Lower Farm Implement Prices

The break has come. For sometime prices paid for your farm products have been low. but natural for you to want lower prices on the farm implements used in producing your crops.

Announcement is made by the Oliver Chilled Plow Works of a general price reduction in their lines that brings prices to the basis of 1918. They are the first to make this reduction and are taking the loss that the move brings--for there has been little reduction in

labor or material--as their contribution in hastening a return to normal conditions This is your opportunity to secure new up - to - date Oliver quality implements that will help you produce a full crop, and get them at a price in line with the reduced prices on your farm products.
