Market Road

The State Market Road Act passed by legislature (Laws 1919, chapter 431, page 818) provides for a mill uniform state levy—to be held in a special Market Road Fund—to be distributed between the counties by the State Highway Commission.

Any county desiring to obtain its proportion of the State Market Road Fund must levy a special county tax equal to the total received from the state. Any road district in the county wishing to improve one or more market roads must make application by three or more free holders, to the County Court for a special road election to be held in November for the purpose of voting a special millage to match the county funds set aside by the County Court to the use of said road district.

Thus outside road districts may vote for \$10,000 and get \$20,000 from County and State Market Road money, making a total of \$30,000 for its district. Not a bad scheme for outlying districts.

Road district No. 82, including Maupin and Wapinitia is now in line for a snug sum for road surfacing for 1920. Election notices will soon be posted. The County Court and Commissioners will meet the Road Committee at Maupin State Bank Saturday to talk over ways and means and road matters. S. C.
