War Recipes
Cut out the following recipes and paste them in your cook book to help you Hooverize. They have been thoroughly tested by instructors and special lecturers in the department of home economics at the University of Washington.

Baking is one of the most satisfactory methods of cooking fish. Large and small fish may be baked, but small ones are usually broiled or sauted, baked with the head and tail on, or removed, and the body split open. Steaks and filets may also be baked. Fish may be stuffed for baking, or baked in a sauce, such as tomato or brown sauce, or may be brushed with fat, and sprinkled with fine bread crumbs or corn meal. Fish without decided flavor is improved by being marinated with a mixture of vinegar and spices for an hour or two before baking. Granyfish, red snapper and flounder are good prepared in this way. Salmon trout and rock cod are good stuffed and served with tomato sauce. Halibut, red snapper and catfish are good baked in tomato sauce. Bake fresh mackerel in brown sauce, covered with crumbs.

Baked Catfish With Mock Hollandaise Sauce—Dressed catfish, salt, pepper, melted fat, fine bread crumbs. Wipe and dry the catfish. Sprinkle with salt and pepper and rub with melted fat. Sprinkle with crumbs and bake until tender, basting frequently. Serve with mock Hollandaise sauce.

Mock Hollandaise Sauce—3 tsp vegetable oil or butter substitute, 3 tsp cornstarch, 2 eggs, 2 cups milk, 1 tsp salt, juice of one lemon, speck of cayenne. Melt the fat, stir in flour, and blend well. Add milk slowly, stirring constantly until thick. Add lemon juice just before serving.

Stuffed Rock Cod—Rock Cod weighing 3 lbs., salt, melted fat, pepper. Dress fish, leaving on the head and tail. Remove scales, beginning at the tail and working toward the head. Rinse the fish and dry well with a cloth. Fill the cavity with fish stuffing. Sew the sides together, using a piece of twine. Place in a dripping pan; bake until tender; baste frequently with melted fat. Serve with tomato sauce.

Franklin Farm Wages Fixed.
Pasco, Wash.—At a meeting of the Franklin county agricultural preparedness league at Connell, action was taken looking to the establishment of a uniform wage scale for farm hands throughout the county. D. A. Scott, of Ritzville, discussed the labor situation, organization of labor bureaus, uniform wage scales and better treatment of farm help. A wage scale of \$60 a month up to harvest time was adopted, and it was the unanimous opinion that men on farms should be given better working conditions.

LADIES! SECRET TO DARKEN GRAY HAIR
Bring Back its Color and Lustre with Grandma's Sage Tea Recipe.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients, costing about 50 cents a large bottle, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss. While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.—Adv.

DRINK MORE WATER IF KIDNEYS BOTHER
Eat less meat and take Salts for Backache or Bladder trouble.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush out the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.
Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.—Adv.

YES! MAGICALLY! CORNS LIFT OUT WITH FINGERS
You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezone applied directly on a tender, aching corn or callous stops soreness at once and soon the corn or hardened callous loosens so it can be lifted out, root and all, without pain.
A small bottle of freezone costs very little at any drug store, but will positively take off every hard or soft corn or callous. This should be tried as it is inexpensive and is said not to irritate the surrounding skin.
If your druggist hasn't any freezone tell him to get a small bottle for you from his wholesale drug house. It is fine stuff and acts like a charm every time.—Adv.

Swift & Company Publicity
At a recent hearing of the Federal Trade Commission there was introduced correspondence taken from the private files of Swift & Company, which showed that the Company had been considering for some time an educational advertising campaign.
The need for this publicity has been apparent to us for several years. The gross misrepresentation to which we have recently been subjected has convinced us that we should no longer delay in putting before the public the basic facts of our business, relying on the fair-mindedness of the American people.
The feeling against the American packer is based largely on the belief that the income and well-being of the producer and consumer are adversely affected by the packers' operations, resulting in unreasonably large profits.
Swift & Company's net profit is reasonable, and represents an insignificant factor in the cost of living.
For the fiscal year 1917 the total sales and net profit of Swift & Company were as follows:
Sales \$875,000,000
Profits \$34,650,000
This is equivalent to a \$3,465. profit on a business of \$87,500.
If Swift & Company had made no profit at all, the cattle raiser would have received only one-eighth of a cent per pound more for his cattle, or the consumer would have saved only one-quarter of a cent per pound on dressed beef.
Swift & Company, U. S. A.
