Grand Ave. and East Stark St.

Our doubts are traitors and make us lose the good we oft might win by fearing to attempt.—Shakespeare.

### Manly Pride.

I remember when working in a flower garden was looked upon as a belittling way for a man to earn money. One man hired to dig, threw down his spade when told a place for flowers was being made, declaring, "I ain't got so low as to earn my vitals making a poney bed!"—Elizabeth Eddy Norris, in the House Beautiful.

### Wires in London.

London's telegraph and telephone wires, it is estimated, extend 73,500 miles overhead and 921,000 miles underground.

## SCORE OF VESSELS SUNK BY U-BOATS

### Survivor of Kate Palmer Tells Submarine Raids.

## SPREAD POISON GAS

### Six Atlantic Coast Guardsmen Overcome—Administration Fears Fish Supply is Reduced.

An Atlantic Port.—The number of fishing vessels destroyed by a German submarine in its raid on the fleet of George's Banks last Saturday night was nearer a score than the nine already reported, according to men from one of the vessels brought here Tuesday.

Andrew St. Croix, mate of the Kate Palmer, says from the crossbeams of his vessel he saw the sinking of seven other schooners by bombs and that before the submarine came into view he had counted 11 other explosions at intervals of 15 minutes or half an hour. Reckoning that one bomb was used for each vessel, the mate believes the 11 explosions represented the sinking of that many vessels. The submarine did not use its guns as far as he observed.

According to the mate there were from 25 to 30 swordfishing vessels operating on the banks and the greater number were sunk. He estimated that at least 40 boatloads of men were set adrift as a result of the raid. St. Croix and his two companions were picked up by a motorboat after they had rowed and sailed about 150 miles.

Boston.—Intimation that the fish supply might be reduced because of the operations of a German submarine off George's Banks was sent to the fisheries division of the food administration at Washington by James J. Phelan, assistant food administrator of this state.

Washington, D. C.—Gas from oil discharged on the water by the German submarine operating off the middle Atlantic Coast overcame six men in the coast guard station and light-house on Smith's Island, North Carolina, Saturday evening, the navy department was advised by the commandant of the sixth naval district.

If the gas attack was deliberate, as most officials believed, it constitutes a new and ingenious form of "frightfulness," and, so far as has been reported, was the first direct effort of the German raiders to harm persons or property on American shores.

The gas was said by the commandant of the coast guard station to have much the same effect as the mustard gas used by the Germans on the western front. The men were laid out for more than half an hour, but apparently suffered no serious after-effects.

## HEARST'S PAPERS BARRED

### University Club of San Francisco Unanimous in Decision.

San Francisco.—By unanimous vote the directors of the University Club, of San Francisco, have barred Hearst's Examiner and all his other daily newspapers from the institution because of alleged disloyalty both before and after the United States entered the war against Germany.

The club has a membership of over 700 college graduates and is one of the most widely recognized organizations of its kind in the United States.

It is said that the members have long felt aggrieved over Hearst's alleged pro-Germanism, and the formal edict of throwing out the Hearst papers by the management is the culmination of general anger and dissatisfaction that newspaper owner's conduct since the great war began in July of 1914.

The University Club is the second big institution of its kind in San Francisco to bar the Hearst publications. The Pacific Union Club, by unanimous vote of its directors, took similar action several months ago.

The action of these two clubs is of especial significance. San Francisco is Hearst's home city. He began his newspaper career here with the Examiner. In addition Hearst is a university man. Harvard is his Alma Mater.

### Bandits Kill 66 on Train.

El Paso, Texas.—Twenty-six passengers and 40 soldiers of the train guard of 50 on a northbound Mexican Central train were killed and 70 soldiers and civilians wounded at Consuelo, Chihuahua, 50 miles south of Chihuahua City, Mexico, at 2 P. M. Saturday, by bandits who were under command of Martin Lopez. The passengers left alive and the bodies of the dead were stripped of their clothing and valuables. A military train carrying a strong force of soldiers was rushed to the scene and pursuit of the bandits begun.

### Knitting Needles Halted.

Washington, D. C.—Hand knitting for the soldiers and sailors is to be checked until the war industries board can survey stocks and ascertain whether there is enough woolen and worsted in the country for winter uniforms and overcoats. The board Monday directed spinners to discontinue manufacturing woolen and worsted yarns for hand knitting and the shipment of yarns or wool until further notice.

## FOCH SPOILS HUN'S PLANS

### Foe's Work of Four Months Undone In Three Weeks.

With the French Army in France.—The situation since the battle of the Avre shows a change, which for rapidly and extent has rarely been approached in military history. Marshal Foch's strategy and masterly tactics have in three weeks wrested from the Germans what required four months for them to obtain at a cost variously estimated at from 700,000 to 1,000,000 men.

The immediate results of the counter offensives which will have the greatest bearing on subsequent operations are the clearing of the Chateau-Thierry pocket, ending the menace to Epernay and Paris; the liberation of Monthulidier, ending the menace to Amiens; the freeing of the important eastern railroad line from Paris to Chalons and the equally important northern line from Paris to Amiens, restoring to the allies means of communication which give them enormously greater ease in future movements of troops.

These successes render impossible any rupture of the line which would separate the French armies of the center from those to the east, or a rupture of the junction between the French and British.

The most disastrous consequence to the Germans, aside from the heavy losses they sustained in men and material, is the collapse of their plan to drive wedges into the allied lines and the subsequent widening and joining which would have threatened general dislocation.

Marshal Foch's strategy in reducing the salient wedges wrested the initiative in operations from the Germans, at once obliging them either to order a general retreat to a strong line such as the Somme or to engage reserves. The enemy adopted the second alternative which, having failed, makes eventual retirement immensely more difficult.

The first phase of the battle of the Avre finds the French with a footing upon Thiescourt plateau, west of Noyon, which has vital importance in future operations. The Germans must either capture this at high cost, if they can, or abandon Noyon, which means the fall of Roye and Lassigny, which already are under imminent menace of capture.

The disaster which menaced General von Hutier's army has been averted for the moment. The few narrow passages which now are open for the withdrawal of his stores are so harassed by the bombs of aviators and the fire of heavy artillery that prompt escape is impossible, rendering probable a desperate effort by the Germans to cling to their 1914 lines.

## TROTZKY ASKED TO EXPLAIN WAR TALK

London.—Action suggestive of an ultimatum to the Bolshevik government is reported to have been taken by the allied powers. This move, which is referred to in Moscow advices by way of Berlin, has taken the form of a demand for an explanation of the war talk recently attributed to Premier Lenin.

The diplomatic representatives of the allies are said to have handed a collective note to War Minister Trotzky demanding within three days an explanation of Premier Lenin's threat that Russia would "declare war against Anglo-French imperialism."

It was reported on Monday that Premier Lenin and War Minister Trotzky had fled from Moscow to the naval stronghold of Kronstadt, and that the Bolshevik government would follow them there.

Owing to the difficulties of communication with Russia, it seems probable that the above dispatch has been delayed in transit and refers to an event of several days ago.

Lenine's declaration was made prior to August 9, when American Consul Poole at Moscow informed the state department at Washington that Lenine had told a gathering of sovietists that a state of war existed between the Russian government and the entente.

### Knitting May Not Stop.

New York.—The action of the war industries board Tuesday in halting the production of yarn for knitting in order to conserve wool for army uniforms "may result in the Red Cross getting less wool than it needs, but does not mean a complete stoppage of knitting in American Red Cross work rooms," according to an announcement by officials of the Atlantic division.

They interpreted the board's order to mean that, after an inventory of the country's wool supply had been made production would be resumed.

### Anna Held, Actress, Dead.

New York.—Anna Held, the actress, died here Monday after an illness of several months. Miss Held had been ill since April of a rare malady known as myeloma, a disintegration of the spinal marrow, and her condition was reported several times as critical. She rallied repeatedly, however, and until attacked by pneumonia a few weeks ago was regarded as on the road to recovery.

### Japan Defied by Lenine.

London.—A dispatch to the Exchange Telegraph from Copenhagen says the Petrograd newspaper Pravda, organ of the Bolsheviks, announces that following a stormy meeting of the workmen's and soldiers' deputies, Premier Lenin sent an ultimatum to Japan concerning Japan's intervention in Siberia.

### 972 Officers Discharged.

Washington, D. C.—Secretary Baker informed the senate Monday that of 16,371 national guard officers, 972 have been discharged since the guard was called into federal service. Of that number 464 were discharged upon the recommendation of efficiency boards and 476 were discharged because of physical unfitness. Thirty were court-martialed and two deserted.

## GREAT TRACTOR and IMPLEMENT DEMONSTRATION

Waste No Time! Ask me how you can make \$10 to \$5 daily. Carycroft Co. Box 291, Portland, Ore.

### Ancient "Breadfather."

Of what great importance the loaf, which before 1200 was the name of bread, was a daily food can be inferred from its relation with the word "lord." For lord, A. S. hiaford (hial, bread, loaf; ward, a keeper), is probably a contraction of hial-ward, literally "loaf-ward" and therefore, originally signified the keeper or dispenser of bread—in short, the breadfather, to whom the members of the family had to apply for their daily bread.

To keep clean and healthy take **Dr. Pierce's Pleasant Pellets.** They regulate liver, bowels and stomach.

### All in the Family.

In China every member of a family is responsible for order in that family and every inhabitant of a city is jointly responsible with every other citizen for its tranquility. If a younger son in a family should commit a crime, the older son is likely to be taken into custody for the offense, and, perhaps, punished.

### World's Chief Battlefields.

The world's battlefields have been in the heart chiefly, and there the greatest heroism has been secretly exercised.—Becher.

Never.

We've noticed one thing. Spontaneous combustion never starts a fire in the kitchen stove.—Browning's Magazine.

## With the Fingers! Says Corns Lift Out Without Any Pain

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called **freezone**, which the moment a few drops are applied to any corn or callous the soreness is relieved and soon the entire corn or callous, root and all, lifts off with the fingers.

**Freezone** dries the moment it is applied, and simply shrivels the corn or callous without inflaming or even irritating the surrounding tissue or skin. A small bottle of **freezone** will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callous. If your druggist hasn't any **freezone** he can get it at any wholesale drug house for you—Adv.

### Largest Hens' Eggs.

The largest hens' eggs are produced in Manchuria, those weighing one-sixth of a pound being common.

### WHEN IT LOOKS DARK to a weak or ailing woman, Dr. Pierce's Favorite Prescription comes to her help. For "female complaints," pains, inflammation or ulceration, bearing down sensations, and all chronic weaknesses and derangements, this is the proven remedy. It's the only one so sure that it can be guaranteed. "Favorite Prescription" will benefit or cure, in the case of every tired and afflicted woman.

An easily prepared vegetable pill is made up of May-apple, the dried juices of the leaves of aloes, and the root of jalap, made into a tiny pellet and coated with sugar. It was first put into ready-to-use form by Dr. Pierce nearly 50 years ago. Almost every drug store in this country sells these vegetable pellets in vials for 25c—simply ask for Dr. Pierce's Pleasant Pellets. They have Dr. R. V. Pierce stamp.—Adv.

### To Remove Rusty Screws.

Apply a red-hot iron to the head of a rusty screw and hold till the iron cools a trifle. Immediately after removing the iron use the screw driver and the screw will turn easily.

### Comfort Baby's Skin

When red, rough and itching with hot baths of Cuticura Soap and touches of Cuticura Ointment. This means sleep for baby and rest for mother. For free samples address, "Cuticura, Dept. X, Boston." At druggists and by mail. Soap 25, Ointment 25 and 50.—Adv.

### Dwarf Trees in Small Gardens.

Dwarf trees are suited to small gardens, they occupy little space, are easily cared for, bear sooner than standard kinds, and they are easily shaped into bushes and pyramids, or can be used in espalier forms, trained on buildings, fences or trellises.

### One's "John Hancock."

The first man to sign the Declaration of Independence was John Hancock and he wrote his name so large that, as he said, King George III of England could read it without eyeglasses. Hence the slang expression.

### Composition of Mica.

Mica, so named from its being easily divided into glistening scales, consists of silica and alumina, associated with magnesia, soda and lime in varying proportions. Thus there are potash mica, consisting of silica, alumina and potash, and magnesia mica, in which the alumina is partially replaced by magnesia, passing—as the proportion of magnesia increases—into soft talc, which is chiefly composed of silica and magnesia.

## TO ALL WOMEN WHO ARE ILL

### This Woman Recommends Lydia E. Pinkham's Vegetable Compound—Her Personal Experience.

McLean, Neb.—"I want to recommend Lydia E. Pinkham's Vegetable Compound to all women who suffer from any functional disturbance, as it has done me more good than all the doctor's medicine. Since taking it I have a fine healthy baby girl and have gained in health and strength. My husband and I both praise your medicine to all suffering women."—Mrs. JOHN KOPPELMANN, R. No. 1, McLean, Nebraska.

This famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, has been restoring women of America to health for more than forty years and it will well pay any woman who suffers from displacements, inflammation, ulceration, irregularities, backache, headaches, nervousness or "the blues" to give this successful remedy a trial.

For special suggestions in regard to your ailment visit Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its long experience is at your service.
