Nuts and Sirup in Candy.
 It is a fact of common knowledge that nuts are very high in food value, those used principally in manufacturing confectionery being almonds, filberts, pecans, peanuts and walnuts, averaging approximately 1,500 calories per pound. Corn sirup, erroneously called glucose, used largely in manufacturing gum drops, hard candies and taffies, is a pure, wholesome, transparent, heavy sirup, manufactured, as the name indicates, from corn.

The More Spots the More Meals.
 The number of spots burned on a Chinese monk's head shows how much he has elected to endure, says a recent writer on the subject of China. They receive as severe an initiation as they desire, and get therefrom certain privileges. If a monk has three spots he can get three meals free at any monastery in China; six spots entitles him to six meals; nine spots to three days' board, and the maximum of twelve, a month's care.

 COMPLETE LINE OF STEEL FILING DEVICES AND SYSTEMS

He Takes the Blue One.
 Of course you've heard about the hardworked guy whose job was to pick the blossoms off the family century plant; the bloke who sticks the spots on double-blank dominoes and the culprit whose life work is making bird seed for cuckoo clocks, the champagne, double-bowknotted, floatin' axled and vulcanized war loafer is the cuss who said he was doing war work by picking up the stitches his wife dropped when she knitted.

SAGE TEA DANDY TO DARKEN HAIR

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound tonight and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

This preparation is a toilet requisite and is not intended for the cure, mitigation or prevention of disease.

The Supreme Test.
 To retain our faith in our ideals when broken and trodden beneath men's feet in the dust, to know how to lay aside our inward sadness, to dismiss our enervating doubts and struggle on, to continue our march, sustained only by the thought of duty and an unyielding will, to make the most of life as it is given us—that is the supreme test of all great souls. That is the real victory of faith that overcometh the world.

Much Good in Kind Words.
 Kind words do not cost much. They never blister the tongue or lips. Though they do not cost much, yet they accomplish much. They make other people good natured. They also produce their own image on men's souls and a beautiful image it is.—Blaise Pascal.

Perhaps.
 Lucky is the man who marries a widow whose first husband was mean to her.—Chicago Evening Post.

Are You Satisfied? **BEHNKE-WALKER BUSINESS COLLEGE** is the biggest, most perfectly equipped Business Training School in the Northwest. Fit yourself for a higher position with more money. Permanent positions assured our Graduates.
 Write for catalog—Fourth and Yamhill, Portland.

Do You Want to Know Both Sides?

Swift & Company's 1919 Year Book, just out, tells you

What Swift & Company's profits were in 1918,
 The truth about the Federal Trade Commission's investigation,
 Why the prices of butter and eggs are so high,
 And many other vital facts.

Whether or not you agree with us after reading this Year Book, you will at least know both sides.

You will find it interesting; Americans like to hear about big things done in a big way. You will also discover that we are merely human beings like yourself, doing in the best possible way a necessary service.

Legislation is pending in Washington; as a good American citizen you want to know both sides of this question. It concerns you, as well as one of the most important industries in the country.

Do not hesitate to send for a copy of this booklet. Your name and address are all we need.

Address Swift & Company

Preserving Spiders' Webs.
 In order to preserve spiders' webs, naturalists employ an ingenious method. The webs are first sprayed from an atomizer with a thin solution of artist's shellac, and then, should they be of the ordinary geometric form, they are pressed carefully against a glass plate, the supporting strands at the same time being severed. After the shellac solution has dried the plates carrying the webs can be stored away in a cabinet.

 The Cutter Laboratory, Berkeley, California

Laugh When People Step On Your Feet
 Try this yourself then pass it along to others. It works!
 Ouch ! ? ! ? ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn or hardened callous stops soreness at once, and soon the corn or callous dries up and lifts right off without pain.
 He says freezone dries immediately and never inflames or even irritates the surrounding skin. A small bottle of freezone will cost very little at any drug store, but will positively remove every hard or soft corn or callous from one's feet. Millions of America's women will welcome this announcement since the inauguration of the high heels. If your druggist doesn't have freezone tell him to order a small bottle for you.—Adv.

PISO'S
 By reason of its depredations on the rice fields, the bobolink was formerly rated the most destructive feathered creature on this continent. But the rice has moved away from the path of its migration, and on this account it has become almost harmless. Henceforward we may admire the protean bobolink without qualification and, protected against its only important enemy, man, it will doubtless become a much more numerous species.
