### Good Advice

The Tygh Valley Fair of Southern Wasco county has again been realized—eight consecutive years—with an agricultural fair, stock and other exhibits as required to fulfill the true spirit and purpose and meet the demands of a county agricultural fair.

Let us look back over the year that has gone. From an agricultural standpoint we were never entitled to a good fair more than in 1920. A cloud was thrown over the southern part of the county by the severe cut in the fair funds for the eighth annual fair at Tygh Valley. It staggered us to think of financing a fair on \$600, but public won out. The enthusiasm of Southern Wasco county spread northward toward The Dalles until the county superintendent and county court and fair board swelled the fund to \$925.00. The balance had to be made up from gate receipts and personal pledges. The fair has been held and no debts incurred. This speaks well for the people and the fair management.

What about the exhibits? They were below standard, not because we lacked the products—no—but due to the damper thrown over the district by the announcement that the fair had been killed by the action of the board.

We did the best we could but what about next year? It is not too early nor is it too late now to think of our fair for 1921.

Sunday the fair board and others who are public spirited will meet at Tygh Valley to consider the next fair.

The departments of the fair are many and must each be handled by a committee head, who is responsible for the work of the department.

The committee on concessions will know 30 to 60 days before the next fair date all about the shows.

Committee on races and sports will know just what program—races, games and contests are to go on and a separate race program will be published and scattered broadly in advance. Thus through the several departments the good work must be done to insure success for 1921.

Exhibits must be thought of at seed time and from then to harvest must be carefully studied and selected and kept against that day of the fair. Any less loyalty or service will spell failure for the exhibits.

The stock, fowls, swine and rabbits, etc., must be found. Many good horses, stock and hogs this year did not appear that should have been featured. A man cannot say he is 100 per cent loyal who with holds his

### Ford Prices Before the War

In 1904-05 and 6 Ford Touring Cars sold for \$2,000.00 F. O. B. Detroit.

The new price is \$440.00 F. O. B. Detroit and the present Ford Cars are the best cars the Ford Motor Company ever made.

Regardless of 146,065 orders on file for immediate delivery and millions of dollars worth of high priced raw material on hand, the new Ford prices were fixed on a pre-war basis in an effort to bring the business of the country and the cost of living to normal again.

The war started in 1914. Compare the new Ford prices, now in effect, with the 1914-15 prices.

	New 1920 Ford Prices	1914-1915 Ford Prices
Chassis	\$360.00	\$410.00
Runabout	395.00	440.00
Touring Car	440.00	490.00
Sedan, with starter,	795.00	755.00 without starter
Coupe, with starter,	745.00	750.00 without starter

All the above prices are F. O. B. Detroit

The new Ford prices are a cut to the limit. The new Oregon allotment of 1176 Ford cars per month assures you of reasonably prompt delivery.

You want one—you need one—place your order now and get one.
