A SCOUT IS TRUSTWORTHY.
Beaumont, Texas, scouts were asked to undertake the delivery of telephone books. "We used to go out into the streets and get the first kids we saw who weren't busy, to do the job," says the manager of the local telephone company. "As a result we frequently found a number of books that had been thrown away, and their loss was costly. So now we have the scouts deliver the books because we can trust them." Worth while praise that and worth deserving.

Be like the bird that, halting in her flight
While on boughs too slight,
Feels them give way beneath her and yet
Knowing that she hath wings.

THE GIRL ON THE JOB
How to Succeed—How to Get Ahead—How to Make Good
By JESSIE ROBERTS

LUCKY STRIKES
THE business of making lucky strikes has by no means gone out of date. It isn't necessary these days to kill Indians or give a dying miner a drink. You can do it in less moving-picture ways than that.

A good idea properly handled has often proved the best sort of a lucky strike.

Take the case of Elsie Shaver of New York. She conceived an original idea in regard to dolls. She carried it out to the last detail, as perfectly as she could—and that means a lot.

The dolls found a welcome waiting for them. They were high priced, but they were worth it. And people bought them.

Now there is a little shop working fulltime making the dolls. There is a large force following the designs made by Mrs. Shaver. Money pours in, and it is a good business enterprise—just a lucky strike.

Other lucky strikes have been made by young women in the advertising business. Sculptors have made them with a quaint figure. I know a girl who had a bright idea regarding a department of the store where she works. She heads the department at a mighty good salary now.

Lucky strikes are good things, and we don't all fall on them. But I notice that each one that really brings success is accompanied by a lot of hard work. The lucky striker has not sat around waiting for luck to do the rest.

No. She got busy herself.

THE WOODS
By DOUGLAS MALLOCH

THE BIGGER THING.
JEST yesterday I watched an ant A-totin' in the summer sun; I saw him puff an' pull an' pant With little burdens, one by one. A wisp of straw across his way Once kept him busy for an hour, An' ant-miles long he walked that day To get around a bloomin' flower.

The sand he carried grain by grain— Great boulders that he had to lift— An', with his engineerin' brain, He sunk his shaft an' run his drift. An' then at night a Bigger Thing, To which the Little Thing must kneel, Creation's self-appointed king, Wiped out the anthill with its heel.

Laugh Reveals Character.
There are those who give themselves over to laughter quickly; there are others who hold back to the breaking point, and, if you are trying to make them laugh, you turn with a look of triumph when at last the ice is broken. All of these differing cases betoken character, and we are not far wrong when we say, "Let me hear you laugh and I'll tell you what sort of a being you are—whether you are a good companion or a strenuous one; whether we must take care that you do not get even with us. I'll tell you whether you are cynical, cruel, good-natured, honest or not to be trusted."

SURE.
He: Would you be satisfied with love in a cottage?
She: In a \$25,000.00 one—yes.

"A Man is as Old as his Arteries!"

This statement is literally true because the arteries are the channels through which nourishment reaches the cells and tissue fibres of the body. If you want to renew your youth, acquire vim, vigor and vitality the means are right at your hand—by taking an old well tried blood-maker that Dr. Pierce prescribed over 50 years ago. This vegetable compound of native roots is on sale at every drug store as Dr. Pierce's Golden Medical Discovery—in tablets or liquid. You feel its refreshing influence—poisons are cast out of the blood stream and you feel young. Send 10c to Dr. Pierce, Buffalo, N. Y., for trial package.

Carbon, a Chemical Element.
Carbon is one of the chemical elements. It forms more compounds than any other of the elements. Its compounds are found in every plant and animal, and the branch of chemistry that treats of these compounds is called organic chemistry. With oxygen it forms carbonic oxide, or carbon monoxide, and carbonic acid gas. With hydrogen it forms an extensive class of compounds known as hydrocarbons, which differ widely in their chemical and physical characteristics. The various carbonates occur very abundantly in the earth's crust.

Figures That Stagger.
It is probable the human population of this earth, itself only a winning atom in sidereal darkness, rises to upward of two billions, and is certainly not less than 1,650,000,000. But how many creatures of all kinds has prolific nature spawned upon its relatively minute speck in cosmos? If Noah took a pair of every living species aboard his ark, how vast an army did he have with him on his great flotilla, and how large must have been that mighty bark?

The Cuticura Toilet Trio
Having cleared your skin keep it clear by making Cuticura your every-day toilet preparations. The soap to cleanse and purify, the Ointment to soothe and heal, the Talcum to powder and perfume. No toilet table is complete without them. 25c everywhere.—Adv.

Initials of Famed Pioneer.
The name "D. Boone" was discovered chiseled in a rock at the mouth of a cave in Lincoln county, West Virginia. As the forms of the letters correspond with those found in the rocks of Kentucky it is thought that the famed hunter at one time made an expedition into that section of the country.

Keep Your Temper.
Some men are like popcorn—as long as they keep cool they can conceal what is in them, but whenever they get excited they turn wrongside out.—Boston Transcript.

Explanation in Order.
Irish Cab Driver—G'wan, shake yer self, ye moth-eaten old corpse! (Confidentially to his passenger) It was the 'orse I was spakin to, ma'am.—London Tit-Bits.

Greatest Zinc Mines in Jersey.
The greatest zinc mine in the world, located in Sussex county, New Jersey, has been worked almost continuously since colonial days.

Quality and Equality.
From a dramatic review: The play has one of the most evenly balanced casts we have ever seen—all rotten.—Boston Transcript.

Handicapped.
Another difficulty some people encounter in serious thinking is the circumstance that whenever they are not talking they're asleep.

Liberality.
Liberality consists less in giving much than in giving at the right moment.—La Bruyere.

Just So.
When opportunity knocks at the door a good many put on an extra loved jazz record.—Louisville Courier-Journal.
