Commercial Club

Don't attend C. C. meetings if it rains. You might get your feet wet, and you are not in the physical condition you were in at the time of the last dance.

Don't think of going if it is a

moonlight night. There are lots of other things you could do that sort of a night. For instance—oh, roll your own ideas.

If you should attend a meeting find fault with everything that's going on.

Get sore at the organization if you are not appointed on a committee.

If you are appointed don't attend committee meetings. They often are a bore.

During discussion on a motion, keep still. After it has passed tell everyone why they should have voted it down.

When other members are hard at work trying to make the association a success its time to howl that the club is being run by a clique.

SHATTUCK BROS.

The Oregon State Chamber of Commerce is just completing its second year of work and it is with a feeling of satisfaction that we begin the preparation of our annual report. The demand for an organization of this kind was state-wide, the need being felt not only for some medium to act as a clearing house for constructive state development, but to coordinate efforts along all lines that mean something for a better Oregon.

The strength of an organization such as the Oregon State Cham-

ber of Commerce rests principally upon the strength and support of the individual membership, as such an organization is merely the grouping of individuals bound together by mutual interests and cooperating toward a given end.

We wish to thank you for your cooperation in the past, for it is only through the united efforts of all that we have been able to

MODERN
CRANKCASE
CLEANING
SERVICE

Dirt in your Engine Oil— Get rid of it!

A LARGE quantity of dust-laden air is "inhaled" by the daily operation of an automobile engine. With this road dust, carbon and fine particles of metal get into the lubricating oil and circulate through your engine, lowering the efficiency of its operation. Add to this dirt the gasoline that escapes past the pistons and dilutes the oil —

Here you have a combination that wears and tears and grinds away, every day adding a little more dirt and forcing a little more unnecessary wear on bearing surfaces. Result: slow response—less power—poor performance—shorter engine life.

Our new Modern Crankcase Cleaning Service is the enemy of dirt in the crankcase—it means "clean oil in a clean engine." The

Catal Flushing Oil we use is the new, scientific, thorough flushing agent that does not contaminate the fresh Zerolens refilled into your cleaned crankcase. This modern, convenient service, given quickly and at a nominal cost, returns your engine to you clean and fresh, ready to give that satisfactory performance you expect. Today: Being in your car for Modern Crankcase Cleaning Service.
