Don't Use Any Other Than Cuticura Soap To Clear Your Skin

With the Fingers! Says Corns Lift Out Without Any Pain

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezeone, which the moment a few drops are applied to any corn or callous the soreness is relieved and soon the entire corn or callous, root and all, lifts off with the fingers.

Freezone dries the moment it is applied, and simply shrivels the corn or callous without inflaming or even irritating the surrounding tissue or skin. A small bottle of freezeone will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callous. If your druggist hasn't any freezeone he can get it at any wholesale drug house for you—Adv.

The Sailor Drifter.

In the harbor a "drifter" was having her name repainted, and near to her was a British war vessel from the decks of which a number of interested tars watched intently while the name Psyche was put on.

When the name was completed, one of the tars called out disdainfully, "Ho, there! That's not the way to spell 'fish' in the navy!"—London Tit-Bits.

The Kind.

"What plants do you think suitable to beautify a cat cemetery?"

"Why not try pussy-willows?"

Now His Move.

"Wife, I'm afraid I can't afford new clothes for you this spring."

"Well, then, Dick, we must move. I don't mind wearing my old clothes in a new neighborhood, but I won't stay here and wear them."—Boston Transcript.

GRANDMA USED SAGE TEA TO DARKEN HAIR

She mixed Sulphur with it to Restore Color, Gloss, Youthfulness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a 50-cent bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of disease.—Adv.

The Judge and the Expert.

Mayor Hylan of New York has no belief in efficiency experts and has banished them from the city hall.

An efficiency expert undertook to teach Judge Hylan, as he then was, a lesson some years ago.

"I observe, judge," the man said, "that you've given notice to your office boy, Jimmy. That's a great mistake."

"But he's the most worthless little—"

"Judge," the expert interrupted, with a superior smile, "I'm going to give you an efficiency lesson. Take Jimmy back, for he sings at his work, and there's no surer sign of efficiency."

"Humph, that's no sign," said the Judge. "A mosquito does that."

A Soft Answer.

The poor fellow at the end of the table looked so unhappy that even the landlady's stony heart was moved.

"How do you like the chicken soup, Mr. Jones?" she asked, by way of saying something.

"Oh—er—is this chicken soup?" he blurted out.

"Certainly. How do you like it?"

"Well—er—it's certainly very tender," said he, apologetically.

To keep clean and healthy take Dr. Pierce's Pleasant Pellets.

They regulate liver, bowels and stomach.

A One-Man Job.

Ferdinand De Footlites was billed for a one-night stand at Mallow-on-the-Marsh. So he sent a telegram to the proprietor of the local theater:

"Will hold a rehearsal tomorrow night. Have stage manager, stage carpenter, property man, assistant electrician and all other stage hands there without fail."

Within a few hours he got a reply from the proprietor, who wired back:

"He will be there."—Tit-Bits.

Hard Worked.

"There goes the hardest worked man in town."

"Nonsense! He's rich and independent."

"Yes, but he has three daughters who work him for the support of their husbands."—Exchange.

Weary.

Actress (to her fiance)—Please don't ask me to kiss you for a week or so, darling. You must remember I took over £200 yesterday selling kisses for the Red Cross.—Passing Show.

A Saving Theory.

"Billings isn't very generous with all his money, is he?"

"No; he holds that wealth is a burden, and that it is not fair to put one's burdens on other people's shoulders."—Baltimore American.

Divided Authority.

"Who really is boss in your home?" inquired the abrupt person.

"Well," replied Meekton, "of course Henrietta assumes command of the pug dog and the canary. But I can say pretty much what I like to the goldfish."—Exchange.

THE REFLECTIONS OF A MARRIED WOMAN

—are not pleasant if she is delicate, run-down or overworked. She feels "played out." Her smile and her good spirits have taken flight. It worries her husband as well as herself.

This is the time to build up her strength and cure those weaknesses or ailments which are the seat of her trouble. Dr. Pierce's Favorite Prescription regulates and promotes all the proper functions of womanhood, enriches the blood, dispels aches and pains, melancholy and nervousness, brings refreshing sleep, and restores health and strength. It cures those disorders and derangements incident to womanhood.

A well-known agent which can be procured at all drug stores is "Pleasant Pellets," made up of the May-apple, the dried juice of the leaves of aloes and the root of jalap. First put out by Dr. Pierce nearly fifty years ago.—Adv.

BIG DRIVE BREWING 5500 ACRES BOUGHT

New German Thrust Due at Mount Kimmel—Million and Half Huns Cut Off Now Face Hunger.

Ottawa, Ont.—The lull in the fighting in France is not expected to last long, notwithstanding the inclemency of the weather, with wind and rain, says a Reuter's dispatch received here Monday from London.

"The Germans are licking their hurts after their recent thrashing and evidently do not mean to reattack until they are ready to do so on a great scale," the message adds.

"They are being openly and enormously reinforced, but the allies also have strengthened their forces and it is not likely that the next thrust will be any more effective in achieving a decision than that of a month ago, when the German people were told to expect a speedy triumph.

"The expectation on this side, indeed, is that the battle may last well through the summer.

"All the enemy's onslaughts hitherto have failed to attain their object, owing to the impossibility of using reserves and have resulted in the bottling up of 1,500,000 men in the triangle of Hazebrouck, Amiens and Noyon.

"These troops, originally supplied with a weeks' rations, are virtually starving in a devastated region which is difficult to revictual, as the ground, marshy and pitted with shell holes, is constantly under fire.

"There is a great concentration of shell fire at Mount Kimmel, which is already stripped of trees. This is probably the scene of the next big attack."

Events along the battle line in France and Belgium seem to be shaping themselves for a resumption of the great German offensive. Since the savage attack on the American forces at Seicheprey on Saturday there has been no fighting of an extraordinary nature along the front, but there have been indications that the Teutons are almost ready to resume the sledgehammer blows they have been aiming at the allied armies.

Unless recent operations have been feints, it is probable that the coming week will witness two great turning movements by the Germans. One probably will pivot on the village of Robecq, northwest of Bethune, on the southern side of the salient driven in to the allied lines back of Armentieres. The other is expected to develop at or near Mesnil, north of Albert, on the north side of the Somme salient.

Rate Increases to Be Filed.

Olympia—The Interstate Commerce commission has notified the State Public Service commission that hereafter all rate increases asked by interstate railroads must be filed with the state commissions before they will be acted upon by the national commission. Heretofore the railroads have been applying for rate increases to Washington, D. C., and the first intimation the shippers or the state commissions received that a change was contemplated was when the new rate was approved by the Interstate commission.

Labor Scarce at Walla Walla.

Walla Walla—The farmers' union, assisted by the county agricultural agent, has started a campaign to get more farm help. There is a shortage. One farmer had to stop his plow teams, being unable to get men. An effort will be made to have clerks and others who work in the city go into the harvest fields this fall.

AMERICANS LOSE OVER 200

Capture of 183 Men and Several Guns Claimed by Berlin.

Washington, D. C.—General Pershing's first report on the German assault upon the American and French forces in the Toul sector Saturday is understood to indicate that the Americans sustained more than 200 casualties and to estimate the German losses at between 300 and 400. It was learned Monday night that the report had been received, but War department officials refused to make it public or to comment upon persistent reports about the department concerning its contents.

Secretary Baker is understood to be awaiting more details before making an announcement, though he probably will lay the information received before the house military committee when he appears to tell of his trip abroad.

The Germans claim to have captured 183 Americans and to have killed and wounded many more, and so far there has been no official American answer to the claim. This situation will result in a revival of consideration at the War department of the proposal that a daily statement be issued from headquarters of the American expeditionary forces.

The explanation heretofore given for the refusal to accede to the proposal has been that American troops are part of and are co-operating with larger French and British units, and that an independent American communication would necessarily duplicate British and French statements.

It is realized, however, that German claims, unless specifically denied from authoritative sources, will be regarded as statements of fact with inevitable resulting anxiety to the people in this country. For that reason Secretary Baker is disposed to reopen the whole question with General Pershing.

Three-Day "Fourth" Protested.

Marshfield, Or.—So many protests have arisen in the county among Loyal Legion units regarding the proposed three days' Fourth of July celebration it was decided to hold a referendum vote on the question, and the 3500 men interested have been requested to vote as quickly as possible. Among the districts objecting to holding a three days' demonstration are all of the North Bend units, Brandon and Smith Mill employees. East Side, has also expressed a desire to see the affair reduced to a one-day celebration.

Mayor Vetoes Bond Buy.

Milwaukee, Wis.—Mayor Hoan has sent to the common council a veto of the Koerner resolution providing that the city buy \$50,000 worth of liberty bonds. The mayor in his statement reiterates his contention, made originally at the first meeting of the new common council, that the resolution be so amended as to provide for its legalizing by the legislature and that the city ought to be recompensed for the outlay by taxing war profits.

Rich Reclaimed Tract Along Columbia River Brings \$300,000—Oats and Pasturage for First Year.

Fifty-five hundred acres of choice bottom land reclaimed from the Columbia river, near Clatskanie, in Columbia county, Or., has been purchased from the Columbia Agricultural company by a syndicate composed of Lee Arnett, Portland banker; Max H. Houser, grain exporter and Federal grain administrator for the Northwest; Ralph E. Williams, of Portland and Dallas, and Donald Bell, a New York manufacturer.

The price paid for the property by the syndicate is announced at \$300,000. The deal was closed March 25, but was announced only this week.

At the same time it was announced that 3000 of the 5500 acres are to be seeded at once in oats, so that the first crop may be gathered this year. The purchasers, who have organized the Clatskanie Land company to handle the property, have put up \$50,000 to buy the necessary seed and are spending \$20,000 for farm machinery.

The remainder of the property will be devoted for the present to stock grazing. While plans in this connection have not been announced, it is understood that considerable stock is to be purchased.

The war has resulted in a great demand for oats to feed the great number of horses in the American and allied armies, and this is understood to be the reason for planting the first crop to that grain.

Later the Clatskanie Land company plans to put the land under intensive cultivation, under its own management, for the raising of potatoes and other vegetables in large quantities for the Portland market.

Willard N. Jones is already in charge of the property as manager for the company. The land is said to be one of the richest tracts in Oregon, the soil being peaty and very fertile. It is a part of 10,000 acres that have been diked and reclaimed by the Columbia Agricultural company.

NORTHWEST MARKET REPORT

Wheat—Bulk basis for No. 1 grade: Hard white, \$2.05. Soft white, \$2.03. White club, \$2.01. Red Walla, \$1.98. No. 2 grade, 3c less; No. 3 grade, 6c less. Other grades handled by sample.

Sheep—Prime spring lambs, \$20.00. Heavy lambs, 16.50@18.00. Yearlings, 15.00@15.25. Wethers, 13.00@13.50. Ewes, 12.00@12.50.

There Is No Monopoly

in the packing industry.

Swift & Company, although the largest packer, handles not to exceed one-eighth of the total meat production of the United States.

The five large packers do not handle to exceed one-third of the total meat production of the United States.

Swift & Company is not in combination with any other packer or packers to control prices.

There is very active competition in the buying of live-stock and equally keen competition in the sale of dressed meats and by-products.

1918 year book of interesting and instructive facts sent on request.
