## Athletic Club

The present movement on foot by the Maupin Athletic Club to lease Shattuck Bros' hall is a highly commendable one and deserves the support of every fair-minded person that is looking to the welfare of their own interest and to the interests of the community in general. No club can exist without a proper home, and with this in view, the committee appointed by the association consisting of W. O. Miller, O. F. Renick and Louis Derthick are circulating a petition to enlarge the membership of the present club to a point where they will be enabled to properly house the equipment necessary to an athletic club as well as the members.

The Maupin Athletic Club under the new regime will be subject to rules governing all athletic clubs in general, and its object to promote the physical and mental welfare of its members, the object first of all to develop physical stamina and good health necessary to a successful career. Entertainments open to the public will be staged according to the dictates of the club and funds so secured will be used in the best interests of the association.

It is very likely that the organization will set aside certain afternoons for women members, and if a suitable instructor can be had, for the children also.

The committee would like to feel that they have the support of parents in this matter, and can assure all that may be interested that the Club will be a safe place for their children to go, and as stated above will be conducted according to the rules of a first class athletic club with as much equipment as the club will see fit to purchase and install. Mr. Shattuck will equip the hall with two shower baths, other equipment will be forthcoming if enough members can be secured, and this, together with what equipment the club already has will be sufficient for a very good start, and through entertainments, etc., it will not be long before the association will be in fine working condition. We solicit the support of everyone in what we consider an excellent cause.
