Foolish Borrowers of Trouble.
The more some people have the more they want, which may explain the secret of borrowing trouble.

Inculcate Fair Dealing.
Every family should have ethics of fair dealing and honorable thinking. Each member of the family should feel his or her responsibility in maintaining the high standard of the family with a view of co-operation. By this means the children will take an interest in the farm, the home and their environment.—Exchange.

Surely Would Be Missed.
If all the foolishness were suddenly stricken from the world, what would the people have to think about in the future?

STATE NEWS IN BRIEF.

Medford people were shocked Saturday to learn of the death of Ernest Adams, a popular young rancher living near that city, as the result of an airplane accident in England, June 26.

A. B. Chapman, who was arrested in the vicinity of Powers, when a constable found 16 bottles of whisky in his automobile, was held in bonds of \$2500 to appear before the next county grand jury.

The importance of a cannery in a community was demonstrated Monday, when the Linn and Benton Growers' association shipped out a 60,000-pound car of strawberries and loganberries from Albany.

H. H. Zapf was arraigned in the Astoria Justice court Tuesday morning on an information charging him with assault with a dangerous weapon in running over a child with an automobile.

The price of milk in Eugene has been advanced from 10 to 12 cents a quart. Dairymen say the reason for their action is the high price of feed and shortage of pasture resulting from the unusually dry weather.

Captain Percy E. Croup has arrived at Astoria to take command of the little schooner, Casco, and accompanied by his wife will soon leave for the Fiji Islands. The Casco is a little craft of 93 tons and was formerly a codfishing craft in Alaskan waters.

Governor Withycombe has sent a request to Secretary of War Baker that patrols be granted from certain classes of men at Camp Lewis to be used on timber and railroad units, especially where government work for shipbuilding and airplanes is involved.

State Fire Marshal Wells has sent Deputy Marshal Stokes to Heppner to assist in framing a system of fire protection which probably will be based upon use of the home guard as a voluntary fire department, if the state fire marshal's recommendation is followed.

The Linn County Farmers' Co-operative Livestock Shipping association, an organization promoted largely through the efforts of S. V. Smith, county agricultural agent, was formed at Albany on Saturday at a meeting attended by representative farmers from almost all sections of the county.

Indians on the Klamath reservation are receiving citizenship papers so rapidly that they now desire voting precincts in that locality. Formal request for precincts to be established at Chiloquin, at Sprague River, have been filed at the office of the county clerk signed by approximately 100 Indian citizens.

The body of one of the unfortunate men drowned in Crescent lake Monday night has been recovered, according to a message received at Klamath Falls by Coroner A. A. Soule from Postmaster Cleaves, at Bend. The message did not state whether the body was that of Vernon Forbes or Ralph Poindexter.

The first shipment of freight, two flatcar loads of lumber from the DeArmond and Weston sawmill at Swan Lake, has been received over the Klamath Falls municipal railroad, now under construction by Robert E. Strahorn. Locomotive No. 1 was driven by W. E. Bond, Mr. Strahorn's secretary, and fired by Gus Etzelin.

The United States Forest Service is putting a plan to employ girls as fire patrols into effect. Miss Helen McCormick, daughter of Mr. and Mrs. J. J. McCormick, of Eugene, has been employed as a patrol in the upper McKenzie country, within the Cascade national forest. She will begin her duties within a few days.

The city of Glendale, Or., has purchased with civic funds 600 war savings stamps.

The Peavy, official organ of the Siletz, Yaquina and Alsea divisions of the spruce production division, bureau of aircraft production, made its appearance Saturday. It is published weekly by the men engaged in the work and distributed free to all in the camps.

Until further notice all insane patients committed from Multnomah county will be sent to the eastern Oregon hospital at Pendleton, rather than to the main institution in Salem. This was ordered by the state board of control.

With harvest commenced in some parts of nearly every district in the Umatilla country grain prospects still look very good. It is principally barley that is being cut at this time but wheat harvest will follow immediately, and, in some districts it is already under way. The farmers are finding their yields better, as they go into the fields, than they expected a few weeks ago, the grain apparently having filled well within the past week or so.

Vick Bros. of Salem have just purchased 1000 of the new "Fordson" Ford tractors for use in Oregon. George F. Vick, of the firm, left for Detroit recently and his brother Charles has received a wire from him of the purchase. It is understood \$75,000 cash was paid as earnest money for the purchase, which represents a total outlay of about \$750,000. The first carload of the big shipment is expected to arrive about August 1.

Miss Merle Hamilton, of Roseburg, the popular and charming daughter of Judge J. W. Hamilton, of the circuit court, has arrived in Newport and will occupy the position of baggage solicitor for the Crowdis Transfer company on the Newport train this summer.

George W. Sperry, aged 75 years, a resident of Gold Hill 25 years and a veteran of the Civil War, serving as a private in Company G, eighth cavalry, New York volunteers, was adjudged insane and taken to the Oregon insane asylum Tuesday. Infirmities of age and recent loss of his wife were causes of the breakdown.

BATTLE FRONT MAY REACH INTO RUSSIA

War Conference is Held at Washington, D. C.

DECISION IS REACHED

Wilson's Watchful Waiting Seems at End—Vladivostok and Kola Appear to Be Storm Centers.

Washington, D. C.—Developments Saturday tended to indicate that a new battlefront may soon be established in Russia. The German menace, steady advance of which has been reported for some time in dispatches, appears at last to have reached a point where the watchful waiting attitude of the American administration has been challenged.

The Russian situation is understood to have been the subject at a conference at the white house between President Wilson and Secretaries Lansing, Baker and Daniels, Admiral Benson, chief of naval operations, and General March, chief of staff.

There was no announcement after the conference and probably will be none for the present, but it was said unofficially that an important decision had been reached.

Urgent appeals from the allied governments for American approval of and co-operation in joint measures to meet the German menace through Russia, have been before President Wilson for several days. Until now, however, there has been no intimation that he had changed his position, based upon recommendations of his military advisers, that a successful military effort in Russia was not feasible.

For military reasons, strictest secrecy is observed concerning the exact nature of steps proposed by the allies. American and allied naval forces now are guarding war supplies both at Vladivostok, terminal of the Trans-Siberian railroad and Kola, terminal of the railroad on the Arctic coast, which is reported threatened by German forces in the interior.

In some quarters it has been said that since the United States regarded intervention purely as a military problem, the president, heretofore an opponent of military action on the ground of impracticability, would be guided by the decision of the supreme war council at Versailles and General Foch.

Reports Saturday that the supreme war council had given a decision were not confirmed in official circles.

Fuel Rationing Started.

Washington.—Rationing of coal to householders was announced Sunday night by the Fuel administration as among plans designed to prevent a threatened shortage of coal next winter. Each domestic consumer will be allowed only as much coal as is necessary to heat his house to 68 degrees, provided every conservation rule has been obeyed. The allowance, the announcement said, will be sufficient for comfort, but "the thoughtless and wasteful consumer who finds his allowance gone before the end of the winter, will have only himself to thank if he has no fuel with which to heat his house."

The plan involves a department of allotments in connection with each local fuel administrator's office. The system will be put into operation at once. Each order for coal will be endorsed by comparison with the rating of the house where the coal is to be used.

Ex-Mayor Mitchel, Aviator, Killed.

Lake Charles, La.—Major John Purroy Mitchel, killed Saturday when he fell 600 feet from the airplane in which he was riding, dropped from the pilot's seat and plunged downward while his plane skimmed on without a pilot for nearly half a mile, according to statements by officers at Gerstner aviation field near here.

An examination of the wrecked machine developed that the safety belt was unfastened at the time of the accident, causing Major Mitchel to fall from his seat as the plane went into a nose dive.

Major Kirby, commandant of the field, declined to speculate as to the cause for the belt being unfastened. It is a rule that all fliers fasten themselves into place with the belt before ascending.

Benson Heads Admirals.

Washington, D. C.—Secretary Daniels has approved an opinion of the judge advocate general of the navy setting the order of precedence of American admirals as follows: William S. Benson, Henry T. Mayo, William B. Caperton, Austin M. Knight. Admiral Benson holds the chief rank under the naval act of August, 1916, which made him rank next to "the admiral of the navy," a position vacant since the death of Admiral Dewey. Vice-Admiral Dewitt Coffman, who heads that grade, and Admiral Knight, retire this year.

U. S. Buys Flying Field.

Honolulu, T. H.—With the transfer to the United States government on June 24 of Ford Island, in the waters of Pearl harbor, prospects for early development of aviation on Oahu on an extensive scale were given a decided impetus. The amount paid by the government for the property to the John L. Estate and the Oahu Sugar company, owners of the island, was \$235,000. The island will be used by both the army and navy for aviation purposes.

Meat Must Be Sold

Fresh meat is perishable. It must be sold within about two weeks for whatever it will bring.

A certain amount of beef is frozen for foreign shipment, but domestic markets demand fresh, chilled, unfrozen beef.

Swift & Company cannot increase prices by withholding meat, because it will not keep fresh and salable for more than a few days after it reaches the market.

Swift & Company cannot tell at the time of purchasing cattle, what price fresh meat will bring when put on sale. If between purchase and sale, market conditions change, the price of meat must also change.

The Food Administration limits our profit to 9 per cent on capital invested in the meat departments. This is about 2 cents per dollar of sales. No profit is guaranteed, and the risk of loss is not eliminated.

As a matter of fact, meat is often sold at a loss because of the need of selling it before it spoils.

Swift & Company, U.S.A.

Soothe Itching Skins
With Cuticura. Bathe with Cuticura Soap and hot water, dry and apply the Ointment. This usually affords relief and points to speedy healing. For free samples address, "Cuticura, Dept. X, Boston." At druggists and by mail, Soap 25c, Ointment 25c and 50c.—Adv.

Dr. Pierce's Pellets are best for liver, bowels and stomach. One little Pellet for a laxative—three for a cathartic.

Optimistic Thought.
Often what is given is small, yet the result from it is great.

Alum for Cleaning Brass.
Try this for cleaning brass faucets. The Popular Science Monthly says it will not injure either metal or hands. Put one and a half ounces of alum in one pint of boiling water and rub the solution on the brass surface with a cloth. The stains, as well as the tarnish, are quickly removed. The solution is inexpensive and easily made.

Improvement on Old Adage.
If at first you don't succeed, try, try again, but be sure to try a little harder than you did before, and just a little differently, too.

TO BUILD UP both the flesh and strength of pale, puny, scrofulous children, for young or old people, get Dr. Pierce's Golden Medical Discovery. It's the best thing known for a wasted body and a weakened system. It thoroughly purifies the blood, enriches it and makes effective every natural means of cleansing, repairing, and nourishing the system. In recovering from fevers, pneumonia, or other debilitating diseases, nothing can equal it as an appetizing, restorative tonic to bring back health and vigor. Always benefits in nervous and general debility. Sold in tablet or liquid form. Purify and rid your blood of the taints and poisons that make it easy for disease to fasten its hold. Doctor Pierce's Pellets were first put in ready-to-use form nearly fifty years ago, and will always relieve the inactive liver and biliousness. Insist on getting Doctor Pierce's Pleasant Pellets—there is none so good.—Adv.

MURINE Granulated Eyelids, Sore Eyes, Eyes Inflamed by Sun, Dust and Wind quickly relieved by Murine. Try it in your Eyes and in Baby's Eyes. **YOUR EYES** No Smarting, Just Eye Comfort. **Murine Eye Remedy** At Your Druggist's or by Mail, 50c per bottle. Murine Eye Remedy, in Tubes 50c. For Book of the Eye—Free. Ask Murine Eye Remedy Co., Chicago 4

Mankind and Money.
In this willing old world a man will sit up all night to hear money talk, then work for money all day.—Atlanta Constitution.

The Old-Time Cord.
The most common method of making cord wood is to cut the trees into four-foot lengths with an ax and split the larger pieces. The pieces are then piled in a standard cord, which is eight feet long, four feet high and four feet wide. The contents are 128 cubic feet, of which 70 per cent is wood and 30 per cent air. This is the old-fashioned regulation cord of wood.

For Critics to Remember.
The spots on the sun may be an interesting study but anyhow the sun is not all spots.—Rt. Hon. A. Birrell.

YES! MAGICALLY! CORNS LIFT OUT WITH FINGERS

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezezone applied directly on a tender, aching corn or callous stops soreness at once and soon the corn or hardened callous loosens so it can be lifted out, root and all, without pain. A small bottle of freezezone costs very little at any drug store, but will positively take off every hard or soft corn or callous. This should be tried as it is inexpensive and is said not to irritate the surrounding skin. If your druggist hasn't any freezezone tell him to get a small bottle for you from his wholesale drug house. It is fine stuff and acts like a charm every time.—Adv.
