FORDSON

"I would rather have my Fordson than eight of the best horses. The Fordson Tractor is not only a great time saver, but the best tool I have ever owned."

This is what only one farmer says.

The BRUNSWICK Phonograph

Plays all Disk Records

We have the agency for this wonderful machine

**Why Brunswick Tone
 Reproduction Is Best**

The Brunswick "Ultona" All-Record Reproductor and the new All-Wood Tone Amplifier—two improvements in phonographs pronounced by many, the greatest in years—are responsible for the wonderful tone of The Brunswick.

Both of these improved features can be had in The Brunswick only. And both are integral parts of the instrument—not attachments in any sense.

The Brunswick "Ultona" Reproductor plays all records at their best. Just a turn of the hand adapts it to any make of record, assuring the proper position on the record, the precise weight, and the required point—sapphire ball, diamond, steel, etc.

The "Ultona" is the only reproductor that fulfills these requirements, which are necessary to properly play all makes of records on any one machine.

We also have a nice assortment of Brunswick Records and at any time we will be pleased to play them for you.

Brunswick Phonographs are made in a wide range of styles, finishes and prices.

We sell them on easy terms if desired

R. E. WILSON CO.

Brunswick Records

Artistic companions of Brunswick Phonographs. These Records are made under the direction of great interpreters—men who have the power and faculty of developing musical selections as they would be played by the composers.

Just as there are directors for the opera, the stage, the orchestra, we now have directors for records.

Brunswick Records bear the impress of some guiding hand. One who knows how to bring out inherent qualities, the hidden beauty, the magnetic personality, the more spiritual intuitions of the composers.

Ask to hear these records. They will play on any phonograph with steel or fibre needle. Made by the House of Brunswick—a name renowned in the world of music. Compare Brunswick records with others. Be their sole judge! Look for something entirely different. Something sweeter, richer, truer! You'll find it in full measure in this new Brunswick disc!
