Bottled by Rock Remedy Co., 7 1st St., Portland, Or.

LABOR SITUATION IS LESS SEVERE

Improvement Is Reported by Bureau of Crop Estimates After Investigation.

WAGE RATE NOT CONSIDERED

Actual Supply of 1919 Was 83 Per Cent Against 72 Per Cent One Year Ago—Less Favorable on the Atlantic Coast.

LABOR SITUATION IS LESS SEVERE

Improvement in 1919. Stated in percentage of a normal labor supply as related to a normal demand for labor, the actual supply of 1919 was 72 per cent and of 1918 it is 83 per cent—still inadequate without greater than normal dependence on machinery and animal, tractor and motor power, and without more than usual labor by farmers and their families. However, the improvement over 1918 is considerable.

In both years the groups of states that were and are provided with labor in relation of supply to demand, less than, or at the most equal to, the average for the United States, are the North Atlantic, the South Atlantic and the South Central.

Among these three groups of states, the greatest improvement is in the North Atlantic and the least is in the South Atlantic, and these extremes of high and low improvement are not equaled by the North Central and Western states, in each of which the average improvement is almost the same as that of the entire country. The improvement is evenly distributed throughout all state groups, except the North Atlantic states, where the gain is twice as great as in each of the other groups of states.

Situation is Worse. Apart from tendency toward relief from labor scarcity from 1918 to 1919, the situation this year is less favorable on the Atlantic coast, from New England to the South Atlantic states as a group, than in the states west of the Appalachian mountains as groups, and in this long strip of coast the situation is worse in the South Atlantic group of states.

GARY IS FIRM IN OPEN SHOP DEMAND

Washington, D. C.—In his first pronouncement before the national industrial conference, Judge E. H. Gary, chairman of the board of the United States Steel corporation, sitting as a representative of the public, Monday reaffirmed his position that the steel strike "should not be arbitrated or compromised" and objected to action on that issue by the conference.

He also restated without modification his belief in the open shop and the right to determine terms of employment "between employe and employers."

This statement brought forth from Samuel Gompers, president of the American Federation of Labor, the charge that Judge Gary was taking the attitude that "there is no other opinion in the matter."

Referring to the corporation chairman's request that the conference take no action in the strike, the labor leader declared that if the real industrial issues were to be brushed aside there was no purpose in continuing the conference.

While the clash of the two leaders removed the hope of an agreement on the dominant issue of collective bargaining, prospects of conciliation were considered still more remote when it was permitted to become known that the representatives of capital after an all-day session were steadfast in their refusal to accept the Russell-Endicott resolution for recognition of collective bargaining, approved by the public and labor groups.

Utilizing Time.

"Ladies," announced the president of an afternoon bridge club. "It has been moved and seconded that there shall be no conversation at the card tables. What shall we do with the motion?" "I suggest," said a sprightly member, "that we discuss it while we play."

INCREASED PRICE IN SUGAR IS STOPPED

Price Limit Placed at 10 Cents Wholesale

BY EQUALIZATION ACT

The Board Notifies Refiners Who Have Been Withholding Supplies Until Market Is Steady.

Washington, D. C.—Steps to prevent an abnormal increase in the price of sugar because of the existing shortage were taken Monday by the department of justice.

Attorney-General Palmer notified beet sugar refiners who have been withholding their products from the market until the price situation became stabilized, that the United States sugar equalization board had determined that 10 cents was a fair price to be charged the wholesalers and that any charge in excess of that amount would be regarded as violation of the food control act.

Refiners were asked to telegraph their concurrence in this price, which would mean that they would put their supply on the market immediately.

The price to the wholesaler heretofore has been 9 cents. Retailers have been allowed to charge 11 cents a pound for controlled sugar under the old prices. It is assumed that the new retail increase would be not greater than the wholesale advance.

Attorney-General Palmer made public the following telegram sent to beet sugar refiners:

"After thorough investigation by the duly recognized authorities on sugar, the United States Sugar Equalization board has notified the department of justice of the following facts:

"As a considerable part of the country generally supplied at this time of the year with beet sugar may be embarrassed because of the beet sugar factories' failure to sell beet sugar as produced and this condition in turn is due to the uncertainty regarding price, our judgment is that no higher than 10 cents cash, less 2 per cent seaboard basis, is justified and we hope that you will decide at once to begin marketing your sugar on this basis and relieve the very serious situation."

BRITAIN WAITS ON U. S.

Portsmouth, England.—The personnel of the British navy will be reduced to 50,000 men when the United States ratifies the peace treaty. It is said by the News, on what it declares to be authoritative information. The number of marines, it declares, will be cut to 10,000. The pre-war strength of the British naval personnel, shown by figures of 1914, was 114,235 officers and men. The number of marines in the same year was 18,042.
