**His Idea of Train's Action.**  
There is a story of a Suffolk (England) yokel who, having lived some distance from a railway station, and being content with the society around him, had never had need of a train, and, being brought into contact with a railway, stood watching this new wonder not far from a tunnel. His description of it afterward was that a train was more or less like a rabbit—"he ran up to the hole, let off an awful screech and bolted into it."

**No Chance at All For Joy.**  
Junior had spent several weeks one summer visiting a favorite aunt who lived in the suburbs, and he was reminiscient of those happy weeks when he again paid her a visit. However, she had moved, and now lives in a flat. When junior came home he voiced his grievance to his father, saying: "There wasn't no room to move around in; why, they didn't even have any kids in that building to fight with!"

**RELATIVE TO USED CARS**

There has gradually been developing a new feeling regarding used cars. For years, most used cars were looked upon almost as a plague, but during recent months our sales of the better and standard makes of used cars have been almost exclusively to the keenest type of buyers—men of wealth as well as business acumen—men who know motor car values when confronted with them—men who value and enjoy the pride of possession not one whit the less, because they have saved the first big item of depreciation, while they have retaining the real intrinsic value—the thousands and thousands of miles of reliable and satisfactory service.  
Our stock has been most carefully and thoughtfully selected. We have, for months, accepted only here and there a car of real merit and exceptional value from the great number offered us in trade, and all of these have been repaired and refinished if required.  
We feel that any prospective purchaser of a motor car or light delivery job will be impressed by even a casual examination, while a close inspection will convince him that from our stock he may select a high grade car at a price in keeping with his sound business judgment.

James Cook, 150 years later, while colonization was delayed until 20 years before the American Civil war. Colonization resembled the settlement of the American colonies in that settlements were made in half a dozen places instead of being promoted from a central base, according to the usual British method.

**Don't Be Too Curious.**  
A person who is too nice an observer of the business of the crowd, like one who is too curious in observing the labor of the bees, will often be stung for his curiosity.—Pope.

**Leading Question.**  
"My wife is practicing with dumbbells," proudly exclaimed a would-be athlete. "Do you find them any softer than the flatiron?" queried a wag who overheard the remark.

**On the Way.**  
The time seems to be coming when those who indulge in luxury and show will be regarded with quite as much suspicion and contempt as was formerly directed toward those who haunted the doors of chicken coops after dark.—Utica Observer.

# Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet.

A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!

**Queer Little Isle.**  
The smallest dependency of France is the Ile d'Hoedie, situated at the east of Bella Isle. Its population is 278. They do not speak French, but Celtic. They are provided with food at an inn managed by the women. The town has no streets.

**Added Percentages.**  
A 50 per cent increase for an article that costs \$1 would make it cost \$1.50. But for the article that has doubled in price the new price is 200 per cent of the old.

**Cuticura for Sore Hands.**  
Soak hands on retiring in the hot suds of Cuticura Soap, dry and rub in Cuticura Ointment. Remove surplus Ointment with tissue paper. This is only one of the things Cuticura will do if Soap, Ointment and Talcum are used for all toilet purposes.—Adv.

**Where Women Equal Men.**

**"Safety First" Better Known.**  
Today "safety first" is one of the most common expressions in the English language. Every one knows what it means and the principles it stands for.

**Counting Has a Limit in China.**  
Ten thousand is the largest number in the Chinese language. Therefore all large sums must be stated in multiples of this figure—the population of the country is four times 10,000 times 10,000, or 400 million.—Asia Magazine.

**Daily Thought.**  
Trust men and they will be true to you; treat them greatly and they will show themselves great.—Emerson.

**Economy.**  
The pot of gold at the end of the rainbow—has anybody ever seen it? Will anybody ever return with it? Economy may mean the difference between living in a poor house and supporting one.
