Don't bother to prepare the mix-Don't bother to prepare the mix-ture; you can get this famous old re-cipe improved by the addition of other ingredients for 50 cents a large bottle, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another appli-cation it becomes beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightful tollet requisite for those who de-sire dark hair and a youthful appear-ance. It is not intended for the cure, mitigation or prevention of disease.—
