ALFALFA AS HORSE ROUGHAGE
 Plant is High in Protein and Minerals and is Especially Good for Young Stock.

Alfalfa receives great favor as a horse roughage. It is high in minerals and protein and is especially good for young stock. Because it is laxative in effect and high in protein, it is always best to limit the amount of alfalfa to one-half or two-thirds of the total hay ration. The rest may be timothy hay. Use alfalfa with a ration that is low in protein. Corn as a grain and alfalfa as a roughage make a balanced ration.

BEST LIVE STOCK CHEAPEST
 Opinion of Virginia Farmer Who Thinks Breeders Are Aiming to Procure Purebreds.

"From 30 years' experience in breeding thoroughbred horses and later dairy cattle, I have found that the best is the cheapest." This is the opinion of a Virginia farmer in a statement to the United States Department of Agriculture. "I think all raisers of live stock in Virginia are aiming to procure purebred sires."

Good Mixture for Hogs.
 It is good policy, where possible, to keep charcoal, wood ashes, slaked lime and salt in a sheltered trough where hogs can have access to same at will.

Silage for Horses.
 Silage should not be considered as a mainstay for horses, as its use is preferable only in limited amounts as a small supplement to the regular ration.

Important in Sow's Ration.
 High content of protein and mineral matter is required in the sow's ration, because her milk is high in these materials which form the bone and muscle of the young pigs.

Alfalfa Hay Valuable.
 Good alfalfa hay is a valuable feed in the suckling sow's ration, and, if available, can well be used to replace part of the tankage.

Maintaining Brood Sows.
 Proper feeding and economy go hand in hand in maintaining brood sows through the gestation period.

Purebred Sire Essential.
 A pure bred sire is one of the first things every farmer and breeder of stock should invest in.

Big Job of Milking.
 The job of milking is some chore when we consider that there are 24,000,000 dairy cows in the United States that have to be milked from two to four times a day, according to their production.

Importance of Silage.
 In feeding ensilage, you save one-half on hay and you have one of the best feeds that man ever fed to cattle. It acts as a conditioner and makes stock more hardy.

WRIGLEY'S

"After Every Meal" Everywhere

All over the world people use this goody for its benefits, as well as its pleasure.

Keeps teeth clean, breath sweet, throat soothed.

Sealed Tight—Kept Right

Good Friday.
 Has been observed since the earliest days of Christianity in memory of the crucifixion of Christ, which event is said to have occurred Friday, April 15, 29 A. D., or April 3, 33, A. D. The expression "Good (probably God's) Friday" is said to be peculiar to the Church of England. It is observed the Friday before Easter.

Love and Machinery.
 The man who does not love his farm machinery never ought to have any. He ought to be compelled to do his plowing with a crooked stick and brush his grain with the top of a tree, because he will let his tools rot and rust out in the fence corner and laugh at you when you tell him there is a better way. Love takes care of the plows and binders and the threshing machines. Nothing else will.

Solved!
 That indefinable something which we call charm is what enables a girl to violate the traffic rules day after day with absolute impunity.—Ohio State Journal.

There's Various Kinds of Killings.
 Cosmetics, says the medical examiner, never killed anybody. And still many a girl has painted, as she dressed to kill.—Portland (Ore.) News.

Cuticura Soothes Baby Rashes.
 That itchy and burn with hot baths of Cuticura Soap followed by gentle anointments of Cuticura Ointment. Nothing better, purer, sweeter, especially if a little of the fragrant Cuticura Talcum is dusted on at the finish. 25c each everywhere.—Adv.

No Trouble—It's a Pleasure.
 A woman can put so much meaning into a look that one wonders why she even takes the trouble to say anything.—Boston Transcript.

Tiny Infants Become Robust.
 Parents whose children are abnormally small at birth can take heart, for recent figures show that tiny infants frequently grow up quite robust and of normal proportions.

Favored College Men.
 A professor says the best jobs are held by college graduates. Especially graduates of the electoral college.

Alcohol Stains.
 White stains left by alcohol on furniture can be removed by rubbing them with spirits of camphor.

Oh, Those Wavy Eyes!
 From a story: "She was a beautiful girl with wavy brown hair and eyes."—Boston Transcript.

In Ye Olden Time

Hoop skirts were worn by those who first asked the druggist for, and insisted on having, the genuine "Favorite Prescription" put up by Dr.

Pierce over fifty years ago. Dress has changed very much since then! But this "Prescription" for women has never been equalled.

No Red Tape.
 "One thing I particularly admire about the law of gravitation," said Sir Isaac Newton as he rubbed his head when the apple hit him, "is the simplicity and accuracy of the methods for its enforcement."

Sidewalk Perils.
 Statistics show that more people are killed and injured by tripping, slipping and falling than from any other accidents. Another argument against the pernicious habit of scattering orange and banana peels on sidewalks.

All That, 'n Then Some.
 After all, the question of how much it costs to support an infant is reasonably decided on the basis of how much money is available for the purpose.—Pittsburgh Gazette-Times.

Ice Evaporates Rapidly.
 Ice in the open air evaporates rapidly, even when there is no let-up to the frost. In less than a month it will lose 25 per cent of its weight in this manner.

Not Their Fault, Either.
 Widows, says a secretary of a widows and widowers' social club, are lonelier than widowers. Yes—but not long.—San Diego (Cal.) Sun.
