Case 15-27 Kerosene Tractor

In fields where plowing is difficult—tough or baked soil, stiff grades, etc.—this Case 15-27 Kerosene Tractor will pull 3 plows easily. Where conditions are favorable, this tractor can pull 4 plows.

So it is a favorite on the average farm. It is neither too large nor too small.

In addition to its field work, it is designed for belt work, having the pulley properly placed. It will drive a Case 25x46 Thresher equipped with feeder and wind stacker or other machines requiring similar power.

The Case 15-27 has abundant reserve power. While rated at 15 horsepower on the drawbar, it can deliver more than 18

horsepower. While rated at 27 on the belt, it can deliver 33 horsepower. It is ever ready for the hardest job. It never tires.

All gears are cut steel, enclosed and run in oil. It has a four-cylinder valve-in-head motor, mounted crosswise on a one-piece main frame. This affords the use of all spur gears.

A Case Siphon Thermostat controls the cooling system and insures complete combustion of kerosene. A Case air washer delivers clean air to the carburetor.

There are dozens of betterments found only in this tractor. You should be familiar with them, so that you may make a careful comparison.

## Pulls 3 or 4 Plows

May we have the opportunity soon to point out Case superiorities?

### Business Is Business

"Business is Business," the Little man said,  
"A battle where everything goes,"  
Where the only gospel is "get ahead,"  
And never spare friends or foes.  
"Slay or be slain," is the slogan cold,  
You must struggle and slash and tear,  
For Business is Business, a fight for gold,  
Where all that you do is fair!"

"Business is Business," the Big man said,  
"A battle to make of earth  
A place to yield us more wine and bread  
More pleasure and joy and mirth;  
There are still some bandits and buccaners  
Who are jungle-bred beasts of trade,  
But their number dwindles with passing years  
And dead is the code they made!"

"Business is Business," the Big man said,  
"But it's something that's more, far more;  
For it makes sweet gardens of deserts dead,  
And cities built now roar  
Where once the deer and gray wolf ran  
From the pioneer's swift advance;  
Business is Magic that toils for man  
Business is True Romance."

"And those who make it a ruthless fight  
Have only themselves to blame  
If they feel no whit of the keen delight  
In playing the Bigger Game,  
The game that calls on the heart and head,  
The best of man's strength and nerve;  
"Business is Business," the Big man said,  
"And that business is to serve!"

Mrs. Andrew Cunningham left on the Saturday night train for a few week's visit with relatives at Condon.

### BULWARK AGAINST WINTER SHORTAGE

Some Facts About Cold Storage and the Charges of Manipulation and Exorbitant Prices.

Once again the subject of cold storage has come into the limelight of public attention; and this time in connection with the nation-wide search after the cause for the high cost of living.

There can be no argument in behalf of hoarding and holding back food supplies for speculative profits. But this is a matter quite apart from the true and legitimate purpose of cold storage; and unfortunately, because of the much agitation and damaging publicity that have centered about the subject from time to time, the real service performing function of cold storage has been largely obscured.

Laying in Winter Stocks.

City-wise people, and even country-wise people, have long since forgotten, amidst the conveniences of modern life, that there was a time in the history of our country when "laying in a winter's stock" devolved upon each household individually. Today, one does not even need to remember that there are not an all-year-around product; that butter is produced in scant amount in the winter, and cheese likewise. Not a few would be completely surprised to know that even meat production has its seasons of scarcity. The buyer for the household in those days simply goes to the store, any day in the year, expecting to find these and similar commodities on the market.
