The BRUNSWICK Phonograph

Plays all Disk Records

We have the agency for this wonderful machine

Why Brunswick Tone

Reproduction Is Best

The Brunswick "Ultona" All-Record Reproducer and the new All-Wood Tone Amplifier—two improvements in phonographs pronounced by many, the greatest in years—are responsible for the wonderful tone of The Brunswick.

Both of these improved features can be had in The Brunswick only. And both are integral parts of the instrument—not attachments in any sense.

The Brunswick "Ultona" Reproducer plays all records at their best. Just a turn of the hand adapts it to any make of record, assuring the proper position on the record, the precise weight, and the required point—sapphire ball, diamond, steel, etc.

The "Ultona" is the only reproducer that fulfills these requirements, which are necessary to properly play all makes of records on any one machine.

Brunswick Records

Artistic companions of Brunswick Phonographs. These Records are made under the direction of great interpreters—men who have the power and faculty of developing musical selections as they would be played by the composers.

Just as there are directors for the opera, the stage, the orchestra, we now have directors for records.

Brunswick Records bear the impress of some guiding hand. One who knows how to bring out inherent qualities, the hidden beauty, the magnetic personality, the more spiritual intuitions of the composers.

Ask to hear these records. They will play on any phonograph with steel or fibre needle. Made by the House of Brunswick—a name renowned in the world of music. Compare Brunswick records with others. Be their sole judge! Look for something entirely different. Something sweeter, richer, truer! You'll find it in full measure in this new Brunswick disc!

We also have a nice assortment of Brunswick Records and at any time we will be pleased to play them for you.

Brunswick Phonographs are made in a wide range of styles, finishes and prices.

We sell them on easy terms if desired

THE UNIVERSITY OF OREGON

is maintained by the state in order that the young people of Oregon may receive, without cost, the benefits of a liberal education.

The University includes the College of Literature, Science and the Arts, the Graduate School, the School of Physical Education, and the professional Schools of Law, Medicine at Portland, Architecture, Commerce, Journalism, Education and Music.

High standards of scholarship are made possible by an able faculty, well equipped laboratories and a library of nearly 100,000 volumes.

Supervised athletics are encouraged and every attention given the health and welfare of the students.

With a heightened confidence gained by the recent expression of public support, the University is now entering upon an era of large development and extended usefulness.
