Bible's Place in the World.
 Bacon furnishes more than seventy allusions to the Bible in twenty-four of his essays. Addison, Johnson, Pope, Young, Browning, Tennyson, abound in Scripture. "For more than 1,000 years," says Coleridge, "the Bible, taken collectively, has gone hand in hand with civilization, science, law—in short, with the moral and intellectual cultivation of the species all ways supporting and often leading the way."

For Artificial Limbs.
 Willow or other wood of a similar nature has heretofore been made use of in the manufacture of artificial limbs, but cheaper and at the same time superior substitute has been found in a composition in which celluloid largely enters. The composition is made use of by spreading upon pieces of fabric, which are then wound about a mold. The new material is said to be light, easily worked and of trivial cost.

The Frigate Bird.

Naturalists aver that the frigate bird performs most of the business of its life on the wing—feeding, the collection of nesting material, and even sleeping. The spread of its mighty pinions is immense, and it can fly 96 miles an hour without seeming to move.

Sudden Cold Kills Fishes.

It has been proved that sudden cold sometimes causes the death of thousands of fish in the shallow waters of the tropics and subtropics. Many species are so chilled as to become helpless, and either killed directly by drowning or are washed ashore in a comatose state. The phenomenon is known locally as "freezing," although the temperature of the water may be several degrees above the freezing point.

Beware.

The frequent repetition of any facial expression causes permanent alterations in the expression, and these correspond with, and suggest to the beholder, the emotional state that has predominated; so that the man who is always laughing comes to look "a jolly man," the thinker a thoughtful man, and the woman who worries begins to wear a worried look that persists.

King James Bible.
 The most remarkable event of the reign of King James I, who was characterized by the Duc du Sully as "The wisest fool in Europe," was the appointment of a commission to revise the English translation of the Bible, which was completed in 1611. In 1694 this commission was appointed by the crown, and consisted of the most profound scholars of that period, who in seven years completed the so-called King James version.

Laugh When People Step On Your Feet
 Try this yourself then pass it along to others. It works!

Such ! ? ! ? ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn or hardened callous stops soreness at once, and soon the corn or callous dries up and lifts right off without pain.

He says freezone dries immediately and never inflames or even irritates the surrounding skin. A small bottle of freezone will cost very little at any drug store, but will positively remove every hard or soft corn or callous from one's feet. Millions of America's women will welcome this announcement since the inauguration of the high heels. If your druggist doesn't have freezone tell him to order a small bottle for you.—Adv.

IF KIDNEYS ACT BAD TAKE SALTS
 Says Backache is sign you have been eating too much meat.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and lanky. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.
