EGGS.

The humble egg has a beautiful shell, that, very much like the motor car, houses its mysterious contents. Your dealer may buy only uniform large size eggs from a systematic producer, he may carefully test each for quality and offer you only the best. He is a responsible dealer and you fare well at his hands. His competitor however, may buy where he can for the least possible money, size and quality are not a part of his staid ard of value. Uninformed through the limitation of your vision, you have no way of knowing the possible secrets existing beyond the symetrical contour of an attractive exterior, and he smilingly shades the price and delivers you, kind reader, inferior eggs. Beware of such an irresponsible dealer, whether he sells eggs or motor cars. The shells covering the sterling qualities of our used cars we are proud to say, are refinished to present the best possible appearance. Within the shells we have inspected, tested, and rebuilt the contents so that you may select any car that may please you with the utmost confidence as to its standard of value.

RATE RISE TO NET \$1,134,000,000

EFFECTIVE SEPT. 1ST

Government Guarantee of Standard Return of \$893,000,000 Annually Will Expire.

Washington, D. C .- Rate Increases granted railroads by the interstate commerce commission are designed to give carriers an annual net operating income of \$1,134,000,000 or \$241,000,-000 more than the standard return al-

lowed by the government. This is \$34,000,000 more than the roads made in their record year of 1916, but is \$29,000,000 less than the \$1,233,000,000 net operating income they sought.

Rate experts will begin at once preparing the new tariff schedules it is planned to file in time for the increased rates-freight, passenger and Pullman-to become effective September 1. Then the government guarantee of the standard return of \$892,000,000 an-

nually will expire. Experts also will undertake to figure the ectual money return to accrue from the increases which are about 33 per cent on freight, 20 percent on passenger, excess baggage and milk rates, and 50 per cent on charges for space in sleeping and parlor cars. The actual increase to the roads has been estimated at \$1,500,000,000, but at present the exact amount is problematical. With passenger and Pullman charges advanced, travel probably will

be reduced. Based on passenger traffic, the increases are expected to yield \$277,-000,000, all of which was sought to help absorb the wage advance to railroad workers, which the railroad labor board figured would total \$618,000,000. The carriers have figured the increase

at \$625,000,000. The estimated net operating income of \$1,134,000,000 the roads are to receive represents 6 per cent on the aggregate value of their properties, which was placed by the commission

at \$18,900,000,000. Should the increase produce more than the 6 per cent return, half of the excess would, under the transportation act, be placed in the roads' reserve funds and the other half turned over to the interstate commerce commission to establish a revolving fund for making loans to the carriers or for The day is always his, who works purchasing equipment to be leased to

> The estimated net income to be received by the three groups of roads is fixed at 6 per cent of the valuation placed on those groups by the commis-

The valuation of all the western roads is placed at \$8,100,000,000. They would receive an estimated net operating income of \$486,000,000, against the \$537,800,000 sought. The standard return they are now receiving is \$401,-

JAPAN RESENTS U. S. NOTE ON OCCUPATION

Tokio,-The American note dealing with Japan's occupation of the northern part of the island of Saghalien, appeared to have made an unpleasant impression generally on Japanese but the hope was expressed that the government could convince the United States that the occupation will be only

temporary. The newspapers were adopting, in the main, three lines of opinion. The first, reported by the Yomiyuri Shimbun, was that Amrica's attitude toward Japan was always in the nature of a challenge. The second, voiced ception abroad about Japan. The third, expressed by the conservative A papyrus on geometry dated 1100 Jiji Shimpo, was that the occupation of Russian territory by Japan constituted a doubtful policy, liable to

cause difficulties.

London, - Agreement was unanfmously reached to form a communist party in Great Britain "for the purpoce of establishing communist rule, conferring power on the working classes and controlling all forces of production," at the opening session of the convention here Sunday. Resolutions were passed stating it was necessary to "set up a dictatorship of the proletariat as a means of combatting counter revolution."
