SUCCESS WITH YOUNG STOCK
Part of Constructive Benefits Lost by Failure to Properly Develop Animals.

To breed good dairy cattle and then fall to grow and develop them is to lose part of the benefits of constructive breeding. More beginners fail because they do not properly feed the stock they buy or breed, than fall from any other cause. Find the farmers who grow out their young stock, and you will find men who are making a success in their animal husbandry enterprises.

MUCH BUTTER IS IMPORTED
Efficiency of Foreign Dairymen is Largely Responsible for Large Amount Coming Here.

The efficiency of the foreign dairymen is largely responsible for the vast amount of imported butter reaching this country. In Denmark the average cow's production is 220 pounds of butterfat a year. The average cow in this country is credited with less than 150 pounds.

First Rule of Feeding.
The first rule of successful and economical feeding of dairy cows is to give all the good roughage the cow will eat, making as much use as possible of those roughages on the farm.

NEW WAY TO RAISE WRECKS.
Still another method is being tried for raising wrecks from great depths. The latest thing in this work is hypodermic salvage. It is found that in vessels loaded with bags of rice, grain and malt it is possible to give them, so to speak, a hypodermic injection of compressed air. A sufficient quantity of this air is retained in the mass to make it buoyant. It is then possible to shift the grain from one part to another without its losing its quality.—Boys' Life.

WRIGLEYS

"AFTER EVERY MEAL"
Mint leaf, peppermint or luscious juicy fruit, either flavor is a treat for your sweet tooth.

And all are equally good for you. Teeth, appetite and digestion all benefit.

Your nerves will say "thank you." your vim will respond.

WRIGLEY'S is liked for what it does as well as for its BIG value at the small cost of 5c.

The Flavor Lasts

Color and Precious Stones.

Diamonds are not always crystal clear, but very greatly as to color and few of the precious stones are true to color. The famous Hope diamond is a real and most beautiful blue. Green diamonds are found, and others of a lovely crimson, but these are very rare. Black diamonds are common enough. Black pearls are rarer, but are found. Pink pearls are greatly prized.

Chinese Use of Paper.
In the art of making and using paper we are not in line with the Chinese and other Asiatics, who not only make the finest paper in the world, but apply it to all sorts of uses, making window panes, umbrellas, fans, sandals and even cloaks and garments of it.

To Have a Clear Sweet Skin.
Touch pimples, redness, roughness or itching, if any, with Cuticura Ointment, then bathe with Cuticura Soap and hot water. Rinse, dry gently and dust on a little Cuticura Talcum to leave a fascinating fragrance on skin. Everywhere 25c each.—Adv.

Expansion of Water.
While nearly all substances are heavier in solid form than in the liquid state, ordinary ice is lighter than water and will float in it. This is due to the fact that as it approaches the freezing point water begins to expand, and when it freezes, it expands so as to increase its volume about one-ninth. This expansive force is sufficiently strong to split open great rocks in the crevices of which water has frozen.

"French Leave."
Many authorities believe that the term "French leave" originated in a French custom in the eighteenth century of withdrawing from crowded assemblies without taking leave of host or hostess. Others maintain that the word "French" is a corruption of "frank," meaning "free."

Rose Leaves Again.
Rose bowls are no longer old fashioned, but modern, comes the word from New York. The idea of keeping rose leaves has been revived and Chinese pattern bowls are becoming very popular.

When Green and Tender.
It is in our salad days that we are most particular about our dressing.—Boston Transcript.

Did it Seem That Long?
Santa Cruz News—"She was sixty-nine years of age and she had been married for more than a century."—Boston Transcript.

Land of the Orris Root.
Orris root, which is used as a basis of many perfumes, is obtained only around Florence and in the neighborhood of Verona.

Cuticura Soap AND OINTMENT Clear the Skin
Soap 25c, Ointment 25c and 50c, Talcum 25c.

TAKES UP SCHOOL GARDENS
Polish Children Enlisted in the Garden Army by the Junior Red Cross of America.

Washington.—Modeled along the lines of America's school garden army, is the force of Polish children formed by the Junior Red Cross of America when that organization was called upon to carry relief and cheer to the children of Kosciusko's land. With the first warm spring days thousands of

youngsters in Poland will gather up their hoes, rakes and spades and advance upon vacant lots, determined to convert them into vegetable and flower gardens, just as will young America.

Of the many things which the Junior Red Cross introduced to the children of Poland, community gardens made the strongest appeal. It not only gave the children a chance to take up gardening, but also provided healthful recreation for thousands of stunted, undernourished little bodies fighting an

equal battle with disease in the crowded capital of Poland, Warsaw. In addition it has already helped to keep the wolf of starvation away from many a home.

The children enlisted in the garden army in Warsaw raise potatoes, beets, carrots, cabbage, parsnips and beans. Their fall crop in 1920 comprised 93 tons.

The success of the Warsaw gardens last year was so pronounced that they will be extended to other centers this

spring.
