**9000 MORE ACRES IN**

Additional Reserve Land in Yakima Valley is Sown With Grain, of Which Most is Wheat.

Yakima, Wash. — Nine, thousand acres of new land have been put under cultivation on the Yakima Indian reservation this year, according to L. M. Holt, superintendent of the Indian reclamation service. This acreage is largely in grain, principally wheat. The estimated wheat planting on the reservation is 12,000 acres.

Superintendent Holt was obliged to discontinue development work on the canals until congress passes an appropriation bill. The bill as passed by the house carried \$500,000, but the senate cut this to \$250,000. A conference committee has the matter under consideration. Should the larger appropriation carry and the bill soon pass so as to allow early use of the money, the increase for the season of 1919 is estimated at 20,000 acres. The reservation has 60,000 acres under the Wapato project for which water is ready, but the canals are not yet dug.

"Germany's Industrial Army on American Soil" to be Topic.

New York—Revelation of the government's plans "to divorce Germany permanently from American industry and commerce," will be made by A. Mitchell Palmer, custodian of alien enemy property, at a meeting here May 8, under the auspices of the National Security League.

Accepting the league's invitation to speak, Mr. Palmer wrote from Washington: "I shall address myself to the subject, 'Germany's Industrial Army on American Soil.' It seems to me a good opportunity to disclose the result of my observation as alien property custodian, showing the strong industrial and commercial foothold which Germany obtained in this country before the war, and what we are now proposing to do, to divorce Germany permanently from American industry and commerce."

**Farmer Finds Hogs Pay.**

Sprague, Wash.—Walter G. McLellan has just sold a carload of hogs, 83 in number, for \$3800. He reports that he will soon have another carload, which will make three he will have disposed of, and that they will bring him more than his 1917 wheat crop. He has his farm fenced and lets them run on the stubble after the crop is harvested and also on the summer fallow. He says that the pigs eat and thrive on young Russian thistle, China lettuce and other weeds that grow on summer fallow.

**It Works! Try It**

Tells how to loosen a sore, tender corn so it lifts out without pain.

No humbug! Any corn, whether hard, soft or between the toes, will loosen right up and lift out without a particle of pain or soreness. This drug is called freezone and is a compound of ether discovered by a Cincinnati man.

Ask at any drug store for a small bottle of freezone, which will cost but a trifle, but is sufficient to rid one's feet of every corn or callous.

Put a few drops directly upon any tender, aching corn or callous. Instantly the soreness disappears and shortly the corn or callous will loosen and can be lifted off with the fingers. This drug freezone doesn't eat out the corns or callouses but shrivels them without even irritating the surrounding skin.

Just think! No pain at all; no soreness or smarting when applying it or afterwards. If your druggist don't have freezone have him order it for you.—Adv.

**His Antagonistic Attitude.**

**A Business Should be as Big as Its Job**

If bigness is of benefit to the public it should be commended.

The size of a business depends upon the needs which that business is called upon to serve. A business should be as big as its job. You do not drive tacks with a pile-driver—or piles with a tack-hammer.

Swift & Company's growth has been the natural and inevitable result of national and international needs.

Large-scale production and distribution are necessary to convert the live stock of the West into meat and by-products, and to distribute them over long distances to the consuming centers of the East and abroad.

Only an organization like that of Swift & Company, with its many packing plants, hundreds of distributing houses, and thousands of refrigerator cars, would have been able to handle the varying seasonal supplies of live stock and meet the present war emergency by supplying, without interruption:

**First—The U. S. soldiers and the Allies in Europe by shipping as much as 800 carloads of meat products in a single week!**

**Second—The cantonments in the United States.**

**Third—The retailers upon whom the American public depends for its daily supply of meat.**

But many people ask—Do producers and consumers pay too much for the complex service rendered?

Everyone, we believe, concedes the efficiency of the Swift & Company organization—in performing a big job in a big way at a minimum of expense.

Swift & Company's total profit in 1917 was less than 4 cents on each dollar of sales of meat and by-products. Elimination of this profit would have had practically no effect on live stock and meat prices.

Do you believe that this service can be rendered for less by any other conceivable method of organization or operation?

These questions and others are answered fully and frankly in the Swift & Company 1918 Year Book sent free on request. Address Swift & Company, U. S. Yards, Chicago

**Sick Women**

To do your duty during these trying times your health should be your first consideration. These two women tell how they found health.

Hellam, Pa.—"I took Lydia E. Pinkham's Vegetable Compound for female troubles and a displacement. I felt all run down and was very weak. I had been treated by a physician without results, so decided to give Lydia E. Pinkham's Vegetable Compound a trial, and felt better right away. I am keeping house since last April and doing all my housework, where before I was unable to do any work. Lydia E. Pinkham's Vegetable Compound is certainly the best medicine a woman can take when in this condition. I give you permission to publish this letter."—Mrs. E. R. CRUMLING, R. No. 1, Hellam, Pa.

Lowell, Mich.—"I suffered from cramps and dragging down pains, was irregular and had female weakness and displacement. I began to take Lydia E. Pinkham's Vegetable Compound which gave me relief at once and restored my health. I should like to recommend Lydia E. Pinkham's remedies to all suffering women who are troubled in a similar way."—Mrs. ELISE HELM, R. No. 6, Box 83, Lowell, Mich.
