killed in logging operations, and B. A. L. Christenson, of Cornucopia, killed in mining operations.

The experience of Justus Heuperman, the 13-year-old girl who ran away from home, intending to seek her fortune in San Francisco, was brought to an end Sunday, when she was found at the home of John Frame, in an isolated and little-traveled section of the forest, five miles west of Marshfield.

When asked Monday whether he intended to pay his income tax or not, Governor Withycombe replied that two years ago he offered to pay the tax, but was informed that it could not be legally accepted. If it is found now that it can be accepted he will pay it, and if it cannot he will pay considerably more than that amount to patriotic causes.

For the first time in more than two years the Southern Pacific company has overcome its car shortage in Oregon and Saturday reported to the Oregon Public Commission a surplus of 91 cars. The surplus was 38 closed and 53 open cars.

McDonald & Vaughn, of Marshfield, who have a three-year contract for cutting spruce and white cedar on the Coos Bay peninsula, in the interests of the government aeroplane programme, have a crew of surveyors in the field laying out the logging road which is to tap the area, and will construct the camps as fast as possible. Dr. E. L. Holt, secretary of the state board of eugenics, is advised by Attorney General Brown in an opinion Saturday that it is the duty of the board, whenever an inmate of an institution desires to appeal from its findings, to forward transcript of all the proceedings to the Circuit court of the county where the institution is located in which the inmate in question is confined.

The board of directors of the Salem Commercial club has practically approved a plan for the hiring a community reporter to meet problems of the community as they arise. Among other things he will be called upon to furnish Eastern publicity for the city. His main duties will be to interest the farmers in growing products that are marketable directly in Salem, and his immediate duties will be to handle the labor shortage, which is said to be confronting some Salem industries.

The Lincoln county court at a meeting recently adopted resolutions endorsing the work of the State Highway commission and deploring any attempt to make state road work a political pawn.

For the second time within 13 months Mrs. Henry Sherman, of Paisley, Wednesday underwent a Caesarian operation at the Lakeview hospital and as a result is the mother of a six-pound girl. Mr. Sherman is only 40 inches tall and weighs but 70 pounds. The baby's father is almost six feet tall and weighs 175 pounds.

Half Bathrobes.
Two women were shopping in a Washington street department store. One stopped in front of a price card which read, "Half-Bathrobes."
"Well, what do you think of that?" she said to her companion. "Half bathrobes! Wonder if they cut them in two?"
"Well, if they do I don't want them. A whole one for me every time," replied the other woman.—Indianapolis News.

A WOMAN'S BURDEN IN THIS WAR

Every woman's burdens are lightened when she turns to the right medicine. If her existence is made gloomy by the chronic weakness, delicate derangements, and painful disorders that afflict her sex, she will find relief and emancipation from her trouble in Dr. Pierce's Favorite Prescription. If she's overworked, nervous, or "run-down," she finds new life and strength. It's a powerful, invigorating tonic and nerve which was discovered and used by an eminent physician for many years in all cases of "female complaints" and weakness. For young girls just entering womanhood; for women at the critical "change of life"; in bearing-down sensations, periodical pains, ulceration, inflammation, and every kindred ailment, the "Favorite Prescription" will benefit or cure.

The "Favorite Prescription" contains no alcohol, and is sold in tablet or liquid form. Send 10c to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., for large trial pkg.—Adv.

LISTEN TO THIS! SAYS CORNS LIFT RIGHT OUT NOW
You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of frezone applied directly on a tender, aching corn or callous stops soreness at once and soon the corn or hardened callous loosens so it can be lifted out, root and all, without pain.
A small bottle of frezone costs very little at any drug store, but will positively take off every hard or soft corn or callous. This should be tried as it is inexpensive and is said not to irritate the surrounding skin.
If your druggist hasn't any frezone tell him to get a small bottle for you from his wholesale drug house. It is fine stuff and acts like a charm every time.—Adv.

URIC ACID IN MEAT CLOGS THE KIDNEYS

Take a glass of Salts if your Back hurts or Bladder bothers.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach aches, tongue is coated and when the weather is bad you get rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night. To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste, get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.—Adv.

War Recipes

Cut out the following recipes and paste them in your cook book to help you Hooverize. They have been thoroughly tested by instructors and special lecturers in the department of home economics at the University of Washington.

Baked Lima Beans—1 c dried lima beans, 1 pimienta, 3 tb olive oil or bacon fat, 1 small onion, 1/2 ts salt, 1 ts paprika. Soak the lima beans in one qt of cold water for several hours or overnight. Drain off the water. Put the beans in an earthenware dish or covered casserole. Fry the thinly sliced onion and the pimienta cut in small pieces, in the oil or fat for five minutes. Add them to the beans. Add the salt, the paprika, and enough boiling water to cover the beans. Bake the mixture slowly until the beans are soft—about two hours. Add more water as it is needed. If the beans are cooked in boiling water after soaking in the cold water, they may be baked in one hour.

Green Pea Loaf—1 c dried green peas, 4 c cold water, 2 qt boiling water, 1/2 c soft, stale bread crumbs, 1/2 c milk, 1 ts salt, 1/2 ts pepper, 1/2 ts paprika, 1/2 ts grated onion, 1 egg, 3 tb fat—oleomargarine, beef drippings, or bacon fat. Soak the peas in cold water overnight. Cook them in boiling water until they are soft. Rub them through a sieve. To one cup of this pea pulp add the bread crumbs, mild seasoning, egg (slightly beaten), and the melted fat. Turn the mixture into a small, greased bread pan. Set this pan into a second pan, containing water. Bake the mixture forty minutes, or until it is firm. Remove the loaf from the pan. Serve the loaf with plain cream sauce. One-half cup of cheese may be added to one and one-half cups of the sauce.

Hooverized Shrimp a la Newburg—1c shrimp, 2 tb oil (Mazola) or chicken fat, 1/2 ts salt, cayenne, 2 ts lemon juice, 2 ts cornstarch, 1/2 c milk, yolks of 2 eggs, 1 ts minced parsley, paprika, pepper. Cook shrimp three minutes in oil. Add seasonings and lemon juice and cook one minute. Remove shrimps and add flour and milk. Cook until thick. Add beaten yolks of eggs, parsley, and shrimp. Serve on buttered toast.

Shrimp Salad—1 c shrimps, 2-3 c finely cut celery, 1-3 c cooked salad dressing, lettuce leaves. Mix shrimp and celery together. Moisten with salad dressing, and serve on crisp lettuce leaves.

Mockonema to Have Elevator.
Colfax, Wash. — Mockonema, six miles west of Colfax, on the O.-W. R. & N., is to have a bulk grain elevator with capacity for 100,000 bushels of grain. This was decided at a meeting of the stockholders of the Farmers' Warehouse company of Mockonema and a number of farmers who are not stockholders but who deliver their grain at that point. A committee to make arrangements for the building, secure plant and ascertain costs was appointed. Work will be started before spring seeding.
