HILL'S CASH STORE

I have purchased J. R. Lewis stock of goods and will keep a full line of groceries. Give me a trial, I am here to please the public. Let me figure with you on your winters supplies. It pays to buy in large quantities and I can save you money.

Why stay in the same old rut year after year? Do you know when you have a bill charged you pay for having it charged? Do you know you also pay the other fellows bill; that doesn't pay at all. The credit system could not exist if it wasn't run that way. Why pay the other fellows bill? Will also carry a small supply of fresh meat.

R. D. BUTLER

Candidate for

COUNTY CLERK

Wasco County

Oregon Must Have A Port Equal to Any Port on the Pacific Coast.

Initiative measure No. 310 on the ballot gives to the Port of Portland means to create such a port.

The primary object of this bill is to furnish the means to insure the opening and maintaining of a 30 foot channel from Portland to the sea and of building and establishing port facilities at the City of Portland sufficient to handle the foreign and coastwise shipping of that port.

The cost of this improvement will be met by the people living within the boundaries of the Port of Portland.

When you go to the Polls November second vote 310 YES and give to the Port of Portland the power to maintain its 30 foot channel to the sea and to build adequate port facilities to handle all of the great products of the interior of the state.

The passage of this bill means lower freight rates for the product of Oregon in reaching the markets of the world and a consequent greater profit to the producers.

This is the most important and the most valuable measure that has ever been put up to the voters of the interior portions of the state.
