"The censor cuts out all the interesting parts of his letters, but he's found a way to get even with him." "What's that?" "He says he's going to quit writing."  
 Why Called "Clove."  
 The word "clove" has come down from the French word "clon," which means a nail, because of the resemblance, partly real and partly fanciful, which the dried clove bears to a nail.

## KOW-KURE

## Breaking all Records

Right now—when milk prices are breaking all records—is the time to make new high records in milk production. It is surprising how effectively this can be accomplished by raising the health standard of your dairy cows.  
 The most prevalent cow ailments—Abortion, Retained Afterbirth, Bunches, Lost Appetite, Scours, etc.—arise from an impaired condition of the genital and digestive organs. Kow-Kure has remarkable medicinal properties that act directly on these organs, producing regular, healthy action. The cow thrives on Nature's food, and a full milk flow naturally follows.  
 An occasional use of Kow-Kure will prevent disease and pay for its cost a hundredfold. The best dairymen keep it on hand constantly. Feed dealers and druggists sell Kow-Kure, in 60c. and \$1.20 packages.  
 Send for free book "THE HOME COW DOCTOR"—very useful wherever there are cows.

## The Flavor Lasts

## Jump from Bed in Morning and Drink Hot Water

Tells why everyone should drink hot water each morning before breakfast.

Why is man and woman, half the time, feeling nervous, despondent, worried; some days headachy, dull and unstrung; some days really incapacitated by illness.  
 If we all would practice inside-bathing, what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosy-checked people everywhere. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms stomach-like poisons which are absorbed into the blood.  
 Men and women, whether sick or well, are advised to drink each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins.  
 Millions of people who had their turn at constipation, bilious attacks, acid stomach, nervous days and sleepless nights have become real cranks about the morning inside-bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone, its cleansing, sweetening and freshening effect upon the system.—Adv.

## Cuticura Soap Ideal For Baby's Skin

Sicker Than Ever.  
 What makes a kid the maddest is to get sick so he won't have to go to school, and then to find out that the teacher was sick on that day and that there wasn't any school.  
 Suspicious.  
 "Have you got a lawyer looking after your interest?" "Nominally; but I rather think he has his eye on my principal."—Boston Evening Transcript.

## Puttling in History.

Puttling in its early form was made of minced meat of some sort, well seasoned and stuffed into an intestine, and then cooked by boiling. There are words in many early languages meaning puttling, but it seems originally to have come from some word meaning a short body or inflated skin.

## Taking No Chances.

Two mothers, one with a five-year-old girl and the other with a seven-year-old boy, set out for a walk. For convenience it was suggested that the children walk together and ahead. Said the boy: "I will if they won't call it marry."  
 And His Needs Are Numerous.  
 A politician thinks he is entitled to as many kinds of opinions as he may need in his business.  
 Governmental Science.  
 The science of government is only a science of combinations, of applications and of exceptions, according to times, places and circumstances.—Rousseau.
