### Was Last Polish King.

In 1798, on the 11th of April, Stanislaus Poniatowski, the last king of Poland, died. Poniatowski ascended the Polish throne in 1764. The condition of Poland required a strong man on the throne to keep the country from ruin, and Stanislaus lacked the necessary strength and statesmanship. Russia, Prussia and Austria divided this kingdom among them and the deposed king retired to Petrograd on a pension, where he died in 1798.

### Asbestos Deposits

In the Kotzebue sound region, western Alaska, there are asbestos deposits said to rival the richest in the world. Asbestos, in its natural or virgin state, is as white as snow, soft as the softest silk and lies in long strings or layers, easily torn apart with the fingers.

### The Church-Goers.

If some men were to quote the well-known psalm they would have to say, "I was glad to make excuses when they said to us, 'let us go into the house of the Lord.'" The "they" referring probably to the women of the house, or the church-going neighbors.

# FARM POULTRY

## MORE POULTRY IS PRODUCED

### Application of Better Methods Has Done More to Help Than Greater Number of Fowls.

(Prepared by the United States Department of Agriculture.)

Poultry production increased 5 to 20 per cent in 1917 and 1918 in Missouri, Kansas, Nebraska, Iowa, Minnesota, North Dakota and South Dakota, which comprise district No. 3 of the emergency extension poultry work being conducted by the United States department of agriculture. Efficiency in poultry management through the application of better methods, advocated by poultry specialists of the department and state colleges, has done more to increase production than the keeping of a greater number of fowls, says the department's representative in this district. In the culling campaign in one

state enough money was saved to farmers by disposing of 200,000 slacker hens to more than pay the expenses incurred for all of the extension work carried on in that state, and this culling work was only a part of the extension enterprise.

It was the one campaign wherein results were immediate, however, and it also afforded a definite basis upon which to estimate and tabulate the financial saving. The "better poultry" and "early hatch" campaigns were of even greater importance, and the saving and conservation of food through the "preserve eggs" and the "infertile egg" campaigns runs well up into the hundreds of thousands of dollars the representatives report. More stress is now being placed upon the educational features of poultry work to insure greater efficiency in management. The farmer or poultry raiser will not be content in the future with an average egg yield of six or seven dozen for each hen, when it is known that the average yield should be from nine to twelve dozen.

### INSPECT SHIPMENTS OF EGGS

Federal Food Inspectors of Department of Agriculture Watch for Violations of Law.

(Prepared by the United States Department of Agriculture.)

Interstate shipments of eggs are being watched closely during the hot months by federal food inspectors of the department of agriculture, in order that appropriate action may be taken when such shipments violate the law. Shipments containing eggs which have yolks stuck to the shell, moldy eggs, black spots, mixed rots, added eggs, and any other eggs which are filthy, decomposed or putrid, are in violation of the law.

Careful candling before shipment will enable dealers to eliminate the bad eggs. The elimination of the spoiled or partially spoiled eggs before shipment not only removes the hazard of violating federal and state food laws, but it is economical in that it saves shipping charges on eggs likely to be rejected at place of receipt. A number of states have laws or regulations specifically requiring the candling of all eggs placed on sale.

Directions as to how to candle eggs, as well as information regarding the best methods of pecking, shipping and storing eggs, will be sent upon request to the United States department of agriculture, Washington.

### DOULTRY NOTES

Provide roosts and dropping boards.

Keep hens free from lice and the house free from mites.

Always handle ducks and geese by the necks, never by the wings or legs which are not strong enough to serve as handles.

An angry old goose will sometimes strike with her wings hard enough to break a man's arm, and care should be taken when handling geese.

Old fowls do not need much corn or cornmeal during hot weather, but a certain amount should be fed to make a fairly well-balanced ration.

Cull out and kill all weaklings and deformed specimens among the chicks, so as to stop their feed bill and give their room to more promising youngsters.

# SUFFERING CATS! GIVE THIS MAN THE GOLD MEDAL

No humbug! Any corn, whether hard, soft or between the toes, will loosen right up and lift out without a particle of pain or soreness.

This drug is called frezone and is a compound of ether discovered by a Cincinnati man.

Ask at any drug store for a small bottle of frezone, which will cost but a trifle, but is sufficient to rid one's feet of every corn or callous.

Put a few drops directly upon any tender, aching corn or callous. Instantly the soreness disappears and shortly the corn or callous will loosen and can be lifted off with the fingers.

This drug frezone doesn't eat out the corns or callouses but shrivels them without even irritating the surrounding skin.

Just think! No pain at all; no soreness or smarting when applying it or afterwards. If your druggist don't have frezone have him order it for you.—Adv.

### Cuticura Soothes Itching Scalp

On retiring gently rub spots of dandruff and itching with Cuticura Ointment. Next morning shampoo with Cuticura Soap and hot water. Make them your every-day toilet preparations and have a clear skin and soft, white hands.—Adv.

### Found Road to Happiness.

I have been a great deal happier since I have given up thinking about what is easy and pleasant, and being discontented because I could not have my own will.—George Elliot.

### To Wait Patiently.

To wait patiently men must work cheerfully.—Samuel Smiles.

## NAME 'BAYER' MEANS ASPIRIN IS GENUINE

### For Colds, Headache, Pain, Neuralgia, Toothache, Lumbago, Rheumatism

"Bayer Tablets of Aspirin" to be genuine must be marked with the safety "Bayer Cross." Always buy an unbroken package of "Bayer Tablets of Aspirin," which contains proper directions.

Handy tin boxes of twelve tablets cost but a few cents. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacturing of Monacoelecaidester of Salicylic acid.—Adv.

### Old Name for February.

The old Britons gave the nickname "Fildyke" to February, not because it is a particularly wet month, the average rainfall being the least of any month in the year, but because the melting snow on the hills causes the rivers and dykes to overflow. When there is a superabundance of snow and rain in February there is too much of what would be a good thing in moderation, and floods where they are least welcome.

### TO BREAK IN NEW SHOES ALWAYS USE

Allen's Foot-Ease, the antiseptic powder. It prevents tightness and blistering. Relieves Corns, Bunions, and Swollen, Sore, Aching Feet. Gives rest and comfort. Accept no substitute. Sample FREE. Address, Allen S. Olmsted, Le Roy, N. Y.
