Little Things

Little drops of water poured into the milk, give the milkman's daughters lovely gowns of silk. Little grains of sugar, mingled with the sand, make the grocer's assets swell to beat the band. Little bowls of custard, humble though they seem, help enrich the fellow selling pure ice cream. Little rocks and boulders, little chunks of slate, make the coal man's fortune something fierce and great. Little ads, well written, printed nice and neat, give the joyful merchants homes on Easy Street.
