The following is a clipping from the Red Cross Bulletin, and is to the point:

"You want me to tell you about the Red Cross. Well, mother, there is just one thing I can say about them and that is that they are God's own representatives. As for paying for anything, that is only German propaganda and you can tell any party that says so that I will be only too glad to accommodate them in any kind of a scrap and let them choose the method when I return to the states. Remember I laid for three weeks in a Red Cross hospital. When I arrived there I could neither smoke nor hear and the first person to visit me was the Red Cross matron of the hospital with a little Red Cross bag containing cigarettes, tobacco, cigarette papers, matches, soap, tooth brush, tooth paste and a lot of

other things. I think I had five sous or the equivalent of one cent in my pocket, so you see how much chance I would have had of getting things with that and nearly all the other boys were in the same fix. It was no joke I can tell you and the Red Cross took care of me when there was no one else to do so."—Lieutenant Wm. W. Pinkerton in a letter to his mother in Boise.

For State Senator

To the voters of Wasco and Hood River counties:

My name will appear on the official ballot November 5th, as an independent candidate for State Senator from the Sixteenth Senatorial District.

The great things that are gripping us at this time make the differences which hitherto have separated the voters into political parties seem trivial and inconsequential. For all such old conditions there is no place now and by this time should have passed entirely out of our consideration. How small they seem when the Nation is battling for the principles on which it was established. Only this great present business really counts with us now.

There is a tremendous obligation resting upon us to put our whole weight into the scale in behalf of the Government and the civilization to which we are indebted for all we have, and all we are. The immediate task of winning the war is so great and absorbing that it is entitled to our

Maupin Times:

I saw your piece about me. I am assigned to the transport U. S. S. Western Scout. We sail for Valparaiso, Saturday, October 12; get a cargo for New York, then its transport service for ours.

I'll be glad to hear from any of my friends at Maupin. Address Seaman H. B. Locke, U. S. S. Western Scout, care of U. S. Ship plug Board Postmaster General, New York City, U. S. A.

This is a great life, but I'd like to be back in the sage brush and God's country.

I'll close for now, will write from somewhere.

Yours sincerely,
Seaman Harold B. Locke.

whole attention, leaving other matters to receive later consideration.

Civilization is being battered out of recognition wherever the German armies and boats reach and this greatest conflict of mankind must be fought to a righteous conclusion at all costs. The conquest of Prussianism is a grim business that must be put through to the end, however long and bitter the way, and for this purpose the unconquered spirit of a free people is getting back of our government with all they have, ready at the call.

Not only the resources of the individual, but also the resources of the State of Oregon should be conserved and placed at the disposition of the Government for the winning of the war and such legislation as will effectuate this end should be immediately enacted.

No person should be elected to any representative office at this time who is not enthusiastically loyal and who will not support the National Administration in prosecuting the war to a successful termination and in opposing a premature peace.
