## FORTUNES In the Air

There are fortunes in the air for the man who can operate an airplane. Several of our machines have cleared \$1500 recently on 3-day engagements.

Progressive ranchers and business men are finding this quickest mode of travel indispensable in their every-day affairs. Let us show you how inexpensive it is to own and operate a plane.

We are offering 30 airplanes, in first-class condition and ready for immediate use—each one a rebuilt Army machine, soundly constructed for hard usage as well as long-trip comfort—at prices no higher than men pay gladly for good autos.

## Content With Little.

"It seems to me," said Marthe, with the wisdom that the simple in heart acquire with pain and travail, "that in this world a woman's only chance of happiness is if she loves. Being loved doesn't make her so. . . . Love's a fire, so it must have fuel to keep it alight, but a woman's fire needs very little, and that is rather a good thing perhaps, for she seldom gets much."—"The Journey Home," by Sybil Lethbridge.

## Horse's Decorations.

The brass decorations frequently seen on the harness of a work horse are a direct survival of the amulets which bedecked the horses of the time of Julius Caesar and the ancient Egyptians.

## Personal Preference.

A New York man sent his bride a kiss by wireless. So far as kissing is concerned we much prefer the old-fashioned method.

## WHY? WHY? WHY?

When it is possible to buy used cars from a most responsible dealer, from a dealer who conscientiously rebuilds his motor cars, from a dealer who takes pride in refitting to the utmost his used cars he sells, from a dealer who is handling such a popular make of new cars that his used car trades are only accepted provided they are of the best and at a low enough price so they can be resold below their actual rebuilt value. Why, kind reader, will anyone go to a dealer who pays long prices on trades so as to stimulate a market for his new cars? A dealer who must sell such cars in competition with other dealers and cannot therefore afford to expend money to make his offering to you an honest transaction.

Utilizing Pea-Pod Fiber.  
The fiber of pea-pods is separated for industrial use in a process covered by a recent patent. The outer layer is dissolved away by fermentation or by treatment with hot water or steam, the inner fibrous layer being left in a form adapted for spinning or utilization in other ways. The solution of the outer layer, containing sugar, is not necessarily a waste as it can be made to serve some such purposes as preparing marmalade.

## Awful Possibility.

Edward was talking cannibals to his sister. Rather frightened, the little sister said: "Oh, I hope they don't come here. If they do, they'd eaten us up and then we won't have ourselves."

## Tempered With Mercy.

Even the girl who gets mad when she is kissed by a man is always merciful enough to remember that "perhaps the poor fellow couldn't resist such a temptation."—Houston Post.

## Why He Couldn't.

Jones dismally: "I simply can't meet my creditors!" His friend: "Why should you? What in the world do you employ a secretary for?"

## Colors No Longer Procurable.

## Lift off Corns!

Doesn't hurt a bit and Freezeone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet.  
A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!

## Tattoo Marks.

Although tattoo marks are generally asserted to be indelible if produced by the insertion of carbonaceous matter, it is said they will disappear if first well rubbed with a salve of pure acetic acid and lard, then with a solution of potash, and finally with hydrochloric acid. It would be advisable to consult a skin specialist.

## Deference.

Deference is the most complicate, the most indirect, and the most elegant of all compliments.—Chenstone.

## Price and Percentage.

Increase of price when measured in percentage is very often incorrectly given. When the price doubles the increase is 100 per cent, but many people describe it as an increase of 50 per cent.

## Plenty of Cream of Tartar Here.

Americans have for generations spent millions of dollars a year in Italy for cream of tartar, a household necessity which the grape regions of the United States can well supply. This is a by-product collected from the sediment of the fermenting vats and the sides of the tanks, against which it crystallizes during storage.
