To Fill Floor Cracks.

A very complete filling for open tity in there proportions. Put one ta blespoonful of alum in the mixture and stir thoroughly until brought to a bolling heat. Make the final mixture which was gradually increased as it made merry the day through the long musicians, generals and other note a putty knife. It will harden like papier mache.

DESTROYING PRAIRIE DOGS TO SAVE CROPS

Organized Operations Conducted Get relief without fear as in New Mexico.

Nearly 5,000 Land Owners Took Active Part in Work-Cost for Treatment of Range Land Less Than 4 Cents an Acre.

(Prepared by the United States Department of Agriculture.) Organized poisoning operations were

extended over 1,231,297 prairie-dog-infested acres in New Mexico last year under the co-operative war measure work of the biological survey of the United States department of agriculof the New Mexico college of agricul-ture. This included the protection of tism, Neuralgia, Lumbago, Rheuma-tism, Neuralgia, Lumbago, Rheuma-tism, Neuralgia, Lumbago, Rheuma-tism, Neuralgia, Lumbago, Rheumature. This included the protection of 212,992 acres of crops in all parts of Hands ess than \$60,000. The actual cost for the treatment of range land was less than 4 cents an acre. If average crop returns in New Mexico be placed as low as \$20 an acre, the saving in crops alone for this one season is approximately \$500,000. To this should be

New Mexico Practiced Poison Control on 1,231,297 Acres Against Prairie To remove pimpler and blackheads Smear them with Cudeura Ointment.

added the benefit from the destruction of prairie dogs on over a million acres of range and the consequent increased value in crops and forage for seasons to come. Better organization will result from the experiences of last year, and the biological survey and the authorities in New Mexico are in a position to push much more vigorously the work of clearing the state of prairie dogs. Economy and effectiveness have been increased through recent improvements in poisoning methods and, with the help of legislative measures and the hearty co-operation of all ranchmen, it is hoped that the prairie dog will be entirely eradicated Pearl street, New York City. before many years.

YES! MAGICALLY! CORNS LIFT OUT WITH FINGERS

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezone applied directly on a tender, aching corn or callous stops soreness at once and soon the corn or hardened callous loosens so it can be lifted out, root and all, with-

out pain. A small bottle of freezone costs very little at any drug store, but will positively take off every hard or soft corn or callous. This should be tried as it is inexpensive and is said not to irritate the surrounding skin.

If your druggist hasn't any freezone tell him to get n small bottle for you from his wholesale drug house. It is fine stuff and acts like a charm every
