## NEW WHEAT PRICES OUT

Minimum Price of \$2 is Fixed for Number One Product.

New York.—New wheat prices necessitated by advanced freight rates, were announced here Monday night by the Food Administration Grain corporation. It was asserted that a minimum price of \$2 a bushel for No. 1 wheat aboard cars in the intermountain territory will be made effective. Details of the plan will be made public soon.

The corporation's announcement said that No. 1 wheat of the northern spring, hard winter, red winter, durum and red winter grades would be sold in various markets at the following basic prices:  
New York, \$2.39½; Philadelphia, \$2.39; Baltimore and Newport News, \$2.38½; Duluth and Minneapolis, \$2.21½; Chicago, \$2.26; St. Louis, \$2.24; Kansas City and Omaha, \$2.18; New Orleans and Galveston, \$2.28; Tacoma, Seattle, Portland, Astoria, Or., San Francisco and Los Angeles, \$2.20.

The price basis for No. 2 wheat will be 3 cents below No. 1 and for No. 3 4 cents below No. 2. Grades below No. 3 will be dealt in on sample.

Special classes of wheat, the commission said, will be sold on the following schedule:

Dark hard winter, 2 cents above hard winter; dark northern spring, 2 cents above northern spring; amber durum, 2 cents above durum; yellow hard winter, 2 cents above hard winter; red spring, 5 cents under northern spring; red Walla, 7 cents under red winter; red durum, 7 cents under durum; soft white, 2 cents under hard white; white club, 4 cents under hard white.

Changes in federal grading standards previously filed with the trade, it was declared, are expected to result in production of more high-grade wheat than in 1917.

## HUNS WANT HUGE PRICE FOR PEACE

Member of Prussian House Demands England's Fleet and 45 Billions as Indemnity—U. S. to Pay.

Paris.—Great Britain must turn over its war fleet to Germany, return Gibraltar to Spain and restore Egypt and the Suez canal to Turkey, Great Britain, France and the United States must pay Germany an indemnity of at least \$45,000,000,000. Belgium and French territory must be surrendered to Germany.

These are among the conditions included in the German peace program published in the Nachrichten of Goerlitz, Prussia, by Count Roon, a member of the Prussian house of lords, according to a Havas dispatch from Basel, Switzerland.

Count Roon says Germany is entitled to the following terms because of its strength, and until they are realized there should be no armistice and no cessation of submarine warfare:

Annexation of Belgium, with administrative autonomy in the interior. Independence of Flanders. Annexation of the entire Flanders coast, including Calais. Annexation of the Briel and Longwy basins and the Toul, Belfort and Verdun regions eastward. Restitution to Germany of all her colonies, including Kaio Chau. Great Britain to cede to Germany such naval bases and coaling stations as Germany designates. Great Britain must return Gibraltar to Spain, cede its war fleet to Germany, restore Egypt to Turkey and the Suez canal to Turkey.

Greece must be re-established under former King Constantine with frontiers as before the war.

Austria and Bulgaria will divide Serbia and Montenegro.

Great Britain, France and the United States must pay all of Germany's war costs, the indemnity being a minimum of \$45,000,000,000. They also must agree to deliver raw materials immediately.

France and Belgium are to remain occupied at their expense until these conditions are carried out.

**U. S. Force Arrives in Italy.**  
Washington, D. C.—Safe arrival in Italy of the first contingent of military force which will represent the United States was announced Monday by General March, chief of staff. Sent direct from this country, the troops landed Sunday, to supplement others ordered from France by General Pershing.

Sanitary units compose the greater part of the first arrivals, but "other special units" also were included. General March reiterated the statement that the bulk of the combatant American troops going to Italy will be sent from the western front, their places being immediately taken by new regiments from the United States.

**Types of Tires to be Nine.**  
Washington, D. C.—Immense reduction in number of types and sizes of automobile tires from 287 to 32 has been determined upon by automobile tire manufacturers in accord with recommendations of the conservation division of the war industries board. Under the program, by November 1, 1920, all but nine types and sizes will have been discontinued. The nine types to remain after November 1, 1920, range in sizes from 30 by 3½ to 40 by 8 and include standard non-skid patterns.

**Girl Falls From Train.**  
San Bernardino, Cal.—Meade Belden, 6-year-old daughter of Mrs. M. W. Belden, of Woodlawn, Penn., rolled out of a berth and through the window of a sleeping car of a Santa Fe train on the Mojave desert at 3 o'clock Saturday morning and was not missed until the train had traveled 35 miles. Three hours later the crew of a freight train found the child, who was unconscious, and took her to a hospital at Victorville. She will recover.

## New Treatment for Seed Oats.

Under a new system of treating seed oats to prevent smut, which is recommended as a great labor saver by experts at Purdue university, a solution of one pint of formaldehyde with one pint of water, is mixed, which is enough to treat seed for 20 acres. This is applied with an atomizer sprayer. The seed may be sown within five hours or it may be stored and kept until sowing time. This smut treatment may be made now as the seed will not get damp enough to freeze and spoil. After treatment it should be covered with disinfected sacks or tarpaulin to keep the fumes at work.—Farm Life.

## How Could She?

"Ah, Rosie," I said, as I held her pretty little pink hands in my big burly brown mitts, "you have told me repeatedly that you love me and that you would fulfill my every wish. I have done everything you requested of me. Your whimsical wish has been my one desire. We have gotten along perfectly together and wonderfully noble thoughts have raked my brain. After all this, how could you put such a high polish on your finger nails when you know I like a dull finish!"—Penn State Froth.

## It Works! Try It

Tells how to loosen a sore, tender corn so it lifts out without pain.

No humbug! Any corn, whether hard, soft or between the toes, will loosen right up and lift out without a particle of pain or soreness.

This drug is called freeseone and is a compound of ether discovered by a Cincinnati man.

Ask at any drug store for a small bottle of freeseone, which will cost but a trifle, but is sufficient to rid one's feet of every corn or callous.

Put a few drops directly upon any tender, aching corn or callous. Instantly the soreness disappears and shortly the corn or callous will loosen and can be lifted off with the fingers.

This drug freeseone doesn't eat out the corns or callouses but shrivels them without even irritating the surrounding skin.

Just think! No pain at all; no soreness or smarting when applying it or afterwards. If your druggist don't have freeseone have him order it for you.—Adv.

## The Light Ahead.

What lightens labor, sanctifies toil and makes a man good and strong, wise and patient, just and benevolent, both lowly and great, as well as worthy of intelligence and freedom, is the perpetual vision before him of a better world beaming through life's shadows.—Victor Hugo.

**Liked Frederick Best.**  
Marjorie is fair and feels real proud of her pretty blue bonnet. The other day she came home from kindergarten and said: "Frederick told me my bonnet is pretty, but James said 'High cost of living' at me."

## A Dialogue in 1920.

"Hello, old man! Been abroad, haven't you?"  
"Yes; just got back from Europe."  
"Have a pleasant trip?"  
"Fine! I wasn't a-fraid a minute."  
—Exchange.

## True Repentance.

Henpeck—"If you steal I don't care what you'll repent it some day."  
Henderson—"Foolish idea. Didn't you ever steal a kiss?"  
Henpeck—"Yes—and I married the girl, too."—Brooklyn Citizen.

## Quite Enough.

"You've been out with that tough gang again."  
"I suppose you can read my mind," he retorted defiantly.  
"No, but I can smell your breath."—Kansas City Journal.

## No Paragon.

"Is your new office boy well behaved?"  
"Generally."  
"What do you mean by 'generally'?"  
"Not particularly."—Boston Transcript.

## HOW THIS NERVOUS WOMAN GOT WELL

Told by Herself. Her Sincerity Should Convince Others.

Christopher, Ill.—"For four years I suffered from irregularities, weakness, nervousness, and was in a run down condition. Two of our best doctors failed to do me any good. I heard so much about what Lydia E. Pinkham's Vegetable Compound had done for others, I tried it and was cured. I am no longer nervous, am regular, and in excellent health. I believe the Compound will cure any female trouble."—Mrs. ALICE HELLER, Christopher, Ill.

You can obtain at almost any drug store in this country these vegetable pellets in vials for twenty-five cents—simply ask for Doctor Pierce's Pleasant Pellets. Sold for fifty years.—Adv.

## The Limit.

Two colored men were overheard deep in a discussion of various phases of dumbness. Finally, after a number of illustrations had been cited, one capped the climax by observing with great seriousness, "Yes, sub, dat nigger wuz dat dumb dat when he died and dey opened his haid at de morgue dey found his brain hadn't never been used."

## President's Power Supreme.

In time of war the president of the United States is commander in chief of the army and navy. The members of his cabinet are responsible to him personally, not to congress. None of them may be removed without his consent, except by impeachment.
